ATLAS TRAIN SETS

O INDUSTRIAL RAIL® O-27 TRAIN SETS

A staple of the Atlas O stable over the past few years, the Industrial Rail® train sets have returned with several stunning new entries to its roster. This year, each set is a themed passenger train, with road names including the Union Pacific "Pony Express", the Pennsylvania-Reading Seashore Lines "Atlantic City Express", the Christmas Tree-ready Yuletide Express and the heavenly Angel Train™. These sets are our first with the all new Industrial Rail® Passenger Cars.

Each set features a 4-4-2 Steam Locomotive, a combine passenger car, a coach passenger car, a loop of Industrial Rail® Roadbed Track (40" x 80"), an 80 watt power pack, hook-up wire, smoke fluid, and a starter guide.

Expansion options are limitless. The Industrial Rail® track line is constantly growing and, with transition track, able to be joined to most available track systems, allowing you to easily combine it to any existing track in your layout. The robust 80 Watt power pack is a fantastic transformer that will serve you well not only for running your train set but as the power source for your future layout.

All net profits from the sale of the Atlas O Angel Train Set will be donated to the charitable works for the poor and needy carried on daily by the priests, sisters and laity of The Shrine of St. Joseph of Stirling, New Jersey.
