*"The model railroad hobby owes Atlas a great debt for upping the ante on plastic model quality and performance."*

Atlas customer, Pat Scopelliti

*"The quality and value of your products has been something I could rely on over the years."*

Atlas customer, Jim Montgomery

Cover photo shows Atlas' Classic HO RS-3 locomotive pulling 2-bay offset-side open hoppers. Layout and photo by Lou Sassi. This photo as well as other photos throughout the catalog depict freight cars and locomotives that have been weathered. All Atlas freight cars and locomotives come unweathered.

# Introduction

From the Collection of  
"HOseker"

HO layout and photo by Lou Sassi.

Dear Model Railroader-

*Welcome to the year 2000 with Atlas Model Railroad Company.*

For over 50 years Atlas has produced quality, precision track, trains and accessories for the model railroad enthusiast. We have maintained a proud tradition as a family owned and operated business, with a legacy that demands we use the very best human resources and technology to create the very best products at all times. With the assistance of an active and loyal group of supporters, the result has been the creation of one of the most successful model railroad companies in America.

The essence of model railroading is the fun and fascination of recreating a realistic time and place of your choosing. The Atlas product development philosophy is to accurately reproduce track, freight cars, locomotives and structures found on or near America's railroads in the past and present. At present, each one of our models is designed to scale dimensions and details.

Atlas locomotives and freight cars look so true to life you feel as if you're holding an actual train in the palm of your hand. The brake gear, handrails, grab irons and other intricate pieces are superbly detailed and correctly positioned. Computer generated artwork results in painting, masking and printing on each model that is so well executed, with sharp lines and graphics, permitting you to read even the smallest build dates, weights and other data that can be difficult to read on a real train. Since the most fun you can have in model railroading is operating your trains, we make sure to build the internal mechanism with as much care as the outer body. First class motors and turned brass flywheels assure years of running super smooth, high performance locomotives.

The 21<sup>st</sup> Century holds the promise of excitement for model railroading, and we guarantee, for Atlas model railroaders. Continuing advances in technology will lead us to more innovative and well made products that will provide increased customer selection and satisfaction. In particular, Atlas is committed to developing breakthroughs in digital technology as a vehicle to help grow our company and industry in the new millennium. We look forward to continually providing you with upgrades and additions to our present product lines and to the launching of totally new ones in the future. Thank you for your enthusiastic support.

Sincerely,  
Diane Schaffan Haedrich, President

# N Scale vs. HO Scale vs. O Scale

The most popular question asked by new model railroaders is "What's the difference between the scales available?" Here's some information to help you learn more about model railroad "scales."

(N scale)

## PROPORTION AND SIZE

It's easy to define the various scales in terms of a ratio. N is 1:160 the size of real trains, HO is 1:87, and O scale is 1:48. This means, for example, that HO is 1/87th as long as its prototype, 1/87th as tall, and in every dimension its proportions are 1:87. In terms of actual size, HO scale locomotives and freight cars, depending on the type (whether it's a switcher engine or a more modern GE locomotive, for example) could range anywhere from 5" to 9" long and about 2" high. The track is 1 1/8" wide. N scale is just about half the size of HO, with locomotives and cars measuring about 3" to 4" long and 1" high, and the track 5/8" wide. O scale is the biggest of the three, with locomotives being anywhere from one to two feet long, and about 5"-6" high; the track is about 2-1/4" wide. If you are familiar with classic Lionel trains, then you know what size O is.

## PRODUCT AVAILABILITY

Since HO is the most popular scale (by definition of the most modelers engaging in it), it's the scale that enjoys the greatest variety of available products. N scale is second to HO, and has picked up speed in the race for popularity over the past ten years. The variety of products available in N scale therefore follows close behind HO. O gauge, on the other hand, services a more limited market and is offered by a select few companies, limiting the variety of products available. However, Atlas O, LLC has added significantly to the amount and type of products available for O modelers everywhere. To order an Atlas O catalog, please call (908) 687-9590.

(HO scale)

*"What's the difference between the scales available?"*

## PRICING

Contrary to what might seem logical, there is no ratio between price and size when it comes to scale models. HO and N scale tend to be in the same price range when it comes to locomotives; however HO freight cars are about twice as expensive as N scale. In contrast, O products are significantly more expensive than both HO and N due not only because of its size, but because of the smaller market, type of detail and auxiliary features (like sound) that are the cornerstone of O railroading.

## OPERATING ABILITY

Because of its minute size, N scale tends to be considered the "operating scale," enabling you to fit a complex layout with lots of operating capability into a small space. HO takes up a lot more space, but some consider it to be a more reasonable size to handle. HO tends to offer just as much operation ability as N, it just requires a larger area to do it in. O scale layouts tend to be less complex, but no less fun, since they generally incorporate sound, operating accessories and other such functions which make operation exciting and very life-like.

So, if you're looking for HO and N scale, please see the following pages for a variety of fine-quality, prototypical products designed, developed and manufactured by Atlas Model Railroad Company, Inc.

# Layout Software

## #370 Atlas Right Track® Software **VERSION 4.0!**

\$34.95 (For PC's only)

The Right Track Software has become a popular layout design tool for modelers of all skill levels. Version 4.0 of RTS has been enhanced to include features our customers asked for. As always, the program allows you to use Atlas track, switches, buildings and electrical components (and buildings from other manufacturers) to design the layout you've always wanted. You can draw in your benchwork, place and connect track, add elevations, helices, parallel tracks, transition curves, roadbed, and much more! You can print your layout in any size, and even print a list of materials used so you can take it to your local hobby store for reference. It's easy to use and fun to use too!

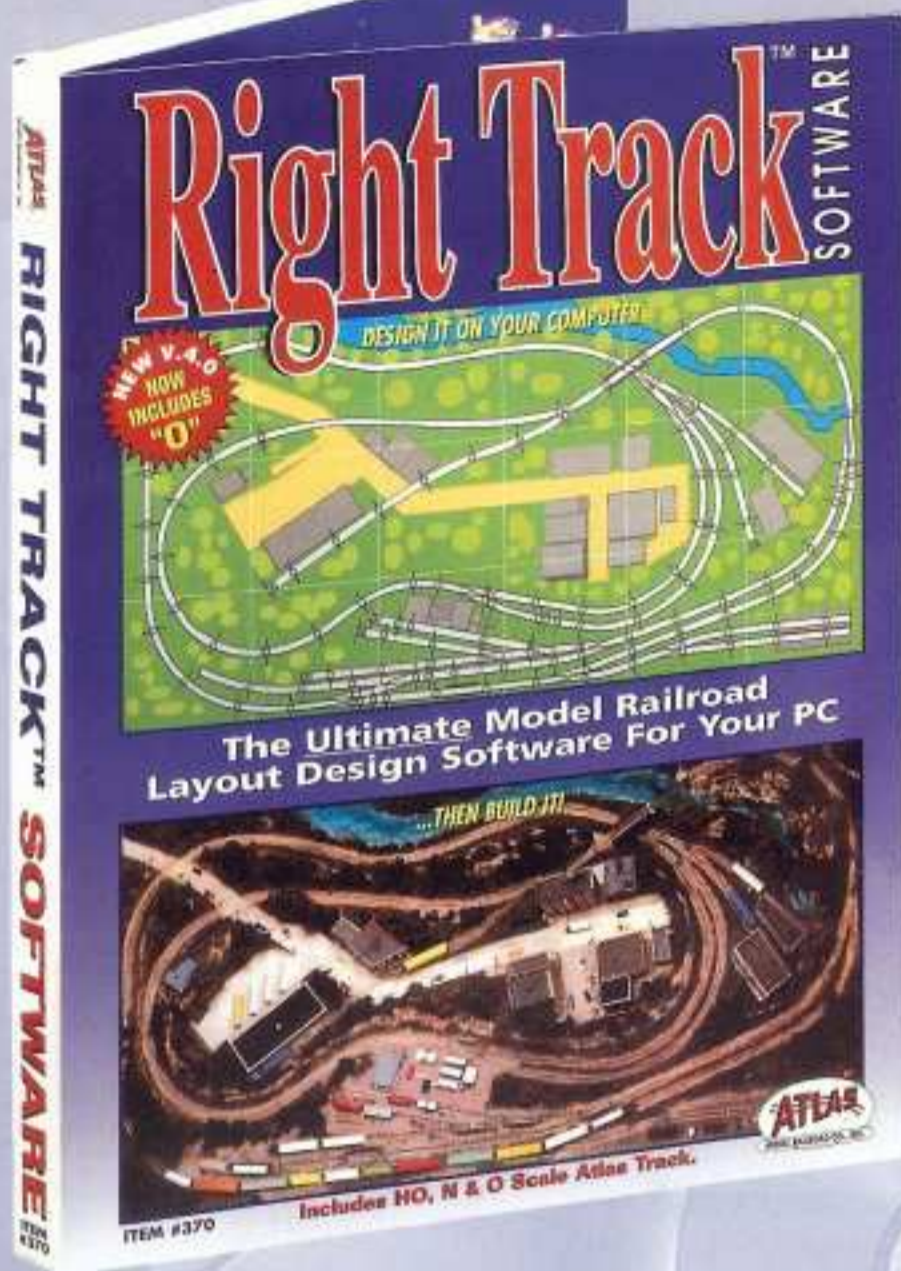

Includes an online manual and free technical assistance by phone, fax and email.

### New features include:

- NEW ATLAS O<sup>®</sup> TRACK & STRUCTURE LIBRARIES!
  - Location of parallel tracks can now be defined
  - Elements can be fixed to benchwork
  - Visible track ties
  - Ability to create crossovers and ladders
  - Flex track gradients can now be calculated
  - Ability to search and replace elements
  - Several undo steps (adjustable)
  - Color can be added to elements according to layer number or height
  - Zoom function made easier
  - "Stock List" allows you to enter items you already have, and program will then calculate items you still need
  - Autosave function
- AND MUCH MORE!!!**

**System Requirements:** PC with 386SX or better, Windows '95 or '98, floppy drive, 5MB hard drive disk space, 4MB RAM (8MB recommended), mouse and VGA monitor.

**From the Collection of  
"HOseeker"**

## #371 THE ENTIRE ATLAS LIBRARY - NOW ON ONE CD-ROM!

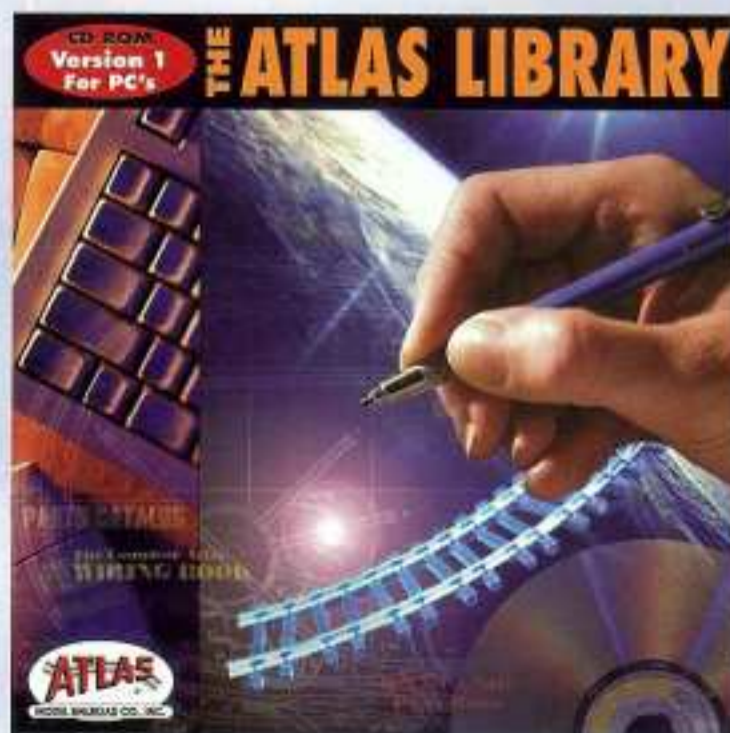

\$19.95 (For PC's only)

Now, all on one interactive CD, you can view every Atlas HO and N scale layout instruction book, The Complete Wiring Book & Parts Catalog. That's over 8 books in all! If you purchased all the books separately they would cost \$39.65, making this product a great value.

The CD-ROM version of each book includes all the text, blueprints, figures, diagrams and materials lists. "Jump hooks" allow you to quickly look up additional information about a topic you come across in the text (provided it is available within one of the other books). Understanding and planning your layout will be easier than ever before with this new CD-ROM product. Based on Logos Library Software, a popular concept in CD-ROM books.

**System Requirements:** PC with 386SX or better, Windows '95 or '98, floppy drive, 5MB hard drive disk space, 4MB RAM (8MB recommended), mouse and VGA monitor.

**LAYOUT  
PLANNING  
SOFTWARE  
FOR  
MODELERS!**

# Books & Track Templates

To help you get started building a layout that suits you, Atlas offers layout instruction books for beginner, intermediate & advanced model railroaders. Each layout book is aimed at a specific skill level and contains a variety of interesting railroad plans along with step-by-step instructions on building a layout table, laying down roadbed and track, wiring and scenery techniques for each layout.

## HO LAYOUT INSTRUCTION BOOKS

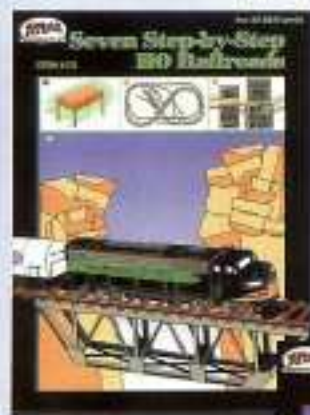

### #9 Beginner's Guide to HO Model Railroading

\$3.95 - Beginner (Level 1)  
44 pages, Layouts HO-1 to HO-12

### #11 HO Layouts For Every Space

\$4.95 - Intermediate (Level 2)  
52 pages, Layouts HO-13 to HO-23

### #13 Seven Step-By-Step HO Railroads

\$4.95 - All skill levels (Level 1-3)  
52 pages, Layouts HO-24 to HO-30

### #14 HO King-Size Plan Book

\$6.95 - Advanced (Level 3)  
68 pages, Layouts HO-24 to HO-30 (Four track plans in the #14 book fold out to become 11" x 17". This format makes them easy to see and follow.)

### #361 HO Track Planning Templates

\$3.95 - (Contains the entire Atlas HO scale track line)  
With Atlas Track Planning Templates, beginners can visualize the size and shape of their layout before they begin building; advanced modelers can determine whether or not a complex layout design will fit together the way they planned. The templates are exact paper replicas of all of the currently available Atlas track, switches, bridges, piers and viaduct. Each template can be copied on a copy machine to produce the amount of track pieces needed for a given layout. The templates can then be cut out and positioned, like pieces of track, into the desired layout shape.

### #360 N Track Planning Templates

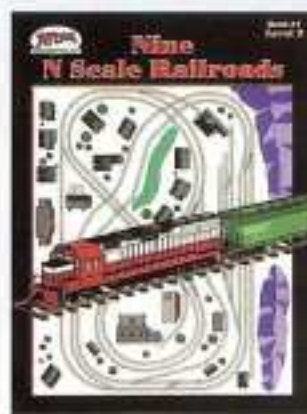

\$2.95 - (Contains the entire Atlas N scale track line)

## N LAYOUT INSTRUCTION BOOKS

### #6 Introduction to N Scale Model Railroading

\$3.95 - Beginner (Level 1)  
37 pages, Layouts N-1 to N-9

### #7 Nine N Scale Railroads

\$4.95 - Intermediate-Advanced (Levels 2-3)  
56 pages, Layouts N-10 - N-18

From the Collection of  
"HOseeker"

## REFERENCE BOOKS FOR ALL SCALES

### #3 Parts Catalog

\$5.00 - Contains exploded diagrams of Atlas locomotives with part numbers labeled for easy identification. Complete list of available parts and prices for all locomotives, freight cars, and miscellaneous products. Some assembly, repair and maintenance information included. Easy parts order form and ordering instructions provided. If you own or plan to buy an Atlas locomotive, this manual is a MUST.

