Atlas has an outstanding line of HO Locomotives. The success of these "State Of The Art" Locos is apparent by the sometimes difficult search model railroaders have in finding a desired road name a few weeks after the models arrive at local hobby stores. Please don't get discouraged! Atlas is committed to producing the finest locomotives to the highest standards that model railroaders can ask. Listed above are the latest models and roadnames for these popular Loco's.

The "Hottest" Locomotives on the right track are at your Model Railroad Hobby Store starting early 1991. The Locomotive Roadnames listed above were produced in very limited numbers—Place your order today.

HO STARTER SET

NEW PACKAGE

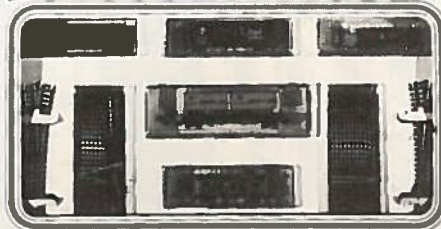

#88 NICKEL SILVER TRACK

Starting a model railroad layout? For a rewarding experience, try the new **Atlas HO Starter Set!** It's a "snap" to assemble because the **Starter Set** is made up of "Snap-Track", a proven model track system developed and manufactured exclusively by Atlas. Ideal in size, the **Starter Set** contains enough track for a 40" x 56" layout with 2 sidings.

Power Pack and locomotive not included.

ATLAS BOOKS - BEGINNER • HOW TO'S • PLAN BOOKS • INSTRUCTION BOOKS IN N & HO

#8 BASIC MODEL RAILROADING

Applicable to any scale. Logically planned and tailored to the entry level modeler of any age. Avoid common pitfalls **before** you make them! Basic skills made easy to eliminate first layout frustration! 18pp.

NEW

#9 HO BEGINNER'S GUIDE

Twelve excellent layouts buildable on easily available standard plywood panel sizes. 32pp.

#6 N SCALE BEGINNER'S GUIDE

Nine layout options for table tops. Complete wiring instructions plus chapters on benchwork and tracklaying 28pp

#11 HO CUSTOM LINE LAYOUTS

All time best seller since 1957. Complete instructions for ten different layouts plus seven pages of track planning templates. 50pp.

#7 NINE N SCALE RAILROADS

Step by step instructions for benchwork, tracklaying, wiring and scenery. Beautifully illustrated with dozens of large photos, this is the book to get you hooked! 50pp.

#12 WIRING YOUR LAYOUT

For any scale. Easy to follow text and drawings show how to wire just about any track arrangement using various popular ATLAS control-components. Turnouts, sidings, wyes, reverse loops, turntables and much more! 50pp.

#13 SIX HO RAILROADS

Fully tested layouts, completely illustrated with step by step instructions covering every stage of construction including benchwork, tracklaying, wiring and scenery. 50pp.

#14 KING SIZE HO RAILROADS PLAN BOOK

Measures a big 34" across when opened. Large photos and 2" to the foot (1/6 full size) plans to give you a real feel for six different model railroads. Every step, from benchwork to scenery. 36pp

CODE 83

#500 Nickel-Silver Flex-Track brown ties
#501 Nickel-Silver Flex-Track black ties

America's most popular line of ready-to-lay sectional track. Atlas' large variety of realistic and precisely made sections can have you running trains in short order.

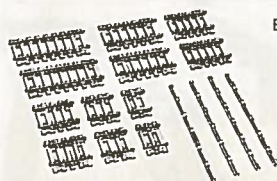

* These items now available with brown ties.

SNAP CROSSINGS

Each leg 6" long See page 5 for Custom-Line Crossings available in many other angles of intersection.

