

**ABOUT ATLAS N SCALE MODEL RAILROADING****ENJOYING N SCALE MODEL RAILROADING!**

It's easy to see why N, (1:160 proportioned to the prototype), is the second most popular model railroading scale, right behind HO. The space-saving nature of N Scale makes it an ideal choice for smaller layouts, including those traversing bookshelves or slid under the bed when not in use! Compared to their larger brethren, they are generally less expensive and easy to store. Atlas began making N Scale products over 40 years ago. The line continues to grow along with the scale's popularity.

Atlas N Scale products offer something for every skill and interest level. Our locomotives, freight cars, track, buildings, electrical components, software, accessories and more deliver realism, precision, and the smooth-running reliability that Atlas is renowned for. In N Scale, Atlas offers top-of-the-line Master Line™ products, and the economically priced, prototypical Trainman® Line.

**TRACK**

(Code 55 Flex-Track -  
Item #2000)

**N CODE 80 TRACK (BLACK TIES/NICKEL SILVER RAIL)**

This time-tested Atlas standard is sturdy, highly proven and available in an extensive line that includes Snap-Track®, Snap-Switches, Super-Flex® Track, crossings, wyes and more.

**N CODE 55 TRACK (BROWN TIES/NICKEL SILVER RAIL)**

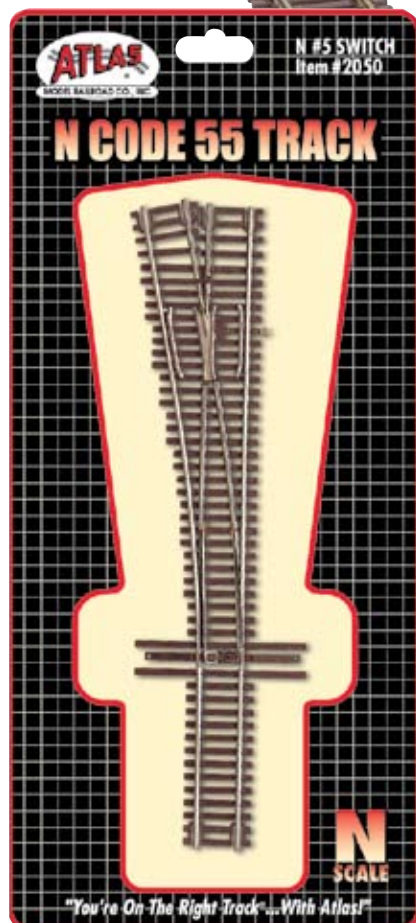

Designed for the scale modeler, Code 55 track has a lower rail profile than Code 80, with the same durability, flexibility and reliability. Considered, "the modeler's track" its prototypical ties and rails will enhance your layout's appearance, along with your operating session enjoyment!

**N TRUE-TRACK® ROADBED TRACK**

You asked and Atlas answered! Meet the newest members of the Atlas N Scale track family - Code 65 True-Track® Roadbed Track. Ties are dark brown for a prototypical look and tie spacing matches the US prototype. Experience the unparalleled realism of its simulated ballast roadbed in gray with mottled color highlights. Code 65 rail, smaller than similar track currently available, combines realistic visual appearance with flawless operation. Six items are now available.

**N SUPER-FLEX® TRACK**

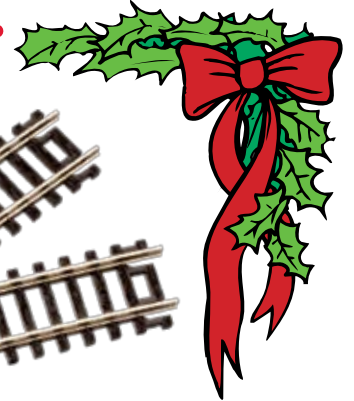

Our founder invented and patented flexible track! Compared to other curving track, which can "kink" when flexed, Atlas flexible track can repeatedly be manipulated to create your perfect layout with ease and shaped to form curves of any radius. It is ideal for spiral easement curves. In N Scale, Super-Flex® is available in both Code 80 and Code 55.

