

ABOUT ATLAS N SCALE TRACK

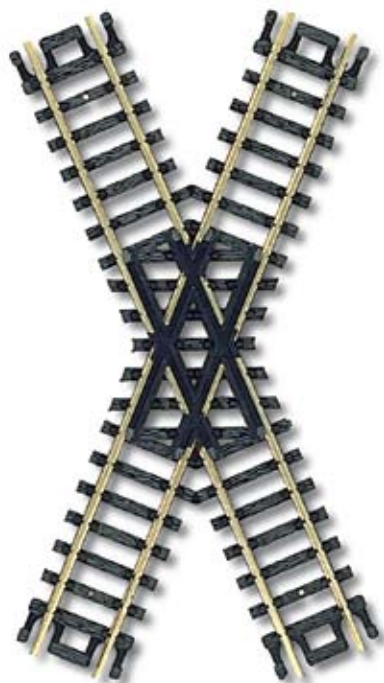

Atlas has been making and expanding its high quality, precision engineered N scale track products for more than 30 years, using the same time-honored methods and standards that first made Atlas HO track a worldwide leader. Finely detailed to bring a realistic look to your layout and extensive enough to fit your modeling needs, Atlas track is engineered for long term, reliable operation. Easy to install, durable, yet affordable Atlas track and switches are the first choice of discriminating modelers who agree – *You're on the Right Track...with Atlas!*[®]

N CODE 80 TRACK (BLACK TIES/NICKEL SILVER RAIL)

The time-tested Atlas standard, featuring black ties and solid nickel silver rail. Sturdy, high performance and available in an extensive line that includes Snap-Track[®], Snap-Switches, Super-Flex[®] Track and more, Atlas Code 80 track looks great on any size layout.

(Code 80 Custom N Line[®] Left Switch - Item #2750)

(Code 80 45° Crossing - Item #2567)

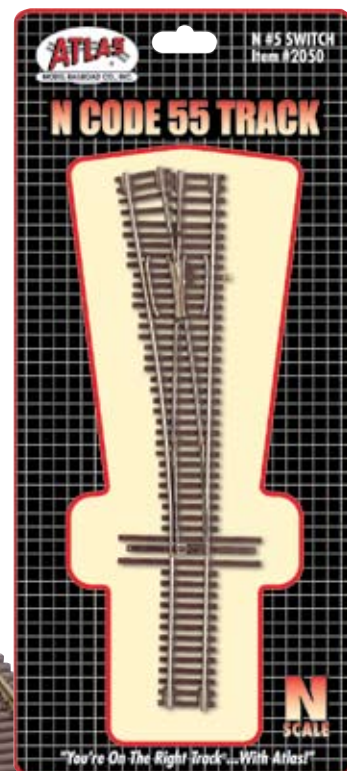

(N Left Hand Remote Switch Machine - Item #2715)

N CODE 55 TRACK (BROWN TIES/NICKEL SILVER RAIL)

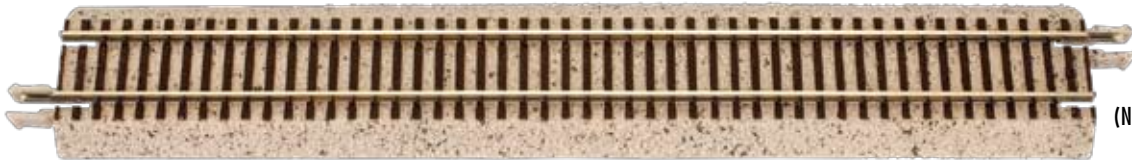

Designed for the scale modeler, Code 55 track has simulated brown ties and a lower rail profile than Code 80 track, with the same durability, flexibility and reliability all Atlas products are renowned for. Considered, "the modeler's track" its prototypical ties and rails will enhance your layout's appearance, as well as the enjoyment of your operating sessions!

Over 50 years ago, our founder, Stephen J. Schaffan Jr., invented and patented flexible track, revolutionizing the hobby and paving the way for his entry into the Model Railroading Hall of Fame. Compared to other curving track, which tends to "kink" when flexed, Atlas flexible track can repeatedly be manipulated to create your perfect layout with ease. Atlas Super-Flex[®] Track, which can be bent and shaped to form curves of any radius and is ideal for spiral easement curves, is available in N scale in Code 80 and Code 55 versions.

(Code 55 Flex-Track - Item #2000)

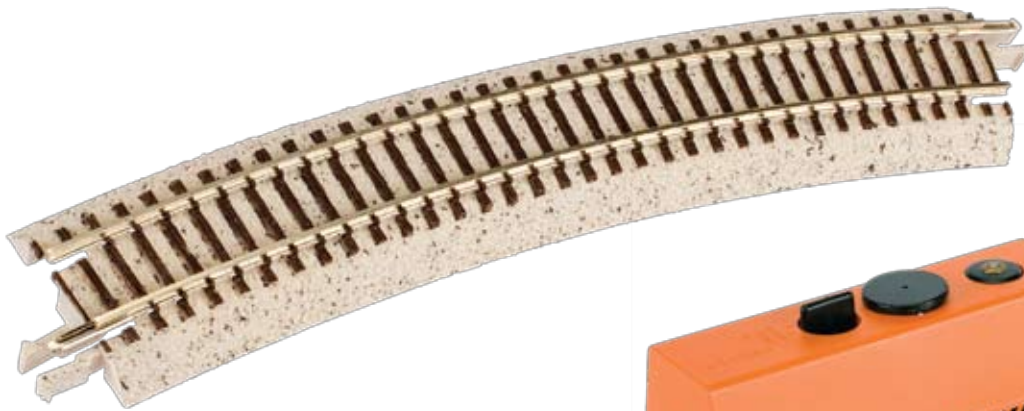

ABOUT ATLAS N SCALE TRACK

(N True-Track® 6" Straight - Item #2401)

N TRUE-TRACK® ROADBED TRACK

All New! The latest line of stellar Atlas N scale track products are scheduled to arrive during summer 2008. These new roadbed track products have tie spacing matching the US prototype and simulated ballast roadbed in gray with mottled color highlights. Ties are dark brown to enhance the track's prototypical look. This highly anticipated new track line comes with Code 65 rail, smaller than similar track currently available, enhancing visual appearance.