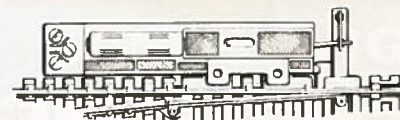

#39 30° brass rail #41 90° brass rail
#839 30° nickel-silver

SNAP-TRACK ASSORTMENT

Easy way to fill short gaps in trackwork
Two each of 6 short pieces: ¾", 1", 1¼", 1½", 2" and 2½"

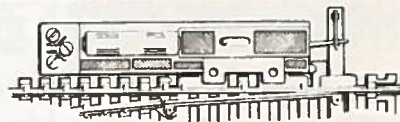

#47 BRASS RAIL
#847 N/S RAIL

SWITCH MACHINES—REMOTE CONTROL

Snap-on switch machines will convert any Atlas manual switches to remote control in no time at all

#52 Lefthand #53 Righthand

SWITCH MACHINES—MANUAL

For manual operation of switches located near control panel or other easily reached locations not requiring remote control operation

#62 Lefthand #63 Righthand

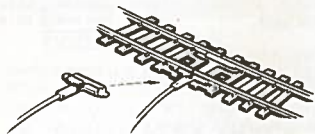

Realistic way to keep your equipment from rolling off the ends of sidings. Overall length 3¾"

BUMPER *

#43 BRASS RAIL #843 N/S RAIL

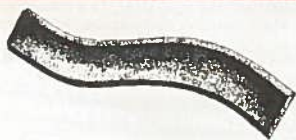

TERMINAL JOINERS

#42 Brass
#842 Nickel Silver

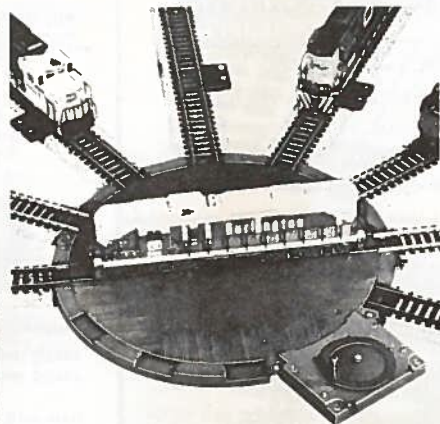

Easiest way to make power feeder connections to trackwork just about anywhere on layout. No soldering required.

HO SNAP-TRACK®

#110 NATURAL (cork-colored)

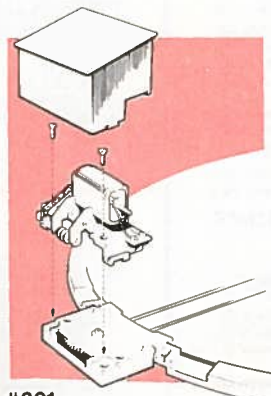

Bevel edged, rubber-plastic roadbed in 3' lengths. Adds much to realism and reduces trackboard rumble. Curvable to any track radius.

#302 TURNTABLE-MANUAL (BRASS)

#303 TURNTABLE N.S.

Fully assembled 9" diameter turntable indexes precisely to 11 positions 30° apart. Absolutely no "hunting" required. Surface mount; no cutting necessary. Manual crank operation; can be very quickly motorized for remote control operation with the #301 Turntable Drive Unit shown at right.

#301
TURNTABLE DRIVE UNIT

Quickly attaches with just two screws to convert the Atlas Turntable to remote control, motorized operation.

HO RAIL—SOLID "T" SHAPE

Code 100 rail for do-it-yourself track and turnout builders. Three-foot lengths in 99-foot bundles.

THE MARK 2 Custom-Line Turnout replaces our well known and popular Custom-Line and Custom-Line Supreme Turnouts while retaining and combining the very best features of both older lines.

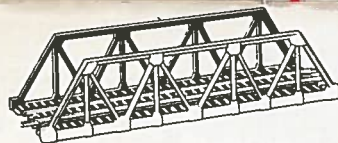

• **METAL FROGS** put an end to frog point wear on busy layouts. Best of all, when hooked up with the new Atlas #200 SNAP RELAY, described on page 25, the frog will be powered thus eliminating the old stall-causing dead spot common to all plastic frog turnouts.

• **SWITCH MACHINES** snap on or off in a matter of seconds allowing modeler to opt for concealed under-the-table mounting or a manual ground throw. Mark 2 Turnouts will accept older Atlas screw-mounted switch machines.

• **DIMENSIONALLY THE SAME** as earlier Custom-Line and Custom-Line Supremes, the new Mark 2's can be intermixed with the older turnouts without problem. Fits under table switch machine.

 HOBBY STORE IN 1991!

#83 WARREN TRUSS KIT (BRASS)

Assembles in minutes into authentic through truss. Floor system contains built-in track. Measures 9" x 2" x 2 1/4".