### #12 The Complete Atlas Wiring Book

\$4.95 - All skill levels - 56 pages  
Atlas' Electrical Wiring System is made easy through step-by-step instructions on how to install and use our quality components on any layout. Starts beginners with the basics of wiring, and takes advanced modelers through complex wiring operations. Over 100 diagrams complimented by a complete glossary.

# Train & Track Starter Sets

## HO TRACK STARTER SETS

These three sets are a snap for beginners to assemble. Each contains enough Snap-Track®, Snap-Switches® and components to assemble a 38" x 56" oval layout with passing siding. Easily expandable as your skill level advances, simply by adding more track (sold separately). Complete assembly instructions provided. Power pack sold separately on page 30.

### HO TRACK STARTER SETS

Item#	Description	Price
88	Code 100* Snap-Track® (black ties with nickel silver rail)	\$32.25
588	Code 83* Snap-Track® (brown ties with nickel silver rail)	\$32.25
488	True-Track® (code 83 Snap-Track® [brown ties] with plastic gray roadbed base)	\$45.95

*"Ready, SET, Go!"*

## N STARTER SETS

This beginner set comes with 4 of Atlas' fine quality freight cars, a caboose and enough Snap-Track® to create a 22" x 30" oval layout.

### N STARTER SETS\*

Item#	Description	Price
4448-1	Pennsylvania	\$54.00
4448-2	Southern	\$54.00
4448-3	Santa Fe	\$54.00
4448-4	Union Pacific	\$54.00
4448-5	Baltimore & Ohio	\$54.00
4448-6	Canadian	\$54.00
4448-7	Burlington Northern	\$54.00

\*Locomotive & Power pack sold separately.

## HO PRO-LINE TRAIN SETS

This high-quality set has everything you need to get a railroad up and running (see contents listed below). The True-Track® assembles easily on any flat surface (including a carpet) and the high performance locomotive and freight cars are ready-to-run so no assembly is required. What makes this set special is the true-to-life appearance, as evident in the prototypical True-Track® and authentically painted and detailed trains. There is no other set that compares in realism and quality to the Atlas Pro-Line Train Set.

### Contents of Atlas' Pro-Line Train Sets:

#### TRACK

- True-Track®, Atlas' line of premium nickel silver roadbed-track
- 16 pieces to create a 56" x 38" expandable oval layout
- Assembles easily on any flat surface
- Terminal joiners for wiring included

#### LOCOMOTIVE

S2 or S4 "Switcher" Engine features:

- 5-pole skewed armature motor for reliable operation
- Sturdy, die cast mainframe
- Blackened wheels
- Dual-flywheels for maximum performance at all speeds

## ATLAS PRO-LINE TRAIN SETS

Item#	Description	Price
1010	Santa Fe S-2, Milwaukee Road Open Hopper, Northern Pacific PS-2, Santa Fe Extended-Vision Caboose	\$149.95
1011	Burlington S-2, Milwaukee Road Open Hopper, Northern Pacific PS-2, CB&Q Extended-Vision Caboose	\$149.95
1013	Maine Central S-4, Pittsburgh & W. Virginia Open Hopper, Jersey Central PS-2, Maine Central Extended-Vision Caboose	\$149.95

### From the Collection of "HOseeker"

#### ROLLING STOCK

- Ready-to-run offset-side open hopper, PS-2 covered hopper and extended-vision caboose
- The finest details, painting and printing
- Blackened metal wheels

#### THE "POWER"

UL Listed Custom-Power® 1700 Power Pack includes separate power and reversing switches

#### ACCESSORIES

- Trackside Shanty Kit (assembly with glue – not included – required)
- Railer (to help you get the trains securely on the track)

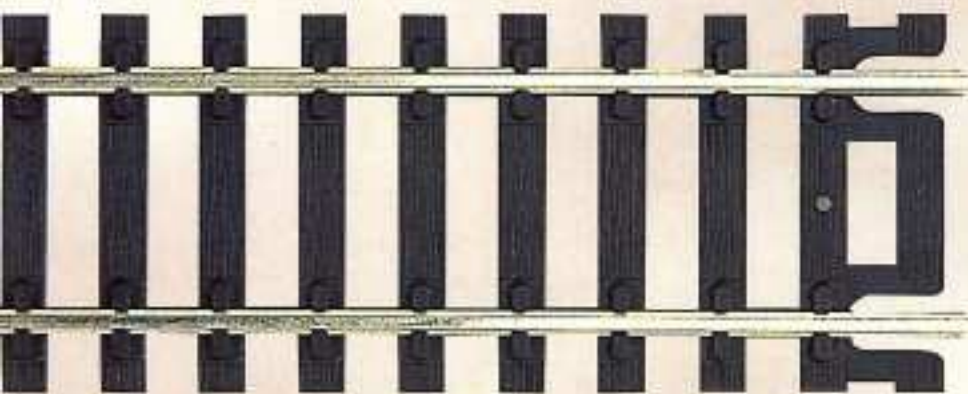

## HO Track FAQ's

Atlas is the leading manufacturer of model railroad track, worldwide. Here are some answers to the most Frequently Asked Atlas Track Questions...

*There are quite a few track manufacturers out there. Why should I use Atlas track?*

Atlas has been making HO scale model railroad track for over 50 years. We are known throughout the world for our famous Snap-Track®, patented Super-Flex Track®, and Custom-Line® Turnouts. Atlas track and switches are made from quality, injection-molded plastic and

(Black ties, nickel silver rail) Code 100

nickel silver rail so that you can be sure the layout you build will be reliable. What's more, Atlas track is surprisingly affordable.

*What's the difference between Atlas HO code 83 and code 100 track?*

Literally, the code of a piece of track is the height of the rail in thousandths of an inch (meaning code 83 rail is .083" high; code 100 rail is .100" high). The significant difference lies in the physical appearance of the two types of track. Atlas code 83 track has fine, brown ties whereas code 100 has slightly thicker black ties. Because of its accuracy (and the color of the ties), code 83 is more prototypical, and therefore more realistic than code 100. Code 83 is known as a finer-scale track, and is the choice of discerning modelers. Atlas carries a full line of both code 100 and code 83 products.

*I've heard that some rolling stock may not run on code 83 track. Is this true?*

The only rolling stock that may have problems on any code 83 track are very old European models. The reason is the flanges are too large. If you are running trains made within the last 20 years or so, you should not have a problem with Atlas code 83 track.

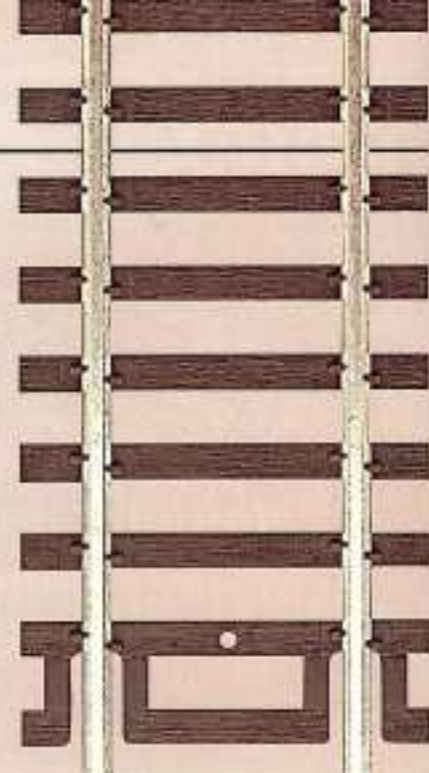

*Does Atlas offer that easy-to-use roadbed track?*

Yes, Atlas' brand of roadbed track is called True-Track®. Seen on page

12, True-Track contains a section of code 83 track, snapped into a gray, graveled roadbed base. It is easy to assemble and can be set up just about anywhere because it does not need to be secured to a board.

*How is Atlas' True-Track different from other brands, say Bachmann's EZ Track®?*

True-Track is more versatile because the track can be removed from the roadbed and used separately. This gives you options. For example, as you grow into the hobby you may decide you want to ballast your own track. With True-Track, you can do just that.

(Brown ties, nickel silver rail)  
Code 83

(True-Track®)

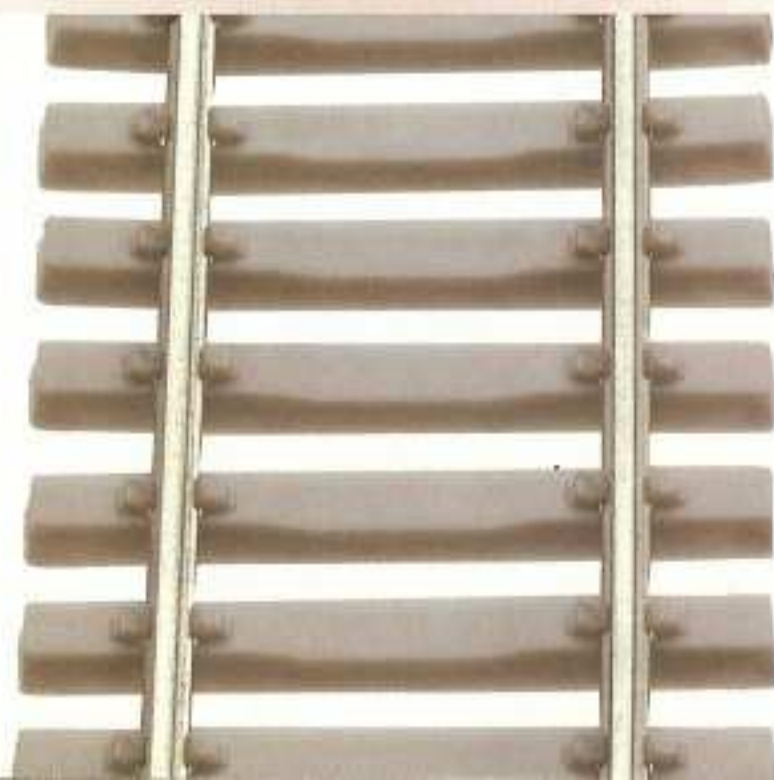

*Where do I start?*

**From the Collection of  
"HOseeker"**

Atlas offers four HO Layout Instruction Books that contain a total of 36 different railroad plans. Simply choose one and you're ready to go! See page 4 for details.

For more information, or to ask our track experts more technical questions, please visit our web site at [www.atlasrr.com](http://www.atlasrr.com). There is a forum there which is monitored by Atlas representatives during normal business hours.

(Detail of Code 83 concrete tie flex-track)

# HO Super-Flex® Track

Now you can enjoy more modern realism with Atlas' new Code 83 concrete tie flex-track! Each 36" section comes with spring clip detail and correctly tapered ties, as seen on real railroads today! (Shown below, left.)

## THE MOST POPULAR ATLAS TRACK PRODUCT EVER!

Talk to anyone with an HO layout and chances are it includes some of Atlas' famous Super-Flex® Track. This fine track product is known worldwide for its versatility, and, of course, its flexibility. What makes the patented Atlas Super-Flex® Track so unique is that unlike many other curvable tracks which tend to "kink" when flexed, Atlas' can be shaped and re-shaped until you achieve the desired form. Like all Atlas track, Atlas' Super-Flex® is a high-quality track made with injection-molded plastic and premium nickel silver rail. Like thousands of others, we know you will enjoy using it.

AVAILABLE IN CODE 83 AND CODE 100!

### HO SUPER-FLEX® TRACK

Item#	Description	Price
168	36" Code 100 Super-Flex Track with black ties, nickel silver rail	\$3.15
178	"5-Pack" - 5 pieces of 36" Code 100 Super-Flex Track with black ties, nickel silver rail	\$17.15
500	36" Code 83 Super-Flex Track with brown ties, nickel silver rail	\$3.75
502	36" Code 83 Super-Flex Track with simulated concrete ties	\$3.75

### MODELER'S SUPER SAW

Item#	Description	Price
400	Long-lasting, all-purpose saw is ideal for cutting Atlas Super-Flex® Track, and for making short track-filler sections. Extra-fine teeth make razor smooth cuts in wood, plastics, nickel silver, etc. (Color may vary)	\$2.70

From the Collection of  
"HOseeker"

## HO Track Nails & Rail Joiners

### RAIL JOINERS

Item#	Description	Price
55	Plastic Insulating - 24 per pkg.	\$1.15
170	Universal Rail Joiner - 48 per pkg., nickel silver Fits all Atlas HO Track	\$1.95
842	Terminal Joiners - 1 pr., nickel silver Terminal joiners are rail joiners with wires attached to allow electricity to flow from the power pack to the rails.	\$2.10

### TRACK NAILS

Item#	Description	Price
2540	Used to attach track or roadbed to layout table. (approx. 400 per 2 oz. package)	\$3.15

Rail joiners are small clips used to join two sections of track mechanically. They come in metal (nickel silver) which also connects the rails electrically, and plastic which are insulated to isolate the two sections of track electrically.