# ABOUT ATLAS N SCALE MODEL RAILROADING

(Code 55 Through Plate Girder Bridge Double Track Kit - Item #2081)

(Code 80 Straight Snap-Track® Assortment - Item #2509)

(Code 80 Custom N Line® Standard Wye Switch - Item #2754)

(N True-Track® 6" Straight - Item #2401)

## MORE EXCEPTIONAL ATLAS N SCALE TRACK PRODUCTS

### Maywood Station

(Item#s 2849-1, 2849-2 & 2849-3; Kit Item #2848)

Complete your holiday layout with a picturesque passenger station reminiscent of the Victorian era. Real world historic significance comes with this replica of a structure which still exists! Built by the N.J. Midland Railroad in 1872, it is similar to stations across the US. A member of Atlas' research and development staff was among volunteers taking part in the recent restoration

of the prototype, which is now a railroad museum. Once you read about this very special trackside structure at [www.maywoodstation.com](http://www.maywoodstation.com), you're sure to want one of your own to bring a new level of interest to your miniature world!

**Vehicles for Every Layout** Cruising the highways and byways of layouts across the planet are the growing line of colorful, modern vehicles Atlas now offers in N Scale. They roll into our headquarters and fly out the door! With their varied, brilliant paint schemes, fine details and reasonable prices, Atlas vehicles are versatile and make great stocking stuffers! Park them in your layout's driveways, factory parking lots or train station to add the realistic detail that brings your layout to life! Available now or arriving soon at your hobby shop are Ford® Taurus vehicles and taxi cabs, Ford® Fairmont 1978 sedans and wagons, and Ford® F-150 1997 pick-up trucks.

(N Ford® Taurus Taxi Cab - Item #2899)

### Straight Snap-Track Track® Assortment

(Item #2509) Offers three different sized fitter pieces: 2 1/2" straight, 1 1/4" straight and 5/8" straight.

This is an officially licensed product by the Ford Motor Company®.

For the full line of quality Atlas N scale track, see pages 119-121 (some sold in bulk), and all currently available Atlas N Scale products, please visit [www.atlasrr.com](http://www.atlasrr.com)

## **HO & N Atlas Fantastic Layout Booklet - Item #4**

*Revised Edition! Available Now!*

Whether you're contemplating your 1st layout or your 71st, you've got everything here that you need to make the right decision. This booklet was designed to make it easy for you to choose your fantastic layout! All 54 Classic Atlas HO & N scale layouts, plus 12 HO True-Track® layouts and five N Code 55 layouts are included in simple graphics, along with the vital information you need to decide which layout is right for you.

We've given you each layout's name and number, the name and item number of the corresponding Atlas instruction book in which it appears in detail, and other pertinent information such as table and layout size, skill level, approximate cost and a brief description.

## **Atlas Right Track™ Power Pack - Item #311**

*Upgraded Electronics!*

MSRP: \$49.95

Now Available!

Features:

- Upgraded Electronics
- Separate power and direction switches
- Circuit breaker protection
- Overload indicator lamp
- UL and C-UL listed
- No pulse power to damage precision motors

# PRE-ORDER ANNOUNCEMENTS

Atlas determines the approximate amount of freight car and locomotive production run quantity by the number of dealer/distributor orders received during the specified pre-order time period. To assure the receipt of a desired model, from a specific store, it is highly recommended to order during this period. Please use the pre-order hobby form found in the center of this quarterly catalog and place your order with one of the authorized Atlas hobby stores listed alphabetically by state at the back.

If you miss the pre-order deadline, check with your hobby store, or Atlas on-line ([www.atlasrr.com](http://www.atlasrr.com)) for availability of any desired product. Atlas carries a large inventory of in-stock items in all of its scales and product lines.

'Announcements' are products that will typically be delivered in 4-6 months.

# Atlas N Code 55 Track

*Designed with precision and sophisticated technology, Atlas' N Scale Code 55 Track has the same reliability and durability as our popular Code 80 Track, but with some slight differences that make it more prototypical. Code 55 Track is characterized by having finer brown ties and smaller rail than Atlas' traditional Code 80 Track.*