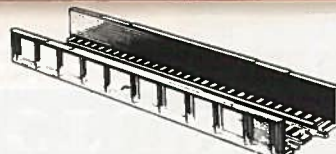

#883 Nickel Silver

#84 DECK TRUSS KIT (BRASS)

Fun-to-build kit quickly assembles into realistic deck truss. A string of several of these handsome bridges makes a genuinely impressive railroad scene. Floor system contains built-in track. Measures 9" long x 1 1/4" wide x 2 1/4" high.

#884 Nickel Silver

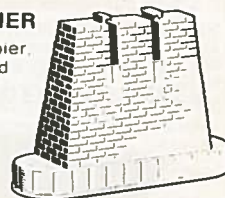

#85 PLATE GIRDER (BRASS)

Striking replica of scale 65' through plate girder bridge with steel plate floor system. Assembled, ready to install including track. Measures 9" long.

#885 Nickel Silver

#81 3" BRIDGE PIER

Cut stone masonry pier. 3" high supports and securely aligns all Atlas bridges and track by means of rugged snap-lugs.

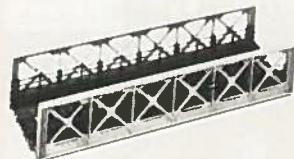

HO BRIDGES & PIERS

#82 PIER GIRDER

Adds realism and strength to end supported track on piers spaced 9" apart. Ideal where intermediate support piers must be omitted to permit passage of track.

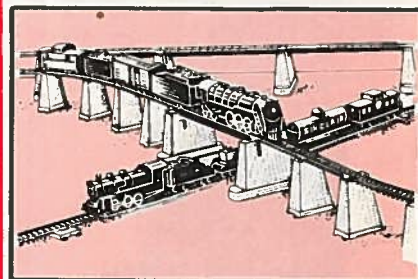

#86 PONY TRUSS (BRASS)

This finely detailed, simple to construct bridge kit is suitable for any ATLAS layout. Its 9" length substitutes exactly for a 9" section of SNAP-TRACK. #886 Nickel Silver

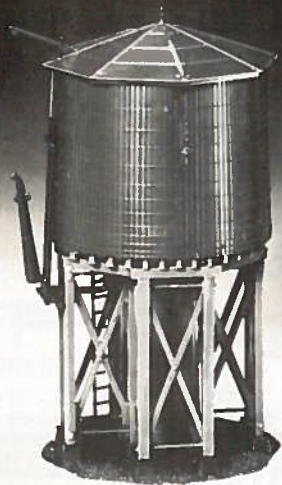

#87 CURVED CHORD (BRASS)

A full 18" long, this bridge meets the need for a big bridge without overpowering a layout. Both #86 and #87 are easily adaptable to ATLAS Bridge piers. #887 Nickel Silver

#80 OVER 'N UNDER PIER SET

Forty-six stone masonry piers and a #82 Pier Girder. Piers are graduated in height from 1/4" to 3" by 1/4" increments with 1/8" snap-in shims provided for intermediate piers. Approximate grades up and down in figure-8 arrangement using 18" radius curves is 2.6%.

#703 WATER TOWER

The all-time best selling HO water tank. Authentic down to the smallest detail including the padlock on the roof trapdoor.

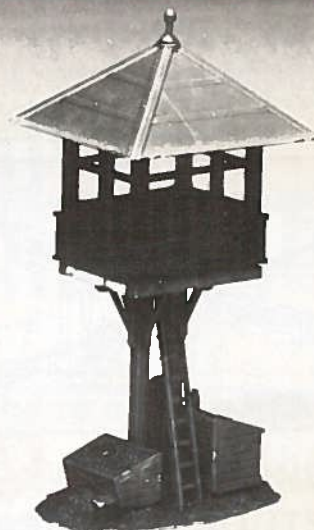

#706 PASSENGER STATION

An exquisite model with a host of realism-heightening details such as a baggage wagon loaded with express and luggage, freight scale and dolly and even a phone booth complete with tiny phone inside.

HO TRACKSIDE STRUCTURES

Featured on these two pages is the Atlas premier line of trackside structure kits. Made in the U.S. to strict American prototype and super-detailed to satisfy the fussiest modeler with absolutely no concessions to manufacturing convenience or economy.