#55

#170

# Code 83 Snap-Track®

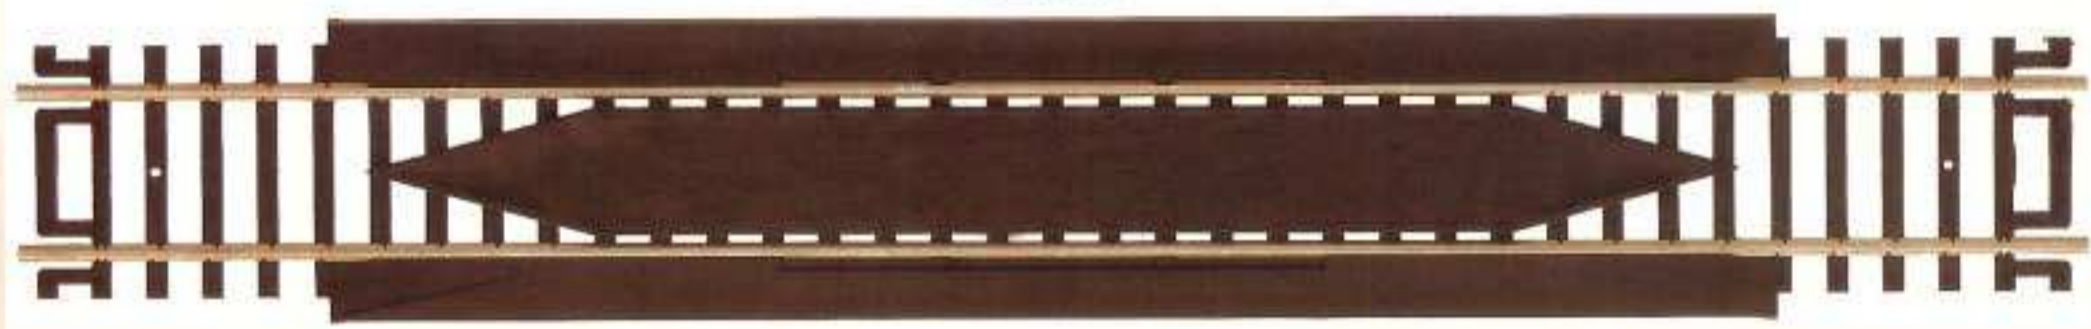

*The Track of the Future!*

## WHY ATLAS CODE 83 TRACK?

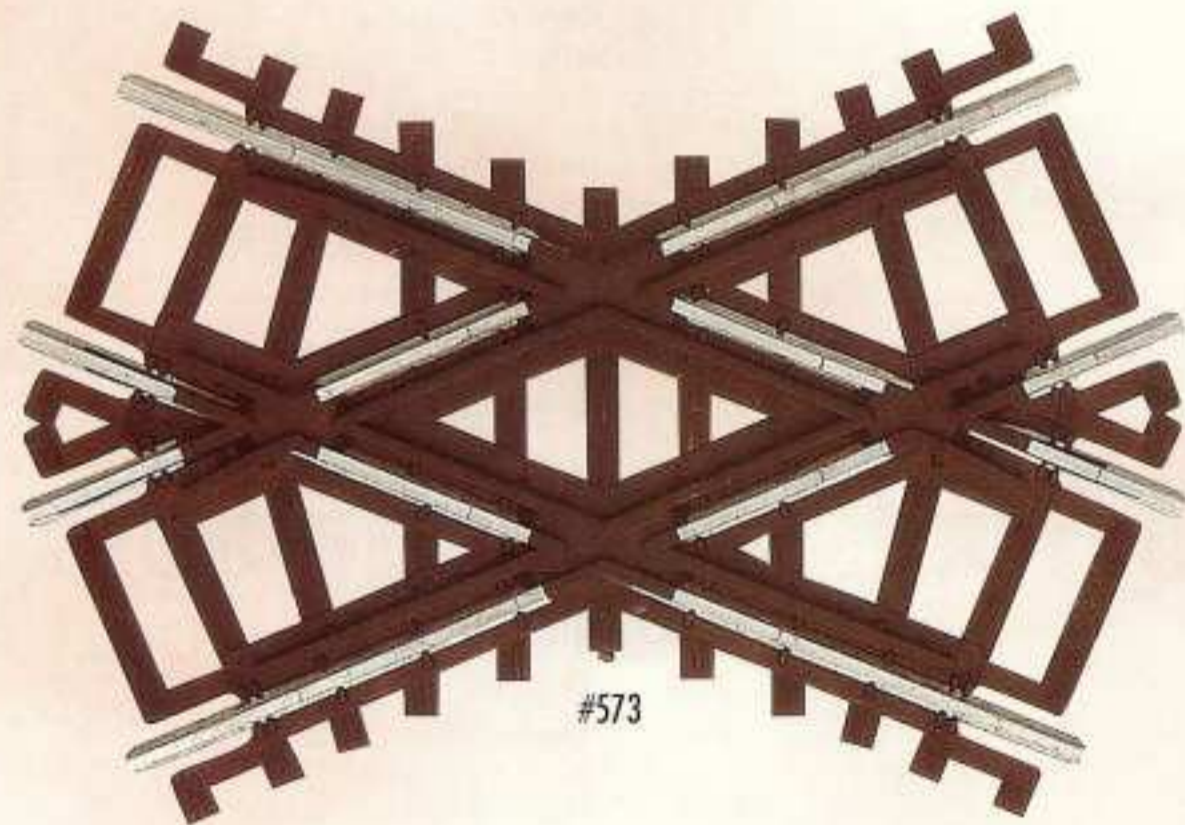

Atlas' HO code 83 track is the track of the future. It looks great (because it's prototypical), it's reliable (because it's Atlas), and it's the same price as our code 100 line (because we want you to be able to afford it)! You will find that many brands of code 83 on the market are very expensive, and that is one reason why not every modeler chooses to use code 83. With Atlas, you don't have to worry about price or reliability, so make code 83 your track of choice.

**A FULL LINE OF ATLAS CODE 83 IS NOW AVAILABLE, AND NEW PIECES WILL BE RELEASED IN THE FUTURE!**

# Super-Track® 83 & Custom-Line® Turnouts

*You're On The Right Track®...  
With Atlas Code 83!*

## HO CODE 83 SUPER-SWITCHES®

1. Accurately scaled and spaced ties.
2. Blackened metal frog allows powering by Atlas Snap-Relay.
3. Frog angle is true #6 - 9°30'.
4. Frog and guardrail flangeways set to NMRA standards.
5. New points eliminate rivets, providing better electrical contact and improved appearance.
6. Four spikes per tie, staggered like U.S. prototype.
7. Designed for under-table switch machines or manual ground throws.
8. Concealed nail holes.
9. Designed for use with common rail system.

## HO CODE 83 #6 SUPER-SWITCHES

Item#	Description	Price
505	Left hand	\$12.35
506	Right hand	\$12.35

## HO CODE 83 CUSTOM-LINE® TURNOUTS

Item#	Description	Price
560	Wye Custom-Line® Turnout <b>NEW!</b>	\$11.75
561	#4 Custom-Line® Turnout - Left hand	\$11.75
562	#4 Custom-Line® Turnout - Right hand	\$11.75
563	#6 Custom-Line® Turnout - Left hand <b>NEW!</b>	\$11.75
564	#6 Custom-Line® Turnout - Right hand <b>NEW!</b>	\$11.75

## HO CODE 83 CUSTOM-LINE® TURNOUTS

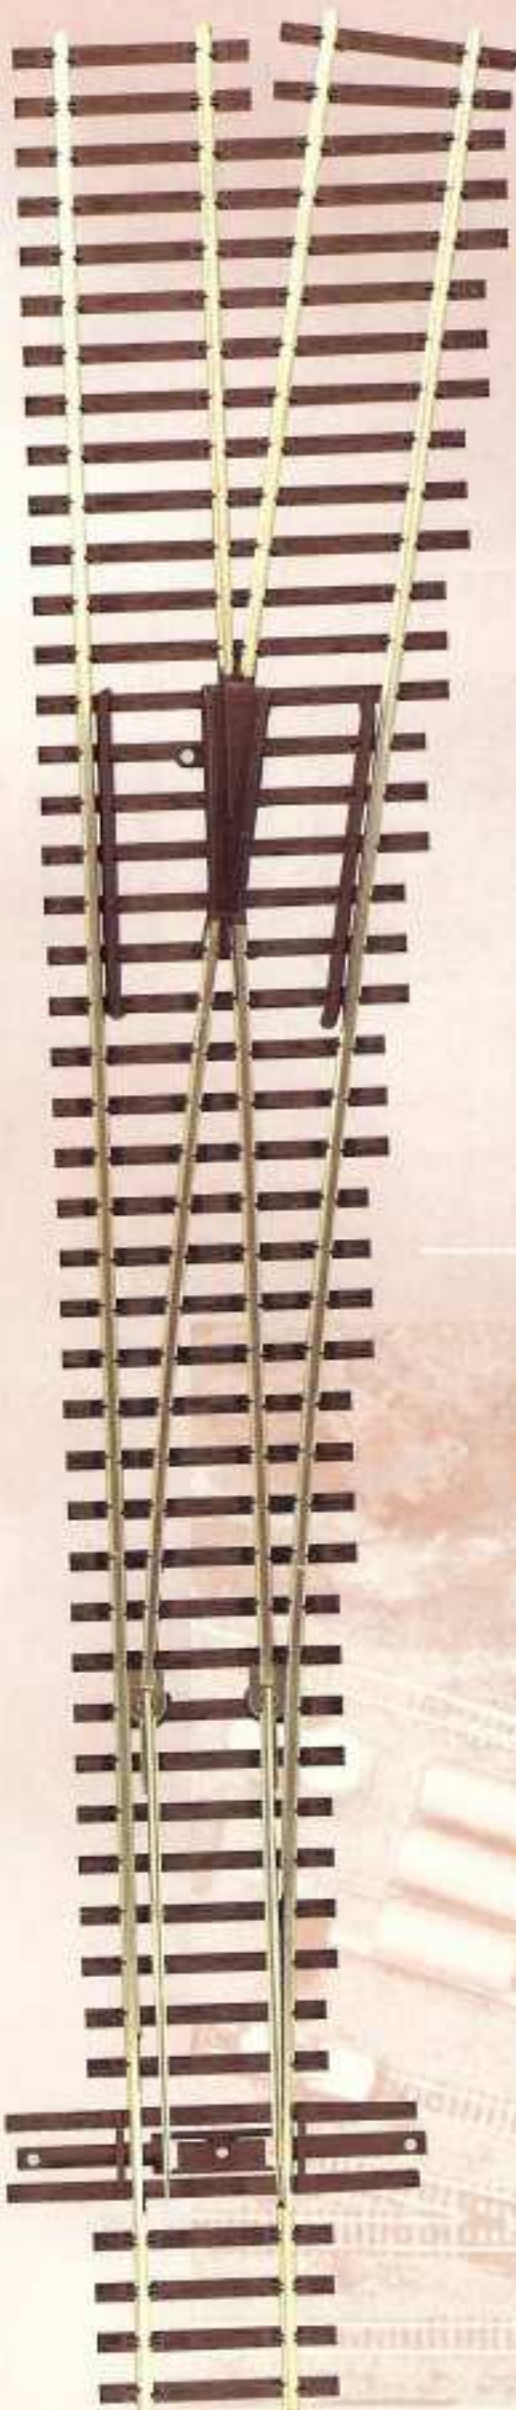

The Custom-Line® Turnouts are prototypically accurate, featuring blackened metal frogs and rivetless switch points that provide superior electrical conductivity. These turnouts can be powered using an under-table switch machine (shown on page 31) or standard remote and manual code 83 switch machines (shown on page 11). All Custom-Line® Turnouts have the same geometry as the current Atlas code 100 versions, for drop-in installation in Atlas' and other layout plans.

### Custom-Line® Turnout Frog Angles:

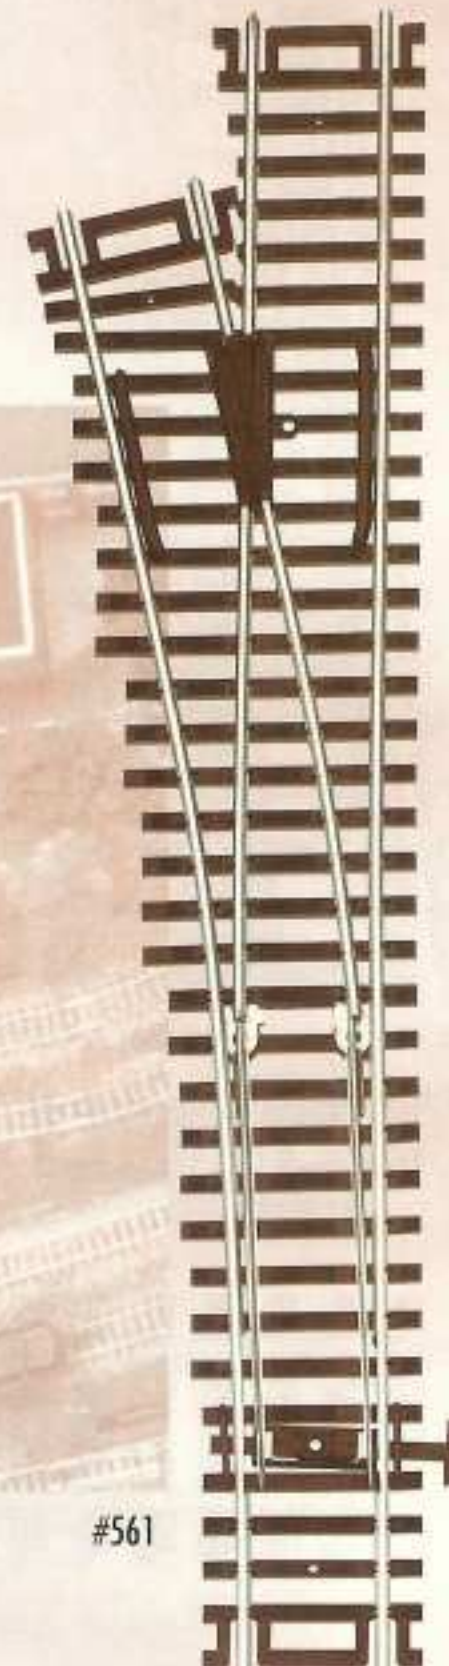

- #4 Turnout - 12°, 50'
- #6 Turnout - 9°, 30'
- Wye Turnout - 14°, 56'

From the Collection of  
**"HOseeker"**

*All HO Code 83 track comes  
with brown ties and nickel  
silver rail.*

#506

#561

# Code 83 Snap-Switches®

#542

## HO CODE 83 SWITCH MACHINES

At one-third the size of existing units, these are the smallest HO switch machines on the market! Also fits True-Track switches shown on page 12. (Manual shown attached to switch above.)

### CODE 83 SWITCH MACHINES

Item#	Description	Price
584	Left hand Remote	\$7.45
585	Right hand Remote	\$7.45
586	Left hand Manual	\$2.95
587	Right hand Manual	\$2.95

From the Collection of  
"HOsecker"

## HO CODE 83 REMOTE SNAP-SWITCHES®

These switches have a remote control switch machine attached so you can wire the switch to be "thrown" (changing the direction of the rail), from your control panel rather than from the switch itself. Comes with a 1/3 18" radius section, making the curved leg equal to a regular 18" radius section. Adding passing tracks and sidings is simple since Atlas Code 83 Snap-Switches® will fit wherever you have 9" straight or 18" radius curved sections. When replacing a 18" radius section, you must add a 1-1/2" straight section directly across from the turnout.

### HO CODE 83 REMOTE SNAP-SWITCHES®-18" RADIUS

(includes remote switch machine)

Item#	Description	Price
540	Left hand	\$13.90
541	Right hand	\$13.90

## HO CODE 83 MANUAL SNAP-SWITCHES®

Manual switches can only be "thrown" (changing the direction of the rail) by flipping a lever on the switch by hand. Manual Code 83 Snap-Switches® can be easily converted to remote control with #584 Lefthand and #585 Right hand switch machines.

### HO CODE 83 MANUAL SNAP-SWITCHES®-18" RADIUS

(includes manual switch machine)

Item#	Description	Price
542	Left hand	\$8.95
543	Right hand	\$8.95

- All HO Code 83 Snap-Switches® are designed for above or under-table switch machine. Under-table switch machine shown on page 31.
- Plastic frog (cannot be powered)
- Cut-outs for rail joiners

#541

## True-Track®

### PREMIUM QUALITY ROADBED TRACK MADE WITH FINE-SCALE HO CODE 83 TRACK

Like all Atlas model railroad products, True-Track® adheres to high quality, prototype standards that the hobby world demands. The result is a roadbed track with true-to-prototype gray, graveled roadbed; correctly angled roadbed shoulder and code 83 brown ties and nickel silver rail. It looks every bit like real track with roadbed and ballast.

There is no roadbed track that can match up to the scale-model quality and versatility of Atlas' True-Track®. It is easy to assemble and affordably priced, but do not mistake True-Track® for a toy. It is a true hobby track system, created for the novice modeler looking not only for realistic appearance but unparalleled performance in a ready-to-run roadbed track.

True-Track® features Atlas' world-renowned "Snap-Track®" that has been setting the standard for HO track for over 40 years. The piece of Snap-Track® can be removed and used separately if desired (see photo on page 6).

### HO TRUE-TRACK®

Item#	Description	Price
410	9" Straight section (per piece)	\$1.15
411	18" Radius section (per piece)	\$1.15

## Code 100 Snap-Track®

**ATLAS IS THE LEADING MANUFACTURER OF MODEL RAILROAD TRACK, WORLDWIDE. YOU WILL FIND THAT OUR TRACK IS EASY TO USE & WILL LAST ON YOUR LAYOUT FOR YEARS.**

#821

### STRAIGHT SNAP-TRACK® SECTIONS

Item#	Description	Price
821	9" (6 pcs./pkg.)	\$4.60
822	6" (4 pcs./pkg.)	\$2.55
823	3" (4 pcs./pkg.)	\$2.55
825	1 1/2" (4 pcs./pkg.)	\$2.55

### #839 30° SNAP CROSSING

\$6.40

Each leg is 6" long. See page 14 for Custom-Line® Crossings available in many other angles of intersection.