(N True-Track® 12.5" Radius - Item #2412)

(N Track Cleaning Car - Item #32554)

MORE EXCEPTIONAL ATLAS N SCALE TRACK PRODUCTS!

Scenic Ridge Track Pack (Item #2588, Code 80) Contains all the Atlas N scale Snap-Track, bridges and switches needed to complete Woodland Scenics 3' x 6' Scenic Ridge Layout.

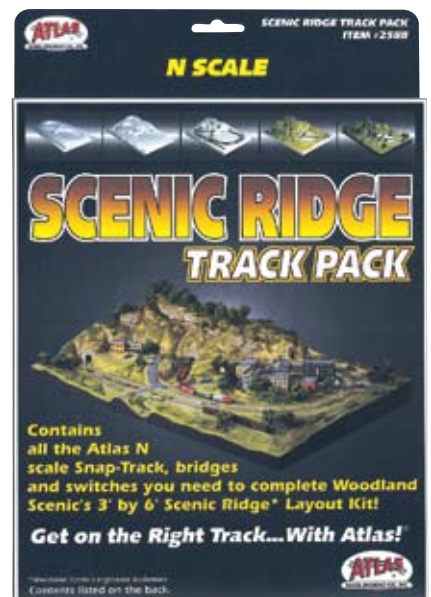

Straight Snap-Track Track® Assortment (Item #2509) Offers three different sized fitter pieces: 2 1/2" straight, 1 1/4" straight and 5/8" straight.

N Track Cleaning Car Available in four paint schemes, each includes one track cleaning car, three dry-type discs, three moist-type cleaning discs, vacuum fan disc (installed), disc changer tool, brush and sponge. Available with Rapido® couplers only. See them at www.atlasrr.com/nfreight/ntrackcleaningcar1.htm

For the full line of quality N scale track products, see pages 110-112 of this catalog and visit www.atlasrr.com

(N Scenic Ridge Track Pack - Item #2588)

PRE-ORDER ANNOUNCEMENTS

Atlas determines the approximate amount of freight car and locomotive production run quantity by the number of dealer/distributor orders received during the specified pre-order time period. To assure the receipt of a desired model, from a specific store, it is highly recommended to order during this period. Please use the pre-order form found in the center of this quarterly catalog and place your order with one of the authorized Atlas hobby stores listed alphabetically by state at the back.

If you miss the pre-order deadline, check with your hobby store, or Atlas on-line (www.atlasrr.com) for availability of any desired product. Atlas carries a large inventory of in-stock items in all of its scales and product lines.

'Announcements' are products that will typically be delivered in 4-6 months.

PERFECT FOR YOUR LAYOUT!

Atlas N Scale Code 55 & Code 80 Track

A great train running experience needs more than good cars, you need good track as well. Atlas' N Scale Code 55 & Code 80 track lines are finely detailed to bring a realistic look to your layout, and extensive enough to fit your modeling needs. In addition to its good looks, Atlas track is extremely reliable, serving you as well years from now as it does today.

N Code 55 (Brown Ties/Nickel Silver Rail):

The modeler's track with prototypical ties and rails. For those wanting a more prototypical look to their layout, Code 55 is the track of choice. The ties are finer and the rail smaller than Code 80 and has the same hallmarks of Atlas quality that all of our track products feature.

Code 55 - Item #2056

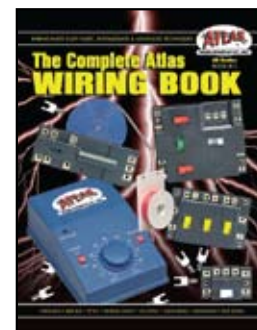

N Code 80 (Black Ties/Nickel Silver Rail):

The time-tested Atlas standard. Its rails are a little bit fuller than Code 55, making it more compatible with the wheels on older freight cars. This durable track has been used on thousands of model railroad layouts over the past 30 years and will continue to be used by modelers everywhere.

Code 80 - Item #2509

Sometimes wiring your layout can seem a little intimidating. That's why Atlas has provided the perfect resource for help with your #12 Complete Atlas Wiring Book. It's loaded with tips and tricks to help you with your foray into wiring, this book will help you achieve reliable running from your Atlas tack and accessories. For a complete track listing please see pages 110-112.

Atlas N True-Track®

Long known for its predominance in producing reliable, high performance track products, Atlas elevates the standard once again with its all-new line of roadbed track in N Scale. The latest addition to Atlas' highly regarded track line comes with Code 65 rail, smaller than similar track currently on the market, enhancing the track's scale look while at the same time allowing most equipment to operate flawlessly. With tie spacing matching US prototype, mottled highlights, dark brown ties and simulated ballast roadbed, the first six items in this line are sure to please those who appreciate maximum realism on their layout.

Arriving in your hobby shop just in time for your seasonal layout plans, Atlas N Scale True-Track® Roadbed Track is a gift that will keep on giving many hours of smooth-running model railroad fun.

12.5" Radius Curve - Item #2412