All parts precision molded in appropriate colors. Kits include easy-to-follow instructions, decals and printed window glazing where required. Fun and really satisfying to assemble; try one and you'll be back for the rest.

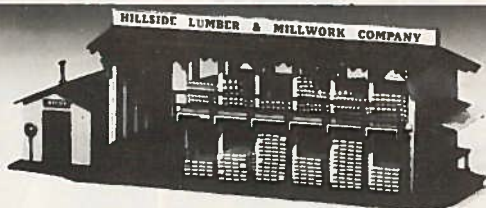

#701 ELEVATED GATE TOWER

Provides just the right railroad atmosphere at your grade crossings with its typical clutter of detail even down to such items as coal scuttle and lamps.

#760 ROADSIDE RESTAURANT

Finely detailed generic restaurant at home in any setting, from rural to urban.

#750 LUMBER YARD & OFFICE BUILDING

Detailing includes a radial-arm power saw and hand tools usually to be found around a lumber yard's saw table.

#702 TRACKSIDE SHANTY

Typical of the countless shanties to be found in any number of railroad scenes. All the finishing touches including the checkers-playing crew seated on their salvaged orange crate chairs.

#707 STATION PLATFORM (set of 2)

A perfect companion piece to the #706 Passenger Station. Use it to lengthen the station platform or to provide an across-the-tracks shelter opposite your station.

#715 REFRESHMENT STAND

#705 TELEPHONE SHANTY & POLE

Provides just the right touch beside that lonely branch or siding turnout out along the main.

#704 SIGNAL TOWER

A model of contest-quality detailing which includes partially open window sashes with shades, some in disreputable condition, drawn to various heights.

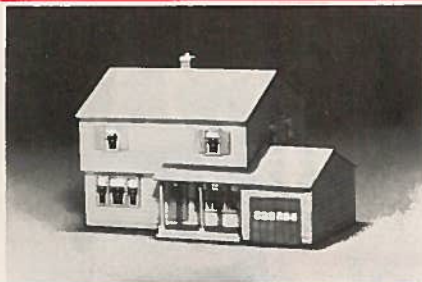

NEW

ATLAS HOME SERIES HO

**#600
RANCH
HOUSE**

The moldmaker's own home recreated for you in HO Scale!

**#601
COLONIAL
HOUSE**

Typical of housing developments throughout the country, this house includes such touches as window shades and drapes.

**#602
HISTORIC
HOUSE**

A throw-back to the early 19th century, this home even has a "cedar shake" roof to add authenticity.

**#603
CAPE COD
HOUSE**

Popularized in the 1940's, the classic Cape Cod has shutters and a detached garage offering numerous "expansion possibilities."

**#604
SPLIT LEVEL
HOUSE**

A bay window and "vertical blinds" makes this kit a good choice for more modern layouts.

ATLAS TOWN SERIES HO

NEW

Enhance your HO layout with our new line of contemporary structure kits. Made in the U.S.A. of polystyrene plastic, these finely detailed kits feature easy lock-fit assembly and require no painting.

**#606
CHURCH**

From its stained glass windows to the gold cross on the steeple, this lovely church works well in any HO layout and adds charm to winter scenes.

**#607
SCHOOL**

Buildable in numerous configurations, this basic school can be customized and used for any grade level! Separate flag and pole.

**#608
FIREHOUSE**

Every town and village needs one and this basic model is perfect from any angle!

**#609
MUNICIPAL
BUILDING**

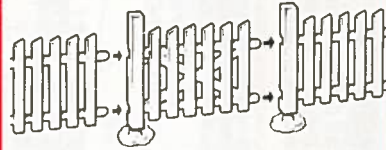

Finally, a place for your police department and tax assessor. Flag included!

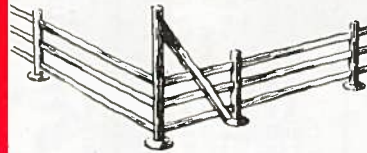

#610 MINI-MALL
With seven store fronts, this kit simulates retail malls found all over the country today. Comes with store name such as Joe's Deli and Bakery, but you can have fun naming them yourself.