### #843 BUMPER

\$2.55 (2 pieces per pack)

Realistic way to keep your equipment from rolling off the ends of sidings. Overall length is 3-5/8".

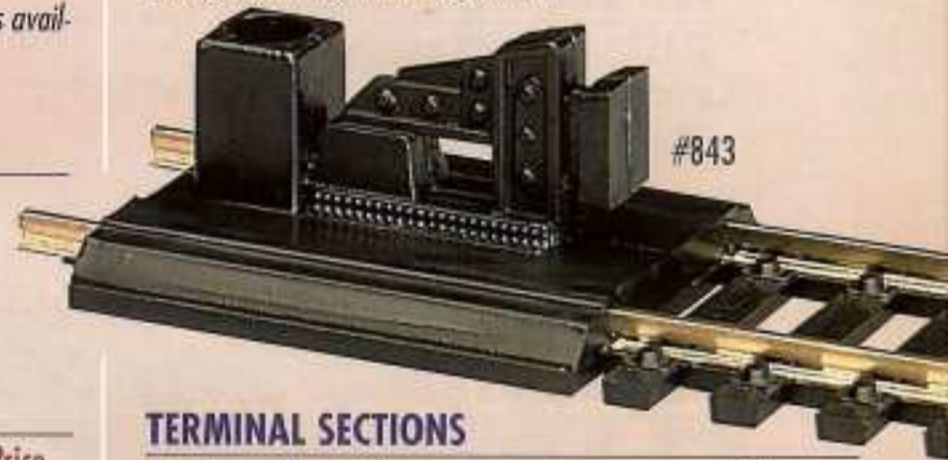

### CURVED SNAP-TRACK® SECTIONS

Item#	Description	Price
831	15" radius (6 pcs./pkg.)	\$4.60
832	1/2-15" radius (4 pcs./pkg.)	\$2.55
833	18" radius (6 pcs./pkg.)	\$4.60
834	1/2-18" radius (4 pcs./pkg.)	\$2.55
835	1/3-18" radius (4 pcs./pkg.)	\$2.55
836	22" radius (6 pcs./pkg.)	\$4.60

### BULK SNAP-TRACK®

Item#	Description	Price
150	9" Straight	\$ .73
151	15" Radius	\$ .73
152	18" Radius	\$ .73
153	22" Radius	\$ .73
155	Rerailer	\$1.45

Atlas also offers the above HO Snap-Track® pieces in bulk (no packaging). Pricing is per single piece.

#843

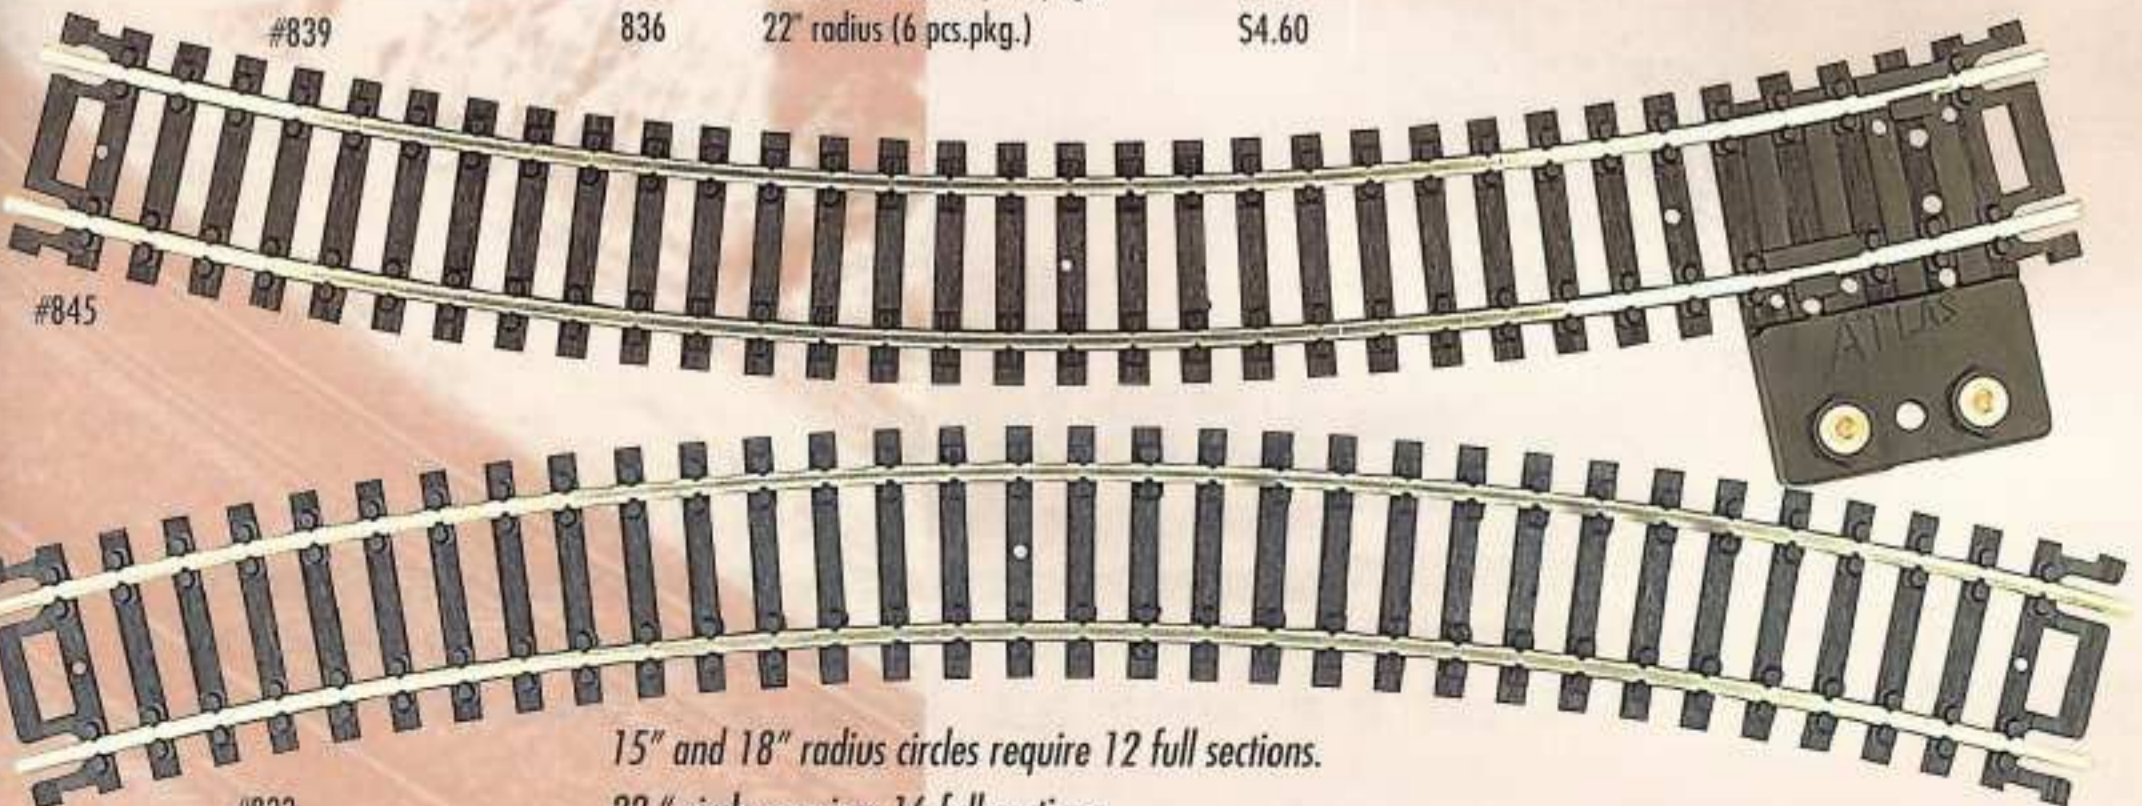

### TERMINAL SECTIONS

Item#	Description	Price
840	9" Straight	\$3.15 ea.
845	18" Radius	\$3.15 ea.

For quick, solderless connections from the power pack to track. See also pre-wired #842 Terminal joiners on page 7.

#839

#845

#833

15" and 18" radius circles require 12 full sections.

22" circle requires 16 full sections.

**HO SCALE**

# Code 100 Snap-Track®

*HO Code 100 Track - Black ties and nickel silver rail!*

## #844 RERAILER

\$5.10 (3 pieces per pack)

*A sweep of the hand places rolling stock on rails. Automatically rerails derailed equipment in hard to reach hidden areas.*

## #849 DEAD-END UNCOUPLER

\$3.15

*For use with horn-hook style couplers. One-way ramp uncouples cars entering siding. Equipment remains coupled when leaving siding. Not for use on "through" lines.*

## #847 SNAP-TRACK® ASSORTMENT

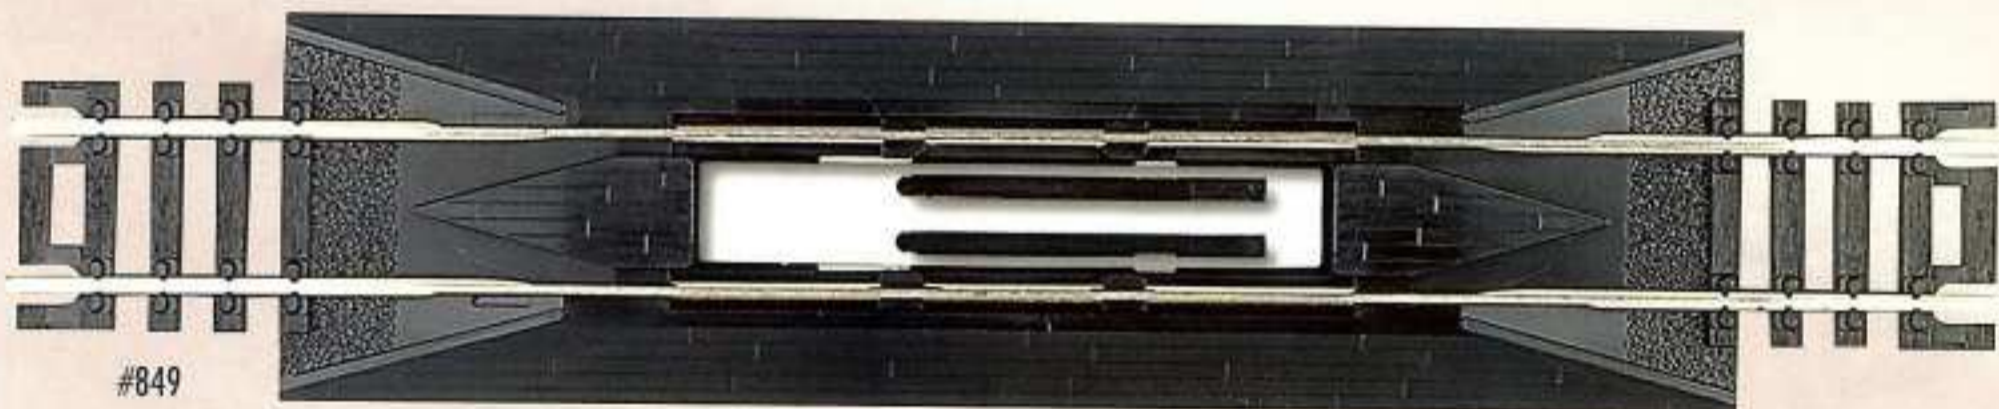

\$3.15

*Includes two each of 6 short pieces; 3/4", 1", 1-1/4", 1-1/2", 2", and 2-1/2"*

#847

# Code 100 Snap-Switches®

## SNAP-SWITCHES® - REMOTE CONTROL

Item#	Description	Price
850	Lefthand	\$13.90
851	Righthand	\$13.90

These switches have a remote control switch machine attached so you can wire the switch to be "thrown" (changing the direction of the rail), from your control panel, rather than from the switch itself. Comes with a 1/3 18" radius section, making the curved leg equal to a regular 18" radius section. To add a passing track and siding, simply replace a 9" straight section. When replacing an 18" radius curved section with an Atlas Snap-Switch®, add a 1-1/2" straight section to the opposite side.

## SWITCH MACHINES - REMOTE CONTROL

Item#	Description	Price
52	Lefthand	\$6.95
53	Righthand	\$6.95

(Pictured to the left attached to switch #850)

Snap-on remote switch machines will quickly and easily convert any Atlas code 100 HO switch to remote control. With a remote control switch, you can wire the switch to be "thrown" (changing the direction of the rail) from your control panel, rather than from the switch itself.

From the Collection of  
"HOseeker"

*Atlas switches  
make the  
difference in  
a smooth  
running  
model  
railroad!*

#850

#861

## SWITCH MACHINES - MANUAL

Item#	Description	Price
62	Lefthand	\$2.10
63	Righthand	\$2.10

(Pictured above attached to switch #850)

With a manual switch machine attached to your switch, you can flip a lever by hand and change the direction of the rail.

## SNAP-SWITCHES® - MANUAL

Item#	Description	Price
860	Lefthand	\$8.95
861	Righthand	\$8.95

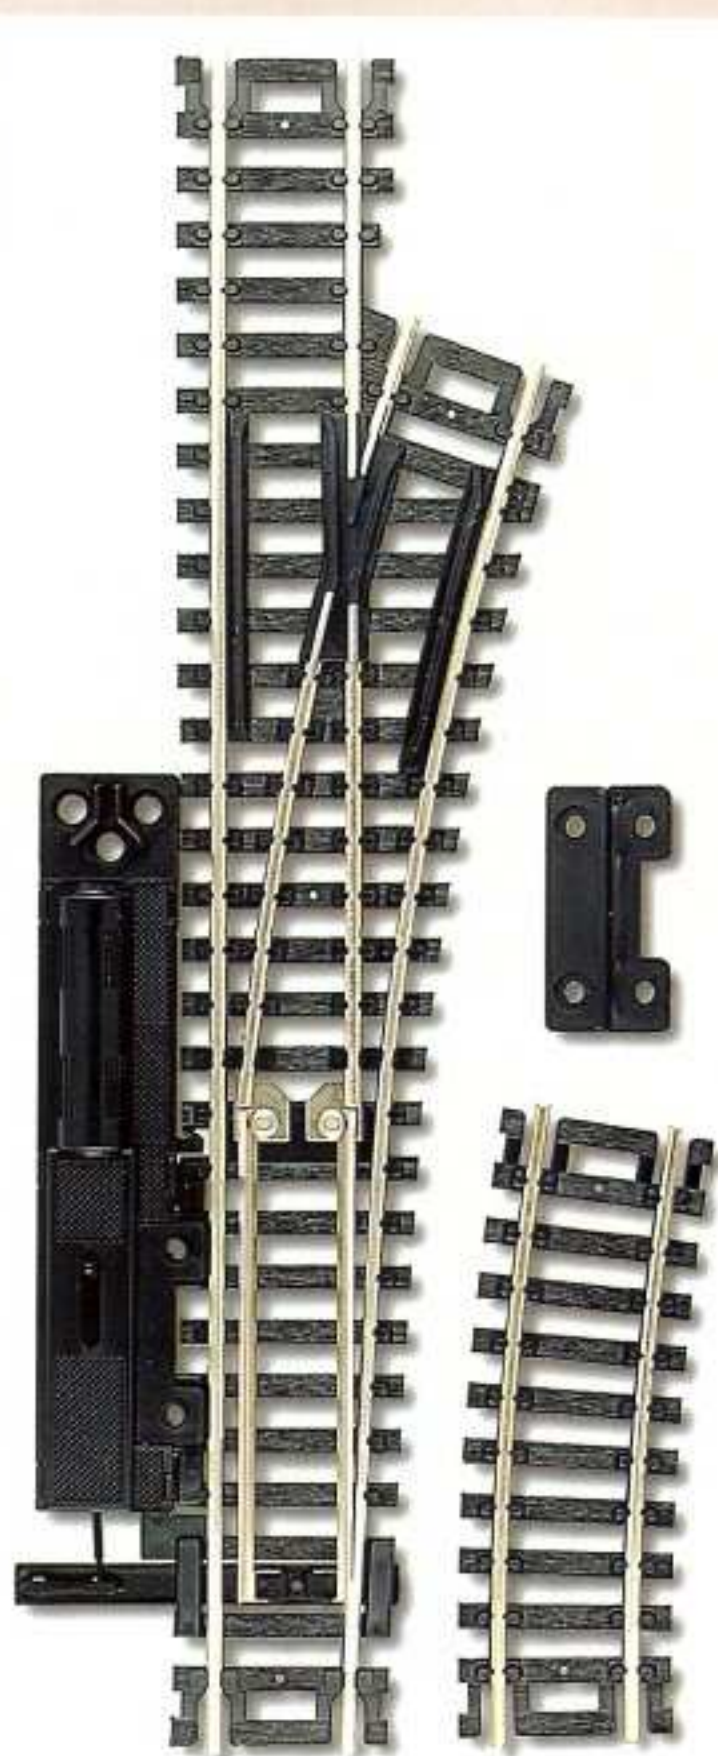

Manual switches can only be "thrown" (changing the direction of the rail), by flipping a lever on the switch by hand. Manual Snap-Switches® can be easily converted to remote control with #52 Lefthand and #53 Righthand switch machines.

