

ABOUT ATLAS N SCALE MODEL RAILROADING

Welcome... To the Wonderful World of N Scale Model Railroading!

At the Atlas Model Railroad Co., Inc. we like to say, **"You're on the Right Track...With Atlas!"** Within these pages, you'll see why. All Atlas track products are designed, engineered and tested by the world's premiere model railroad track company to be the best on the market and stand the test of time; providing years of high performance model railroading enjoyment.

In N scale, Atlas offers an ever-growing family of products at a variety of prices. Our locomotives, freight cars, track, buildings, electrical components, software, accessories and more deliver realism, precision, and the smooth-running reliability that has made Atlas a respected name in model railroading throughout the world. The result is the pinnacle of prototypical perfection, at prices for every pocketbook.

TRACK

First and foremost, Atlas is known for its track products. Our founder invented and patented flexible track, and popularized the sectional track system which became the industry standard, garnering him a place in the Model Railroading Hall of Fame. Finely detailed to bring a realistic look to your layout and extensive enough to fit your modeling needs, Atlas track is easy to install, durable, yet affordable. Atlas track and switches are the first choice of discriminating modelers!

(Code 80 Custom N Line® Standard Wye Switch - Item #2754)

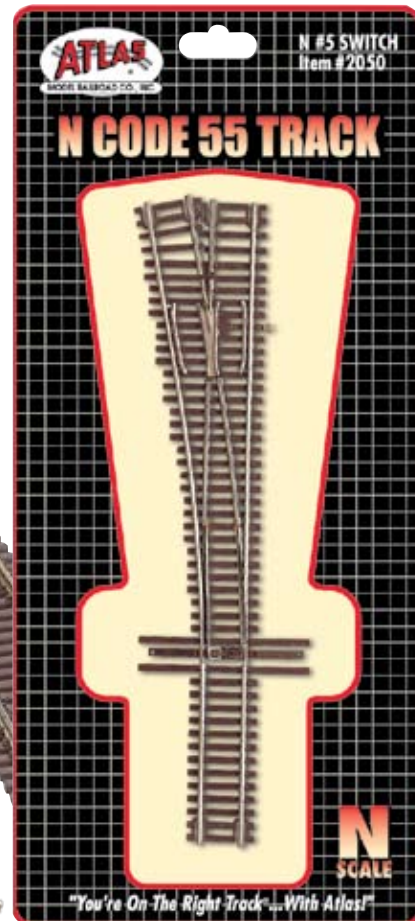

N CODE 80 TRACK (BLACK TIES/NICKEL SILVER RAIL)

This time-tested Atlas standard is sturdy, highly proven and available in an extensive line that includes Snap-Track®, Snap-Switches, Super-Flex® Track, crossings, wyes and more. They look great on any layout!

(Code 55 Flex-Track - Item #2000)

N CODE 55 TRACK (BROWN TIES/NICKEL SILVER RAIL)

Designed for the scale modeler, Code 55 track has a lower rail profile than Code 80, with the same durability, flexibility and reliability. Considered, "the modeler's track" its prototypical ties and rails will enhance your layout's appearance, along with your enjoyment of operating sessions!

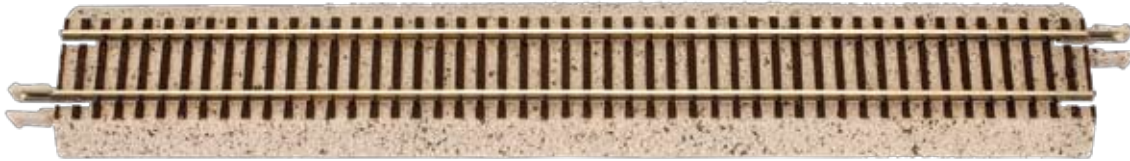

ABOUT ATLAS N SCALE MODEL RAILROADING

N SUPER-FLEX® TRACK

Available in both Code 80 and Code 55. Compared to other curving track, which can "kink" when flexed, Atlas flexible track can repeatedly be manipulated to create your perfect layout with ease and shaped to form curves of any radius. It is ideal for spiral easement curves.

N TRUE-TRACK® ROADBED TRACK

These new roadbed track products have tie spacing matching the US prototype and simulated ballast roadbed in gray with mottled color highlights. Ties are dark brown to enhance the track's prototypical look. This track line comes with Code 65 rail, smaller than similar track currently available, enhancing visual appearance.

(N True-Track® 6" Straight - Item #2401)

(N True-Track® 12.5" Radius - Item #2412)

MORE EXCEPTIONAL ATLAS N SCALE TRACK PRODUCTS!

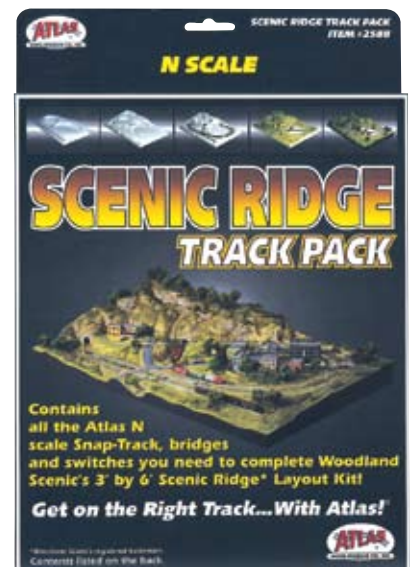

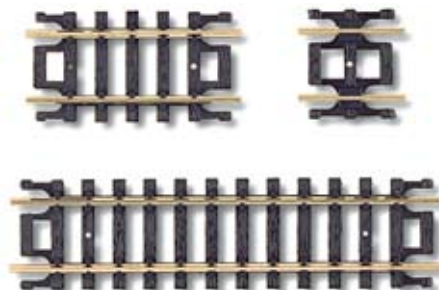

Scenic Ridge Track Pack (Item #2588, Code 80) Contains all the Atlas N scale Snap-Track, bridges and switches needed to complete Woodland Scenics 3' x 6' Scenic Ridge Layout.

Straight Snap-Track Track® Assortment

(Item #2509) Offers three different sized fitter pieces: 2 1/2" straight, 1 1/4" straight and 5/8" straight.

For the full line of quality Atlas N scale track, see pages 29-31 (some sold in bulk), and all currently available Atlas N Scale products, please visit www.atlasrr.com

(N Straight Snap-Track® Assortment Item #2509)

(N Scenic Ridge Track Pack - Item #2588)

PRE-ORDER ANNOUNCEMENTS

Atlas determines the approximate amount of freight car and locomotive production run quantity by the number of dealer/distributor orders received during the specified pre-order time period. To assure the receipt of a desired model, from a specific store, it is highly recommended to order during this period. Please use the pre-order form found in the center of this quarterly catalog and place your order with one of the authorized Atlas hobby stores listed alphabetically by state at the back.

If you miss the pre-order deadline, check with your hobby store, or Atlas on-line (www.atlasrr.com) for availability of any desired product. Atlas carries a large inventory of in-stock items in all of its scales and product lines.

'Announcements' are products that will typically be delivered in 4-6 months.