NOTE: All twin-coil switch machines must be controlled by a normally-off momentary contact switch. Using any control device of other than momentary contact type will cause burn-out failure of the machines solenoid coils. Switch machines are not warranted against burn-outs thus caused. The #56 Switch Control Box is recommended.

**#2539
TERMINAL JOINERS**

Easiest way to make power connections to trackwork just about anywhere on layout. No soldering required.

**#2540 TRACK NAILS (ALSO FOR HO)**

Just the right size for fastening down sectional track. Approximately 400 nails per package.

RAIL JOINERS

#2535 N.S. Rail Joiners

#2538 Clear Plastic Insulating Joiners

#2500 SUPER - FLEX TRACK™ *

Curvable to any radius. Ideal for spiral easement curves. Easily cut to any needed length with a #400 Snap-Saw. (See page 30)

#56 SWITCH CONTROL BOX

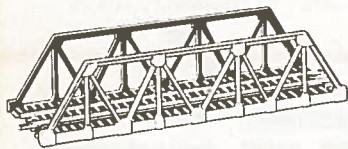

Single pole, double throw momentary action for control of Atlas (or other twin-coil) switch machines. Button position indicates switch setting. Can be coupled together in any number without wiring. Switch identification labels included.

N Scale

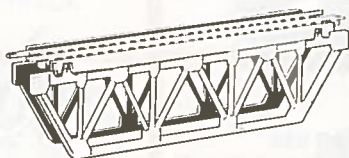

BRIDGES & PIERS

N Scale

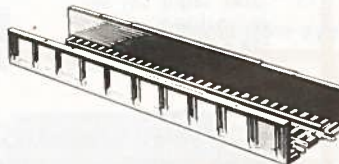

HIGHLY DETAILED AND AUTHENTIC BRIDGES READY TO INSTALL

#2546 WARREN TRUSS

#2547 DECK TRUSS

#2548 PLATE GIRDER

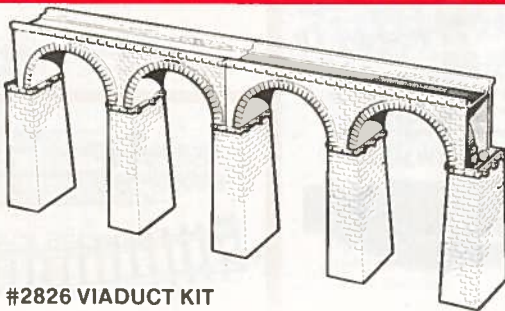

All same length as standard 5" straight section. Snap them together atop the #2543 Bridge Piers in any number and arrangement for an impressively realistic multi-span structure.

#2543 BRIDGE PIERS

Poured concrete piers, 1 1/16" high, securely support and align all Atlas bridges and track by means of rugged snap-lugs.

Easy to build kit assembles into impressive 4-arch cut stone masonry single-track viaduct. Arches are 2 3/4" center-to-center and 3 1/4" high. Can be joined end-to-end for any length viaduct and piers are easily shortened to any desired height. Arch assembly without piers is 1" high.

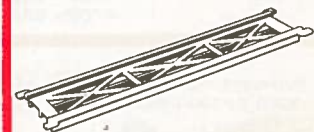

#2826 VIADUCT KIT

#2541 OVER 'N UNDER PIER SET

Two each of 12 graduated concrete piers plus #2542 Straight Pier Girder. Pier heights range from 9/64" through 1 13/16" by 9/64" increments. Grade with piers spaced at 5" intervals is 2.8%.

#2542 STRAIGHT PIER GIRDER

Add realism and strength to end-supported track on bridge piers. Straight girder is 5" long.

METAL RAIL JOINERS

#6041

ELECTRICAL

#200

SNAP RELAY

a double-pole, double-throw relay with actuating mechanism driven by momentary-power, twin coil solenoid.