Manual Snap-Switches® come with a manual switch machine.

## #65 UNDER-TABLE SWITCH MACHINE

\$6.95

Nicely hides beneath your layout so you can throw your switches without being seen. Can be used with all Atlas (and many other) HO and N scale switches. Please see page 31 for drawing and usage instructions.

# Code 100 Custom-Line® Track

From the Collection of "HOseker"

#175

Precisely engineered angles of intersection solve most crossing requirements. For double crossovers use the 25° crossing with #4 Custom-Line Mark 3 Turnouts, or the 19° crossing with #6 turnouts. The 12 1/2° and 19° crossings are especially suited for junctions between double-track mainlines. A wide variety of single and double-track wyes and many other arrangements appear in Atlas layout instruction books on page 4.

## WHAT IS THE DIFFERENCE BETWEEN CUSTOM-LINE® TURNOUTS AND SNAP-SWITCHES®?

1. Custom-Line® Turnouts are #4, #6 or Wye turnouts. The track section of the Atlas #4 turnout splits at an angle of 12 degrees and 50 minutes; for #6 switches that angle is 9 degrees, 30 minutes; and for Wye switches it is 19 degrees, 12 minutes. This angle determines how sharp of a turn the switch (and therefore your trains) will make. For Snap-Switches®, we talk about the 18" radius that the switch is designed to create. If a Snap-Switch® and included 1/3 18" radius is connected to eleven, 18" radius curved sections of track with a 1-1/2" piece opposite the switch, a complete oval will result.

2. Custom-line® Turnouts have metal frogs that can be powered if necessary. Snap-Switches® have plastic frogs which cannot be powered.

NOTE: A Snap-Switch® and a #4 Custom-line Turnout are not interchangeable in Atlas layout plans.

## CUSTOM-LINE® CROSSINGS

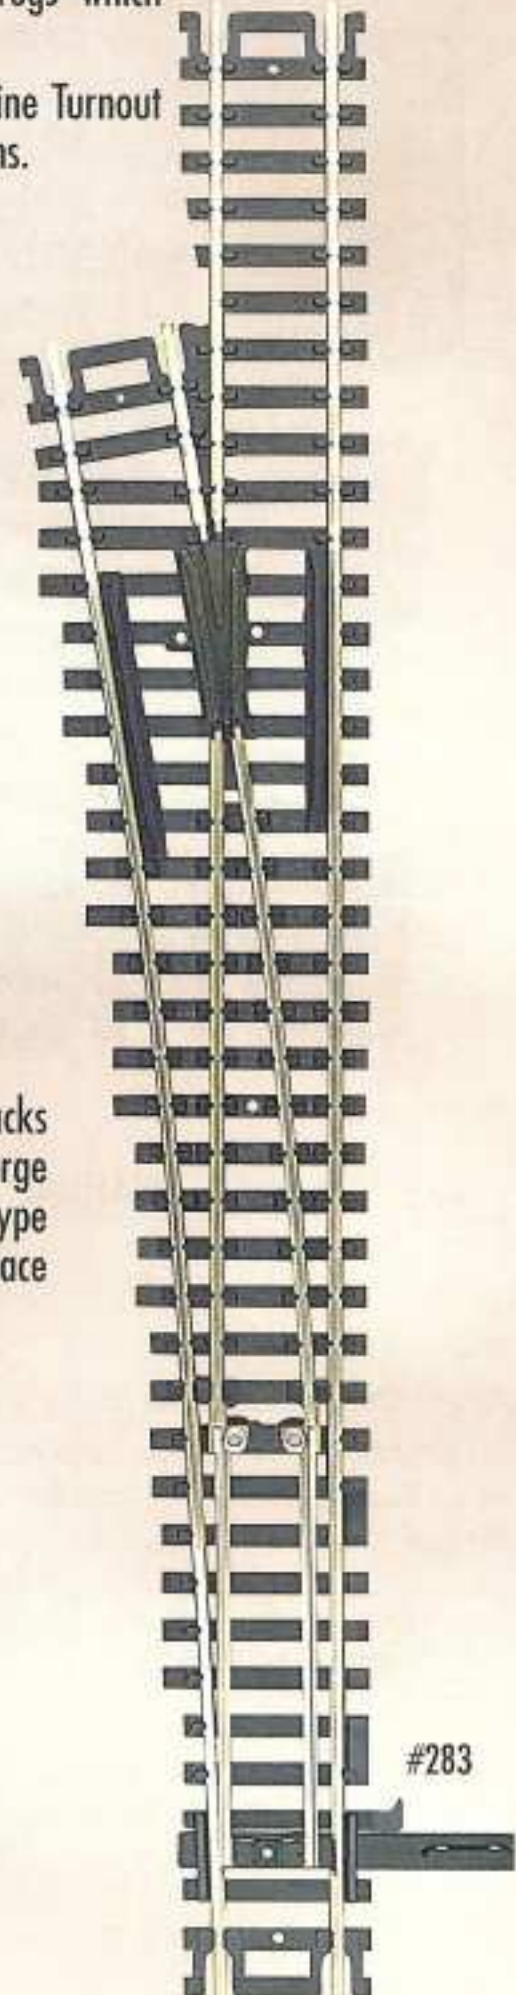

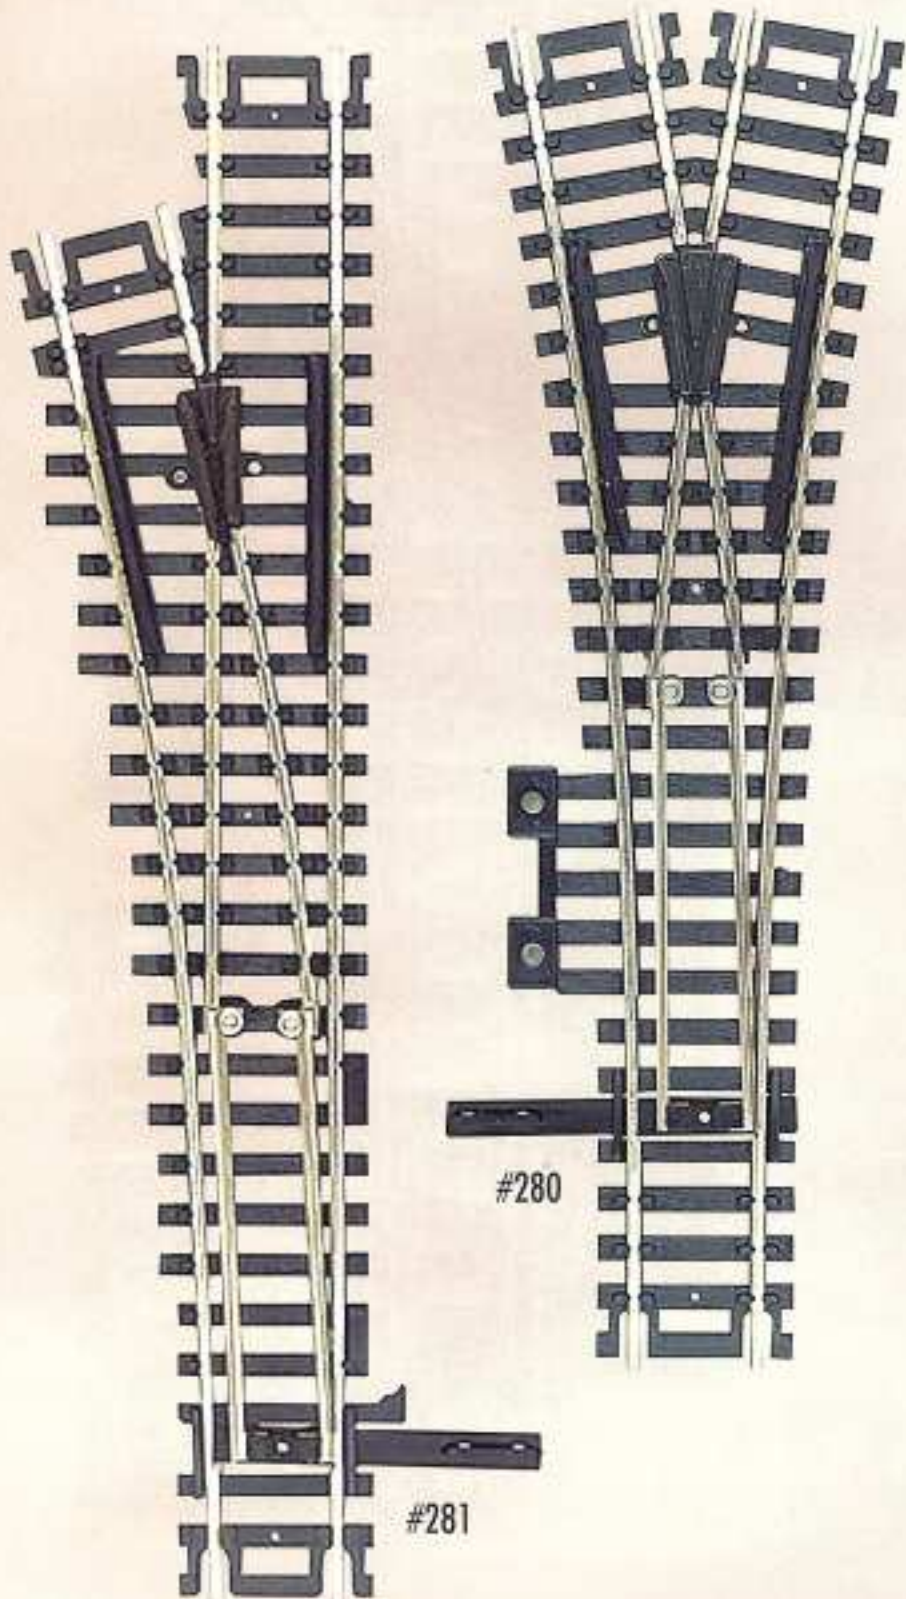

Item#	Description	Price
171	19° - 6"	\$6.40
172	25° - 4 1/2"	\$6.40
173	30° - 4"	\$6.40
174	45° - 3"	\$6.40
175	60° - 3"	\$6.40
176	90° - 6"	\$6.40
177	12 1/2° - 9"	\$6.95

## WHAT IS THE DIFFERENCE BETWEEN A #4 AND A #6 CUSTOM-LINE® TURNOUT?

The difference is the angle at which the two tracks diverge or split. With #4 turnouts, the tracks diverge at a sharper angle than the #6's. Therefore, the type of turnout you use may be determined by the space you have for your layout.

## CUSTOM-LINE® MARK 3 TURNOUTS

Item#	Description	Price
280	Wye Turnout	\$10.50
281	#4 Turnout - Left	\$10.50
282	#4 Turnout - Right	\$10.50
283	#6 Turnout - Left	\$10.50
284	#6 Turnout - Right	\$10.50

# Layout Packages

## EXCITING LAYOUT PACKAGES TO HELP YOU GET STARTED QUICKLY

Atlas has designed and tested 36 different, exciting HO layout configurations using Atlas Snap-Track<sup>®</sup>, Custom-Line<sup>®</sup> Track, Super-Flex<sup>®</sup> Track, switches, bridges and piers. On the next few pages is a sample of the plans that have become the most popular over the years. You may ask your local Atlas retailer to put the necessary materials together for you. Materials list, detailed plan and building instructions can be found in one of our four HO layout instruction books (pg. 4).

If you wish to see all 36 Atlas HO layout plans, please ask your local retailer for a free Fantastic Layout Booklet which contains highlights of each layout. If your retailer does not have one available, please call Atlas directly to request one.