WHAT IT WILL DO

With just a few simple connections this little (1-5/16" x 3-9/16") device, which can be mounted anywhere, will perform all sorts of tricks for you:

- **POWER THE FROGS** on Atlas' new Mark2 Turnouts. No more hesitation or stalling on dead turnout frogs.
- **TRACKSIDE SIGNAL LAMPS** to show turnout point position in yards.
- **CONTROL PANEL LAMPS** to show settings of remotely located turnouts.
- **SELECTIVE SIDING CONTROL.** Sidings are powered only when points are aligned for siding. Siding remains "dead" when points are set for the mainline.
- **CONTROL X-SECTIONS** automatically. This very useful track arrangements is thoroughly discussed in the 3rd Edition of the Atlas "Wiring" book.

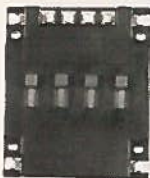

#65 UNDER-TABLE SWITCH MACHINE

Designed for use with all ATLAS HO SNAP SWITCHES and MARK 2/3 TURNOUTS.
(May be used with ATLAS N SCALE SWITCHES).

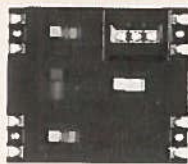

ELECTRICAL CONTROLS

Probably the most popular control panel switches in model railroading. Consist basically of multiple sets of the most often needed switch types internally pre-wired by printed circuitry. Eliminate all behind-panel, inter-switch wiring; you just run connections to the tracks. All are flush mounting; no need to drill large holes in panel.

#215 SELECTOR

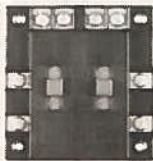

Four single-pole, double-throw switches provide two-cab operation for four blocks. May be ganged together in any number for control of additional blocks without inter-switch wiring. Can be used as area selectors for four-cab operation. Couples with #220 Controller below.

#220 CONTROLLER

Simplest way to wire and control tricky reversing loops, wyes and turntables. Has reversing switches for two mainline cabs plus a switch, selectable by either cab, for directional control on reversing loops, etc. Couples with #215 Selectors above.

#210 TWIN

Two DPDT switches in parallel. Useful for reversing section and turntable control on single-cab layouts plus many other applications.

#205 CONNECTOR

Three SPST on-off switches in parallel. Use to control power to sidings, accessories, etc. Can be ganged (coupled) together in any number.

#56 SWITCH CONTROL BOX

Single pole, double throw momentary action for control of Atlas (or other twin-coil) switch machines. Button position indicates switch setting. Can be coupled together in any number without wiring. Switch identification labels included.

#400 SNAP-SAW

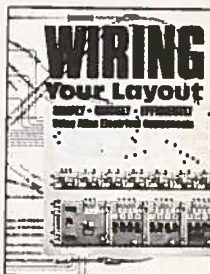

A long lasting, all-purpose saw for model builders. Extra-fine teeth make razor smooth cuts in wood, plastics, brass, nickel-silver, etc. Ideal for making short track-filler sections.

C199 FORMULA XX MOTOR LUBE

Ideal for model railroad equipment. Won't dry out or gum. Safe for plastics. Use on motor shaft bearings, axles, etc.

#12 WIRING YOUR LAYOUT

Easy to follow text and drawings show how to wire just about any track arrangement using the various popular Atlas control components shown on this page. Turnouts, sidings, wyes, reverse loops, turntables and all manner of other model railroad electrical questions are fully covered.

MISCELLANEOUS

HO

DIESEL LOCOMOTIVES

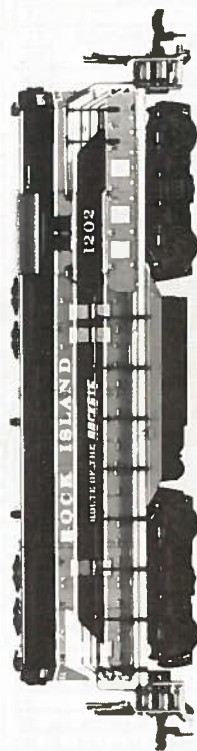

HO

Atlas has an outstanding line of HO Locomotives. The success of these "State Of The Art" Locomotives is apparent by the sometimes difficult search model railroaders have in finding a desired road name a few weeks after the models arrive at local hobby stores. Please don't get discouraged! Atlas is committed to producing the finest locomotives to the highest standards that model railroaders can ask. Listed below are the latest models and roadnames for these popular Loco's.

The "Hottest" Locomotives on the right track are at your Model Railroad Hobby Store.