### LAYOUT HO-6

**The Trunk Line** - \$197.95  
with Power Pack - \$232.90  
with optional second Power Pack - \$267.85

**Skill level:** Beginner

This plan, instructions & a detailed list of "Atlas Products Required," can be found in Book #9: Atlas' Beginner's Guide to HO Model Railroading (See pg. 4)

**Summary of Atlas products included in package:**

- Over 72 pieces of track (including bumpers & rerailers)
- 8 Remote Snap-Switches<sup>®</sup>
- 2 Selectors
- Necessary amount of rail joiners & track nails

*Trees, scenery & buildings are not included in package.*

From the Collection of  
"HOseeker"

Table Size: 4' x 8'

**AVAILABLE IN EITHER CODE 100 (black ties) or CODE 83 (brown ties)!**

*See page 6 for a detailed explanation of the difference between Code 100 and Code 83.*

### LAYOUT HO-10

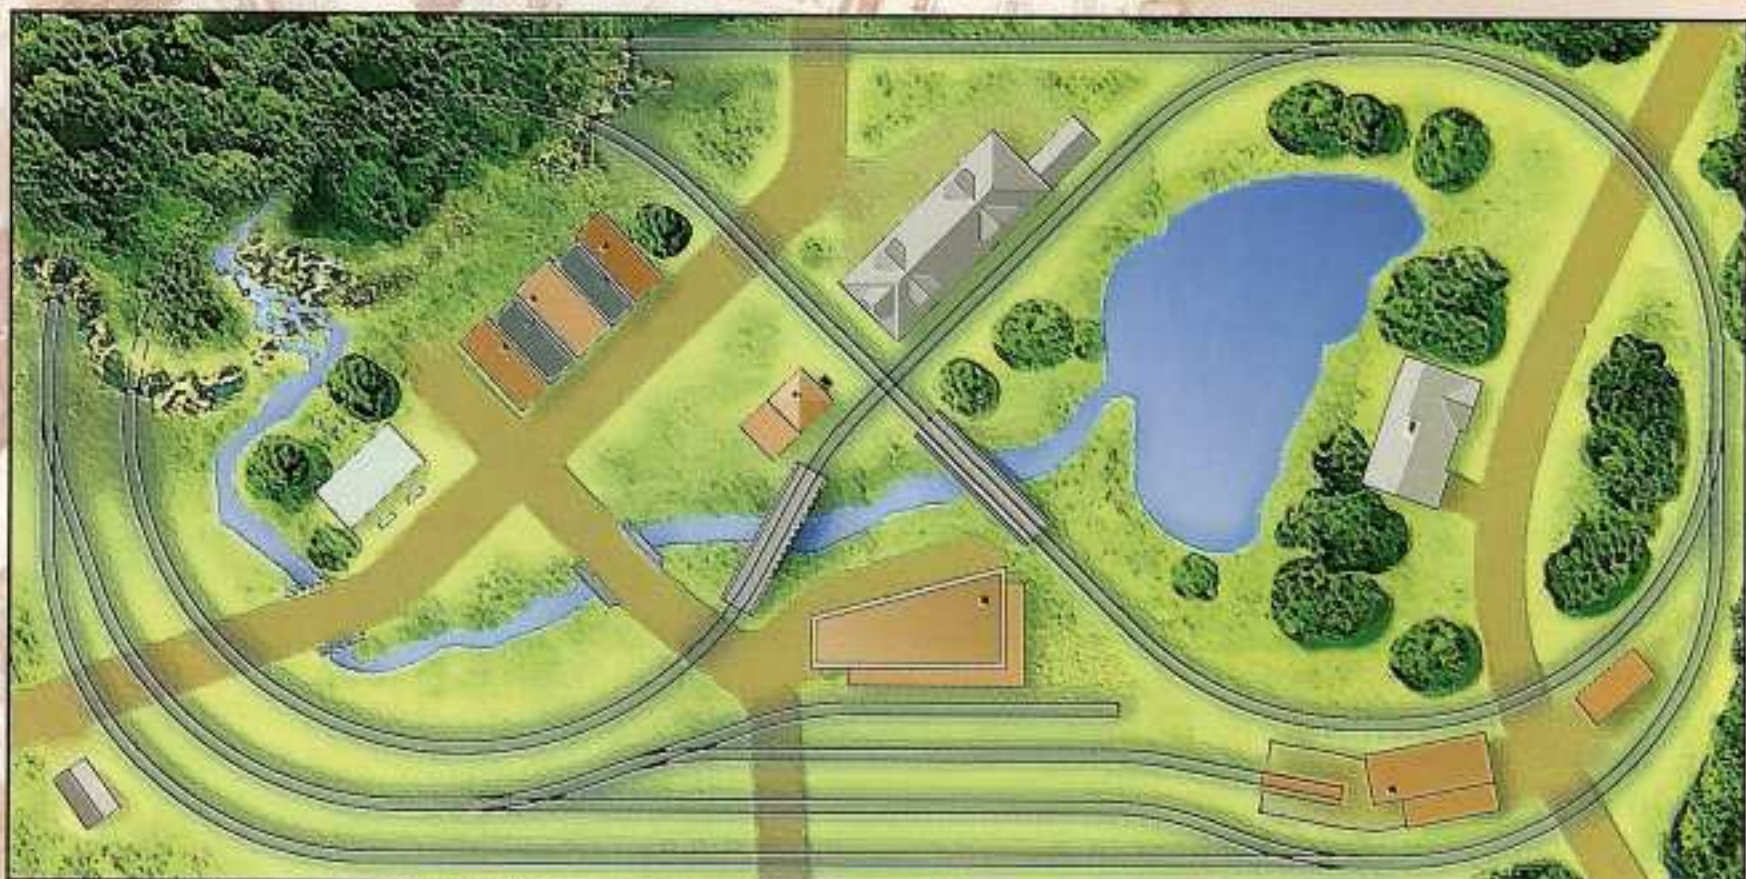

**The Yardmaster** - \$175.95  
with Power Pack - \$210.90  
with optional second Power Pack - \$245.85

**Skill level:** Beginner

This plan, instructions & a detailed list of "Atlas Products Required," can be found in Book #9: Atlas' Beginner's Guide to HO Model Railroading (See pg. 4)

**Summary of Atlas products included in package:**

- Over 64 pieces of track (including bumpers & rerailers)
- 6 Remote Snap-Switches<sup>®</sup>
- 2 Selectors
- Necessary amount of rail joiners & track nails

*Trees, scenery & buildings are not included in package.*

**#704 SIGNAL TOWER KIT** →

\$7.75 (Base - 5-1/2" x 2-1/2")

# Bridges, Piers & Accessories

## #81 3" BRIDGE PIERS

\$3.25 (4 piece set) - Cut stone masonry pier, 3" high, equivalent to highest pier in #80 pier set.

## #82 PIER GIRDER

\$2.55 (9" x 1-3/4" x 3/8" - 4 piece set)

## WARREN TRUSS KIT - 9" X 2-1/2" X 2"

Item#	Description	Price
883	Code 100 Rail	\$5.10
590	Code 83 Rail	TBA

## PLATE GIRDER BRIDGE - 9" X 2-1/2" X 1"

Item#	Description	Price
885	Code 100 Rail	\$5.10
592	Code 83 Rail	TBA

## #884 DECK TRUSS BRIDGE KIT ←

\$5.10 (9" x 1-3/8" x 2-1/4")

## #80 OVER N' UNDER PIER SET →

\$12.70 (47 piece set) - Forty six stone masonry piers and a #82 Pier Girder. Piers are graduated in height from 1/4" to 3" by 1/4" increments with 1/8" snap-in shims provided for intermediate piers. Approximate grades up and down in figure-8 arrangement using 18" radius curves is 2.6%.

## #887 CURVED CHORD BRIDGE ←

\$20.95 (18" x 3" x 4-7/8") -

Curved center span shown. Bridge piers sold separately.

## #886 PONY TRUSS KIT →

\$12.85 (9" x 3" x 2" - 1 piece) -

Bridge piers sold separately.

## #793 PEDESTRIAN FIGURES ↑

\$3.50 (Set of 24) Come unpainted

## #776 PICKET FENCE & GATE →

\$3.50 (72" per package)

## #791 STACKED MILL LUMBER

\$3.50 Shown with #750 Lumber Yard on opposite page.

## #790 FLATCAR GIRDER LOAD ↑

\$2.90 (4 pieces per package)

## #777 THREE-RAIL FENCE & GATE ↑

\$3.50 (72" per package)

## #778 COWS & HORSES ↑

\$3.50 (12 Total)

## #779 SHEEP ←

\$3.50 (12 white, 1 black)

From the Collection of  
"HOseeker"

# Ready-to-Run Rolling Stock

*Atlas HO freight cars feature free-rolling trucks with blackened metal wheels, body mounted couplers and coupler pockets with screw-attached covers designed to stay tightly in place. The coupler pockets will accept Kadee® #5, InterMountain and AccuMate® or McHenry couplers. And for extra added value, all new cars come factory equipped with AccuMate® couplers (all items marked as "NEW"). ACCUMATE® couplers are made under license from AccuRail, Inc.*

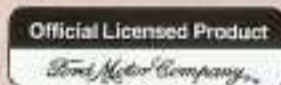

## HO FORD F-150 - Now with side mirrors!

# Electric Locomotives

## NEW! ATLAS' FIRST HO SCALE ELECTRIC LOCOMOTIVE EVER- THE AEM-7/ ALP-44!

This new locomotive is electrifying! Features include operating pantographs, die-cast chassis, dual flywheels, operating headlights and marker lights which are directional, full-cab interior with painted crew members, separately-applied wire grab irons, astounding roof detail and factory-equipped Accumate<sup>®</sup> couplers. Each unit will also include an integral switch on the circuit board which allows you to select either pantographs or track power for easy operation.

# HO Classic Locomotives

From the Collection of "HOseeker"

## Atlas Classic

Photo by Lou Sassi.

**ATLAS PROUDLY CONTINUES** the Classic Locomotive Line with the HO RS-3. The Classic line includes re-releases of the most popular locomotives Atlas has ever made. Each Classic may be retooled to include the addition of new parts and updates to framework and internal drives. Although they are models you may recall from the past, the future Classic locomotives promise to be technologically superior to their predecessors.

The new RS-3's return with directional lighting, factory-installed AccuMate® couplers, dual-flywheel equipped five-pole skewed armature motor for super-quiet performance, metal grab irons and accurate painting and printing. Each road name is available with two different road numbers and one unnumbered version per road name.

\*The RS-3 does not have the DCC plug installed. Modelers wishing to convert this model to DCC should use one of the board mounted decoders available from various manufacturers.

The ACCUMATE® couplers on the HO RS-3 are made under license from Accurail, Inc.

Listed below are the HO Atlas Classic Locomotives that will be released over the next few years. They are in no particular release order. Each Classic will be available in limited quantities, so don't wait to get your favorite road name!

RS-11, C-424 (Phase I & II), RSD-12, C-425

## ANNOUNCING THE ALL NEW EMD GP40!

Atlas' latest HO scale locomotive is modeled after EMD's 3000 horsepower diesel introduced in 1966 and still in service throughout North America today.

The HO scale model has the acclaimed Atlas DCC-ready operating mechanism with a realistic die-cast underframe, a five-pole skewed armature motor with dual flywheels for optimum performance at all speeds, directional lighting and comes factory equipped with AccuMate® knuckle couplers.

The GP-40 is available in dynamic or non-dynamic brake versions, with either a 2600 or 3600 gallon fuel tank as appropriate by railroad. Standard features include a detailed cab interior with crew, separately installed scale windshield wipers, metal grab irons and fine scale handrails. Also included are movable drop steps, walkway safety tread, coupler cut bar, multiple unit hoses and trainline hose. Additional detail parts included but not installed: snowplow, an electrical cabinet air filter box (ECAFB), and two engine compartment roof vents which were added by many railroads sometime after delivery.

Each road name is available in two road numbers and one unnumbered unit.

The ACCUMATE® couplers on the GP40 are made under license from Accurail, Inc.

Check out our web site for full-color photos of the HO GP-40 locomotives, in every road name!

# Electrical Components for All Scales

*We've spent years designing and perfecting what we believe is the easiest and most reliable electrical wiring system in model railroading today. Practical for all scales, the system consists of multiple sets of the most often needed switch types, internally pre-wired by printed circuitry.*

## ← #310 ATLAS CUSTOM POWER® 1700 POWER PACK

\$34.95 - Designed for reliable operation, the Custom Power® 1700 Power Pack has recently been enhanced by the addition of a transistor that protects circuitry and a thermal fuse for overload protection. Other features include:

- Separate power and reversing switches
- Circuit breaker protection
- Overload indicating lamp
- No pulse power to damage precision motors

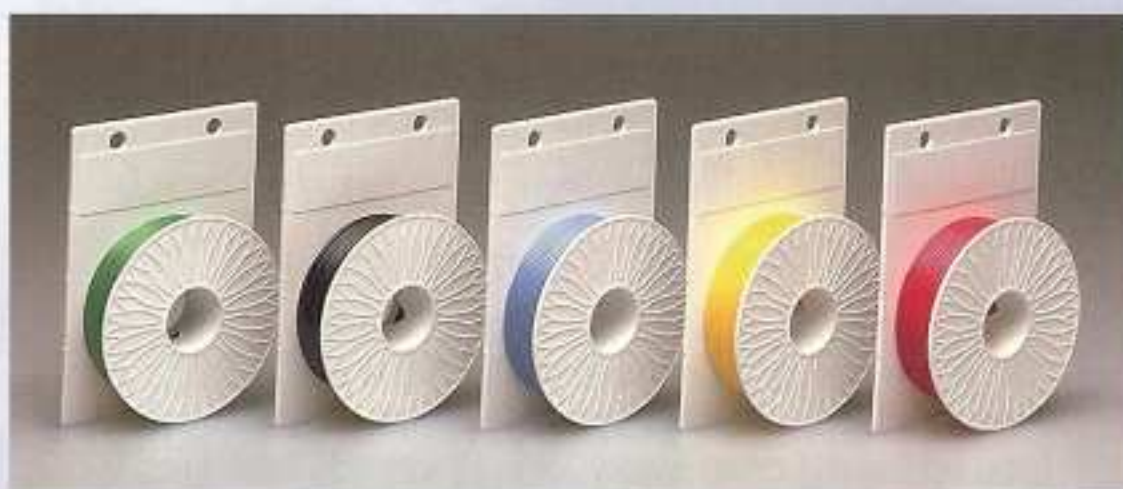

Output: 14V DC, 17V AC, 1.2 Amps at no load. Total output 17 VA.

**From the Collection of  
"HOsecker"**

## ATLAS LAYOUT WIRE

Item#	Description	Price
315	Black	\$5.85
316	Red	\$5.85
317	Green	\$5.85
318	Yellow	\$5.85
319	Blue	\$5.85

*This colored wire will make wiring your layout easier than ever! Use different color wires for the different types of connections so you can keep track of what is what. Twenty gauge stranded copper; 50' reel. →*

## #56 SWITCH CONTROL BOX ↑

\$3.15 - Controls Atlas (or other twin coil) switch machines with SPDT momentary action. Button position indicates turnout setting. Can be coupled together in any number without wiring. Switch identification labels included.

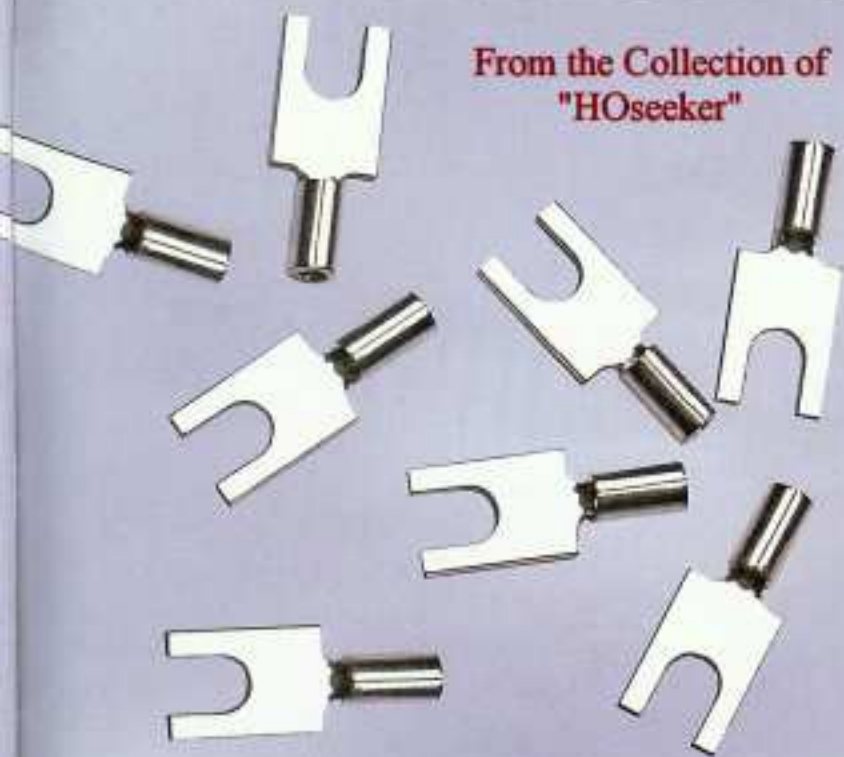

## #200 SNAP RELAY ↑

\$8.55 - A double-pole, double-throw relay with actuating mechanism driven by a momentary-power, twin coil solenoid. (A solenoid is a cylindrical coil of insulated wire in which an iron core is made to move back and forth by a flow of electric current.) With just a few simple connections, this small device, which may be mounted anywhere, can:

- Power the frogs on Atlas' Code 83 #6 & Mark 3 turnouts.
- Control trackside signal lamps to show turnout point positions
- Operate control panel lamps to show settings of remotely located turnouts (switches)
- Provide selective track siding control. Sidings are powered only when points are aligned for siding. Siding remains "dead" when points are set for the mainline.
- Control X-sections automatically. This very useful track arrangement is thoroughly discussed in The Complete Atlas Wiring Book.

# Electrical Components for All Scales

From the Collection of "HOseeker"

## #201 SPADE TONGUE SOLDERLESS CONNECTOR

\$3.50 - A handy small electrical hook-up connector designed for tight spaces. For #18-22 wire and #3 screw post. Maximum width is .218", 24 pieces per package.

## #205 CONNECTOR

\$6.70 - A device to turn electric power on or off to track section or accessories. Has three SPST on-off switches in parallel. Can be coupled together in any number.

## #210 TWIN

\$6.70 - A component consisting of two double-pole, double-throw reversing switches wired in parallel. Useful for reversing section and turntable control on single-cab layouts, plus many other applications.

## #65 UNDER-TABLE SWITCH MACHINE (FOR HO & N)

\$6.95 - Nicely hides beneath your layout so you can throw your turnouts without seeing the machine. Can be used with all Atlas (and many other) HO and N scale turnouts.

## #215 SELECTOR

\$6.70 - This device enables the operation and control of two trains at the same time. Has four single-pole, double-throw switches to provide two-cab operation for four blocks. May be ganged together in any number to control additional blocks without inter-switch wiring. Can be used as area selectors for four-cab operation. Couples with #220 Controller.

## #220 CONTROLLER

\$6.95 - This control provides the simplest way to wire and control tricky reverse loops, wyes and turntables. Has reversing switches for two mainline cabs plus a switch, selectable by either cab, for directional control on reversing loops, etc. Couples with #215 Selectors.

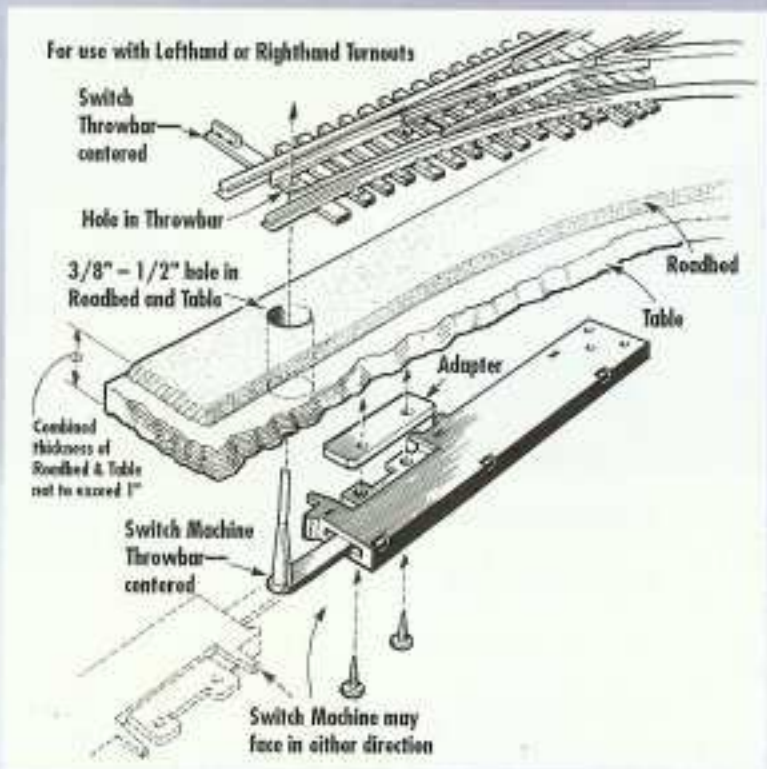

## HO TURNTABLE AND MOTOR DRIVE UNIT

Item#	Description	Price
305	HO Manual Turntable	\$21.45
304	HO Turntable Motor Drive Unit	\$21.45

Fully assembled 9" diameter turntable has the ability to stop at 21 positions, 15° apart. Surface mount; no cutting necessary. Manual crank operation; can be easily motorized for remote control operation with the #304 Turntable Drive Unit.

HO SCALE

**ATLAS**  
MODEL RAILROAD CO., INC.

## Manually Operated TURNTABLE

CAN BE MOTORIZED EASILY WITH ATLAS TURNTABLE MOTOR DRIVE UNIT, ITEM #304 SEE PAGE

NEW & IMPROVED DESIGN!

- 9" DIAMETER TURNTABLE
- SMOOTH OPERATION
- 21 TRACK POSITIONS
- INDEXED TO 15°
- GENIUS MOVEMENT LOCKS TABLE IN EXACT POSITION EVERY TIME
- LINES UP WITH TRACK USING 1/4" ROADBED
- SIMULATED WOOD BROWN TURNTABLE DECK & CONCRETE GRAY P.T. KING

ASSEMBLED MODEL

ITEM #305

**N SCALE**

# Super-Flex® Track & Track Accessories

*All Atlas N scale track comes in nickel silver rail with black ties.*

## #2500 SUPER-FLEX TRACK®

\$2.70 - 30" section with black ties

Super-Flex Track®, which comes in approximately 30" sections, can easily be bent and shaped to curve any radius. Ideal for spiral easement curves. Easily cut to any needed length with a #400 Modeler's Super Saw on page 7.

From the Collection of "HOseeker"

## #2791 MOTOR DRIVE

\$15.95

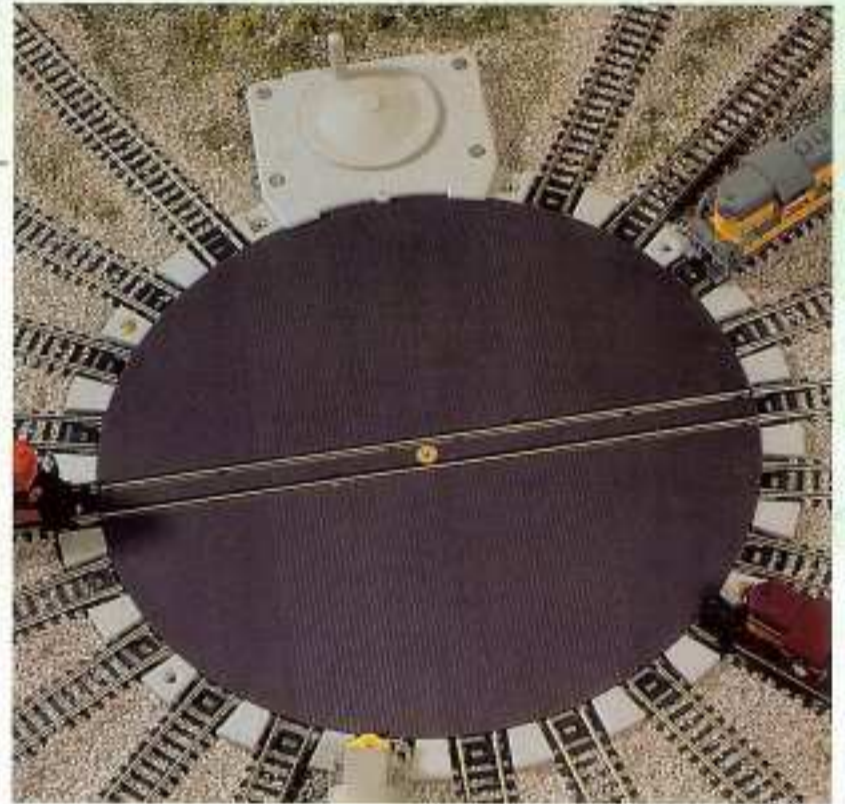

## #2790 TURNTABLE

\$18.20 - The fully assembled\* turntable features:

- 7-1/2" diameter deck
- Smooth manual operation
- 21 track positions with 15° stall spacing
- Geneva movement locks table in exact position every time
- Simulated wood brown turntable deck and concrete pit ring.

The N scale turntable can be motorized easily with the H scale motor drive unit.

\*Handle must be attached.

## #2540 TRACK NAILS

\$3.15 - (Approx. 400 per package; 2 oz.)  
Used to attach track or roadbed to layout table.  
For HO & N scale.

#2538

#2535

#2539

Rail joiners are small clips used to join two sections of track mechanically. They come in metal (nickel silver) which also connects the rails electrically, and plastic which are insulated to isolate the two sections of track electrically.

## RAIL JOINERS

Item#	Description	Price
2535	Nickel Silver - 48 per package	\$1.95
2538	Plastic insulating - 24 per package	\$ .95
2539	Terminal Joiners - 1 pr., nickel silver	\$2.20

Terminal joiners are rail joiners with wire attached to allow electricity to flow from the power pack to the rails.

# Snap-Track®

#2536

## #2536 SNAP-TRACK® BUMPER

\$1.95 - 2 pieces per package  
 Realistic way to keep your equipment from rolling off the ends of track sidings. Overall length is 2-3/4".

## #2501 5" STRAIGHT SNAP-TRACK®

\$2.40 - 6 pieces per package

## BULK TRACK

Item#	Description	Price
2513	5" Straight	\$ .34
2514	9-3/4" Radius	\$ .34
2515	11" Radius	\$ .34
2516	19" Radius	\$ .34
2517	Rerailer	\$ .54

Atlas also offers the above N scale Snap-Track® pieces in bulk (no packaging). Pricing is per single piece.

## #2532 RERAILER

\$1.95 - 3 pieces per package  
 A sweep of the hand places rolling stock on rails. Automatically rerails derailed equipment in hard to reach hidden areas.

## CROSSINGS

Item#	Description	Price
2564	15°	\$5.90
2565	20°	\$5.90
2566	30°	\$5.90
2567	45°	\$5.90
2568	60°	\$5.90
2569	90°	\$5.90

A crossing is a special track piece that permits two tracks to cross one another, but does not allow trains to move from one to the other. →

#2567

#2532

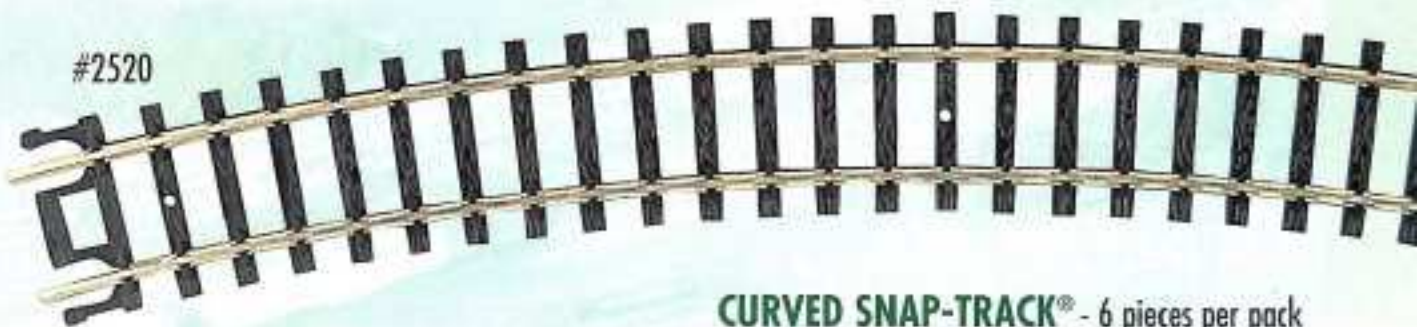

#2501

From the Collection of "HOseeker"

#2520

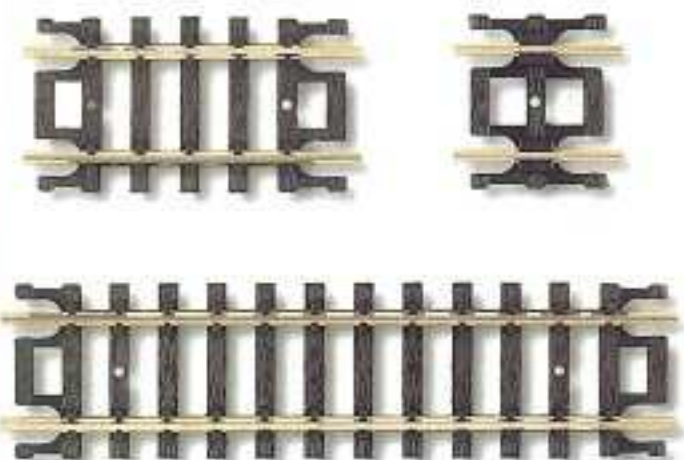

## #2509 SNAP-TRACK® ASSORTMENT

\$2.80 - Includes two 2-1/2", four 1-1/4" and four 5/8" sections. Provides you with an easy way to fill short gaps in sectional track layouts.

## CURVED SNAP-TRACK® - 6 pieces per pack

Item#	Description	Price
2510	9-3/4" Radius Section	\$2.40
2511	1/2 - 9-3/4" Radius Section	\$1.95
2520	11" Radius Section	\$2.40
2521	1/2 - 11" Radius Section	\$1.95
2526	19" Radius Section	\$2.40

# Standard Switches

Our series of switches make operating your layout a long lasting pleasure. More RELIABLE than ever, Atlas N switches feature:

- Refined and narrower flangeways at the frog and guard rails
- Positive mechanical attachment of points
- Better electrical conductivity
- Smaller switch machine for fit into tight places
- Whole new series of Custom-Line® Switches intended for use with Atlas Under-Table Switch Machine or ground throws

#2700

## STANDARD SWITCHES (REMOTE)

These turnouts have a remote control switch machine attached so you can wire the switch to be "thrown" (changing the direction of the rail), from your control panel rather than from the switch itself.

Remote control turnouts include the #56 Switch Control Box (shown above) and one piece of 19" radius track.

### STANDARD SWITCHES (REMOTE)

Item#	Description	Price
2700	Standard Left hand, Remote	\$14.95
2701	Standard Right hand, Remote	\$14.95

## STANDARD SWITCHES (MANUAL)

Manual turnouts can only be "thrown" (changing the direction of the rail) by flipping a lever on the switch by hand. These Standard N scale manual turnouts can be easily converted to remote control with #2715 (left hand) and #2716 (right hand) switch machines. Comes with one piece of 19" radius.

### STANDARD SWITCHES (MANUAL)

Item#	Description	Price
2702	Standard Left hand, Manual	\$9.60
2703	Standard Right hand, Manual	\$9.60

### CUSTOM N LINE® STANDARD SWITCHES

Item#	Description	Price
2750	Custom Standard Left hand	\$8.55
2751	Custom Standard Right hand	\$8.55

From the Collection of "HOseeker"

## CUSTOM N LINE® STANDARD SWITCHES

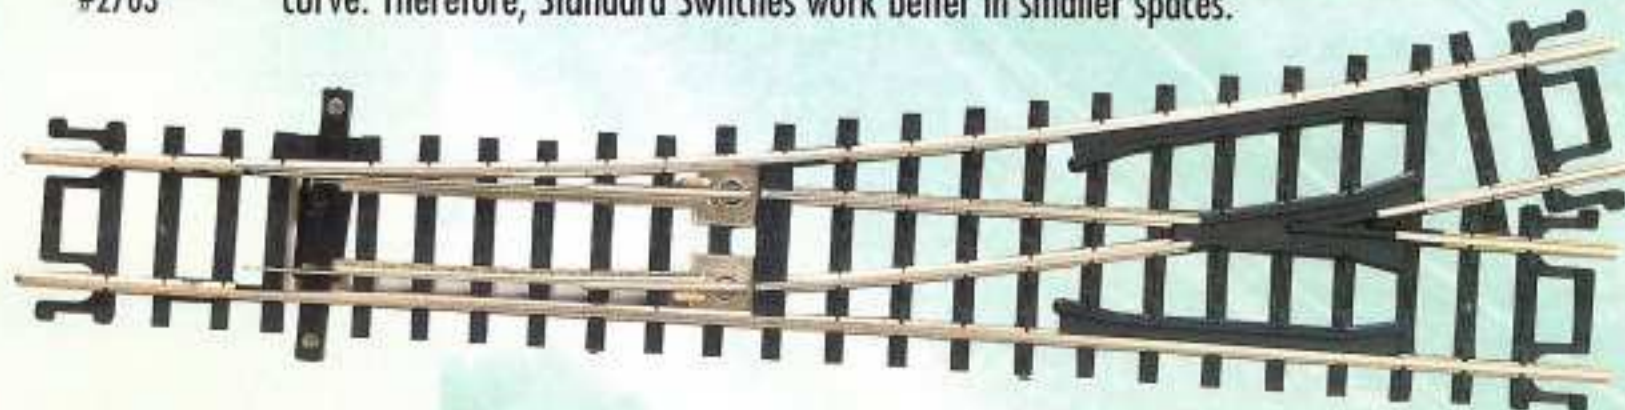

Custom N Line® turnouts are made to be used with the Atlas Under-Table Switch Machine (shown on page 31) or a ground throw. Unlike the other N scale turnouts which have shortened ties to allow for switch machine attachment, Custom N Line® turnouts have full-length ties. A double-ended throw-bar allows you to place your under-table switch machine on either side of the turnout. Comes with one piece of 19" radius track.

## WHAT IS THE DIFFERENCE BETWEEN STANDARD AND #6 SWITCHES?

The difference between the Standard turnout and #6 turnout is the angle at which the curved piece of track splits from the straight piece. The rails of the Standard Switches split at a sharper angle than the #6 Switches, creating a sharper curve. Therefore, Standard Switches work better in smaller spaces.

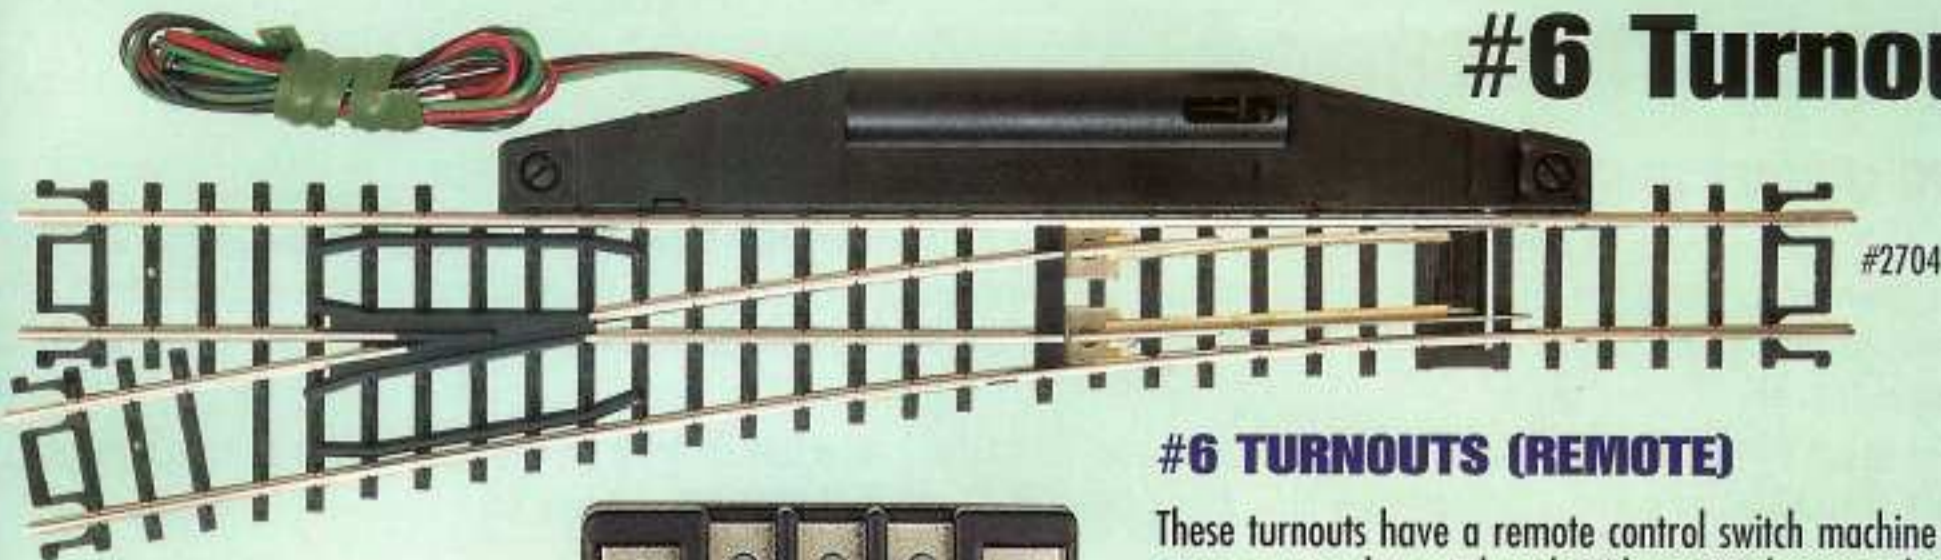

#2703

#2750

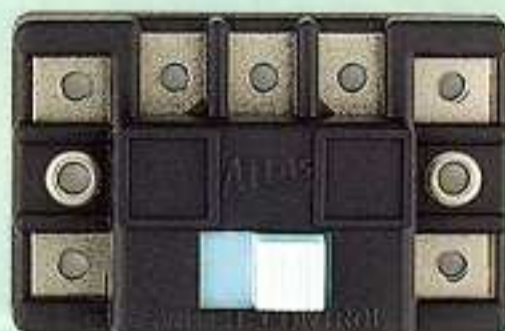

# #6 Turnouts

## #6 TURNOUTS (REMOTE)

These turnouts have a remote control switch machine attached so you can wire the switch to be "thrown" (changing the direction of the rail), from your control panel rather than from the switch itself.

Remote control turnouts include the #56 Switch Control Box (shown, left).

## #6 TURNOUTS (REMOTE)

Item#	Description	Price
2704	#6 Turnout Left hand, Remote	\$14.95
2705	#6 Turnout Right hand, Remote	\$14.95

## #6 TURNOUTS (MANUAL)

Manual turnouts can only be "thrown" (changing the direction of the rail) by flipping a lever on the switch by hand. These #6 N scale manual turnouts can be easily converted to remote control with #2715 (left hand) and #2716 (right hand) switch machines.

## #6 TURNOUTS (MANUAL)

Item#	Description	Price
2706	#6 Turnout Left hand, Manual	\$9.60
2707	#6 Turnout Right hand, Manual	\$9.60

## SWITCH MACHINES (REMOTE)

Screw-on remote switch machines will quickly and easily convert Atlas Standard or #6 N turnouts to remote control. With a remote control turnout, you can wire the turnout to be "thrown" (changing the direction of the rail) from your control panel, rather than from the turnout itself.

## REMOTE SWITCH MACHINES

Item#	Description	Price
2715	Left hand	\$7.45
2716	Right hand	\$7.45

## CUSTOM N LINE® #6 TURNOUTS

Custom N Line® turnouts are made to be used with the Atlas Under-Table Switch Machine (shown on page 31) or a ground throw. Unlike the other N scale turnouts which have shortened ties to allow for switch machine attachment, Custom N Line® turnouts have full-length ties. A double-ended throw-bar allows you to place your under-table switch machine on either side of the turnout.

## CUSTOM N LINE® #6 TURNOUTS

Item#	Description	Price
2752	#6 Custom Left hand	\$8.55
2753	#6 Custom Right hand	\$8.55

# Layout Packages

Layout Packages

## EXCITING LAYOUT PACKAGES TO HELP YOU GET STARTED QUICKLY

Atlas has designed and tested 18 different, exciting N scale layout configurations using Atlas Snap-Track, Super-Flex® Track, switches, bridges and piers. On the next few pages is a sample of the plans that have become the most popular over the years. You may ask your local Atlas retailer to put the necessary materials together for you. Materials list, detailed plan and building instructions can be found in one of our two N scale layout instruction books (pg. 4).

If you wish to see all 18 Atlas N scale layout plans, please ask your local retailer for a free Fantastic Layout Booklet which contains highlights of each layout. If your retailer does not have one available, please call Atlas directly to request one.

Trees, scenery & buildings are not included in package.

# Structures and Accessories

## N SCALE STRUCTURE KITS

Atlas has taken three popular HO structure kits and recreated them for N scalers! Each kit is modeled after an actual prototype and is molded in appropriate colors so painting is not required. Assembly is easy using plastic compatible glue (not included).

From the Collection of "HOseeker"

### N STRUCTURE KITS

Item#	Description	Price
2840	Signal Tower - Accessories include a tool shed, barrels and an oil tank.	\$15.95
2841	Passenger Station Kit (includes one platform)	\$21.45
2842	Station Platform Kit (includes two platforms)	\$11.75

Accessories that come with station and platform kits include a luggage cart with baggage and freight, a hand truck and a freight scale. Intricate exterior details of all kits above include: an inlaid brick chimney, drainage pipes, oil tank, eave supports and realistically shingled roof.

### #2541 OVER 'N UNDER PIER SET

\$7.35 - 25 pieces per package  
Two each of 12 graduated concrete piers plus #2542 Straight Pier Girder. Pier heights range from 9/64" through 1-11/16" by 9/64" increments. Grade with piers spaced at 5" intervals is 2.8%.

### #2826 VIADUCT KIT

\$4.15  
Easy-to-build, assembles into 4-arch cut stone masonry single-track viaduct. Arches are 2-5/32" center-to-center and 3-1/4" high. Easily shortened to any length. Arch assembly without piers is 1" high.

## ALL BRIDGES ARE THE SAME LENGTH AS A STANDARD 5" STRAIGHT SECTION.

Snap them together atop the #2543 Bridge Piers in any number and arrangement for an impressively realistic multi-span structure.

### #2801 TELEPHONE POLES

\$1.95 - (Set of 12)

### #2546 WARREN TRUSS BRIDGE

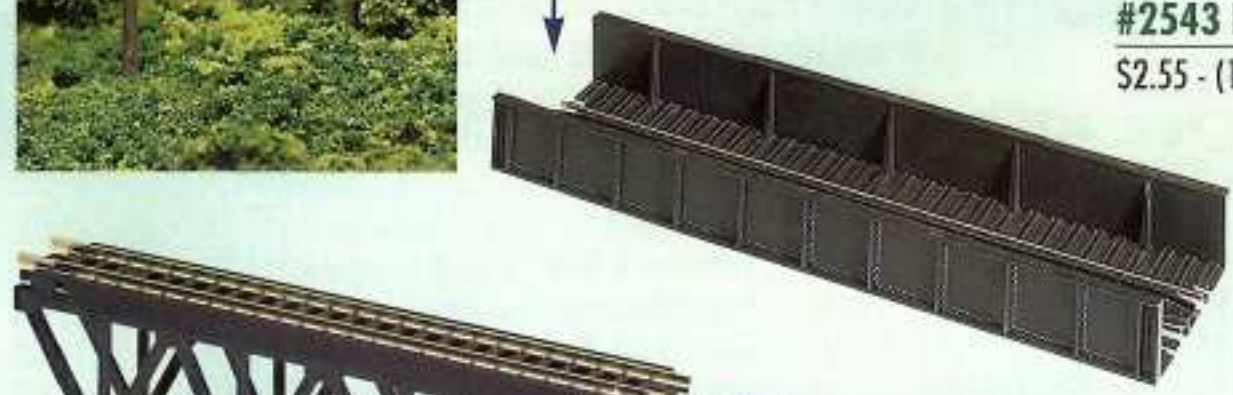

\$3.75 - (5" x 1-1/2" x 1-1/8")

### #2548 PLATE GIRDER BRIDGE

\$3.75 - (5" x 1-1/2" x 5/8")

### #2543 BRIDGE PIERS

\$2.55 - (1-11/16" high 3 pieces per package)

### #2547 DECK TRUSS BRIDGE

\$3.75 - (5" x 3/4" x 1-1/4")

### #2542 STRAIGHT PIER GIRDER

\$2.55 - (5" long, 4 pieces per package)

# Rolling Stock

(Yard created and photographed by Ken Patterson.)

"HOseker"

## OUR STOCK INCLUDES OVER 26 DIFFERENT BODY STYLES FOR A TOTAL OF OVER 400 DIFFERENT N SCALE FREIGHT CARS!

Atlas's line of N scale freight cars is very extensive, and is constantly expanding. We work hard to produce only the finest cars with delicate detailing and outstanding printing quality.

Throughout the year as each in-stock freight car sells out, we will rerelease that car with the same road name but a brand new road number, giving you more variety. In addition, we'll continue to produce new body styles, and new road names for existing freight car types. Stay tuned to our web site for the latest new N scale freight car announcements! # N Classic Locomotives

Atlas Classics are a visit back to some of Atlas' most famous and popular locomotives ever made. Depending on each model, each Classic locomotive may be retooled to include the addition of new parts and updates to framework and internal drives. These Classics may resemble your favorites, but in terms of technology and performance, they are superior to their predecessors.

Future N Classic Locomotives (in no particular release order): RS-11, SD-7 and SD-9

## N RS-3 AND RSD-4/5'S

These locomotives were popular sell-outs in their earlier runs and promise to be even more so with the addition of new features including full pilots with body mounted couplers, directional lighting, the addition of dual-flywheels, a five-pole skewed armature motor for super quiet performance, low friction drive, blackened metal wheels and accurate painting and printing.

## N ALCO RSD-4/5 CLASSIC LOCOMOTIVE

## THE FIRST NEW N SCALE LOCOMOTIVE OF THE NEW CENTURY! INTRODUCING THE N SD-35.

The new N SD-35 engine will have the same reliable, high performance mechanism and incredible details of all Atlas N scale locomotives, plus the latest in DCC technology. This new model will be offered in two variations: one with a factory-installed Lenz DCC decoder-equipped PC board, and the other with a PC board designed to be replaced by a DCC decoder-equipped board in the future. So whether you are into DCC now or plan on making use of the technology in the future, the SD-35 model of your choice will suit your needs.

### Features Include:

- Directional lighting
- Blackened wheels
- Dual flywheel equipped 5-pole skewed armature motor with a low friction mechanism
- Full pilots with body mounted Rapido couplers which can easily be changed to MicroTrains® #1015/1016 couplers

# Scenic Ridge N Scale Layout

If you're ready to build an N scale layout, this is the way to go! Woodland Scenics offers a complete, lightweight layout kit and Atlas provides the coordinating Track Pack. These products will have you on your way to a great 3' by 6' railroad.

*Both the Scenic Ridge Layout Kit and Track Pack are now available at your local hobby shop!*

*(Trains and buildings  
not included.)*

From the Collection of  
"HOseeker"

## #2588 SCENIC RIDGE TRACK PACK

\$54.95

Contains all the Atlas N scale track, switches, bridges and rail joiners you need to build the Scenic Ridge Layout Kit shown above. For a complete list of all track pieces, please see <http://www.atlasrr.com/trackpack.asp>

## #ST1482 SCENIC RIDGE LAYOUT KIT

\$198.00

- Anyone can build the layout
- No dusty mess or expensive power tools
- Kit contained in one box
- Can be expanded as a module
- Track plan printed on lightweight base
- Fully illustrated, easy-to-follow instructions

## #ST1485 TOWN AND FACTORY BUILDING SET

\$98.00

- New! 13 Buildings for Scenic Ridge or any N scale layout
