A MESSAGE FROM THE CEO

January 2015

Dear Model Railroader,

Welcome to the latest edition of the Atlas All Scales Catalog. Atlas publishes this bi-annual online and print catalog in January and July of each year. It is the primary means of communicating to you our latest planned 'announced' and 'arrival' products in N, HO and O scales during each six month period. Additionally, since product schedules are subject to additions and changes, Atlas also publishes an All Scales Monthly Catalog which updates all relevant announcement and arrival information on a month to month basis.

Starting in 2014, Atlas included MSRP's for all new announcements as well as arriving products. This allows distributors, dealers and consumers to immediately guarantee their order for a new announced product as soon as the bi-annual Atlas All Scales Catalog is published, rather than wait for the Atlas All Scales Monthly Catalog. The Monthly Catalogs are still being published to remind everyone of the guaranteed reservation deadlines, and to introduce some surprise products that were not announced in the All Scales Catalogs.

Atlas is starting the New Year with some impressive 'announcements' and 'arrivals'. My personal favorite 'arrival' is the all new N scale Alco S-2 switcher which comes in both Master Line Silver (DC) and Master Line Gold (DCC/sound) editions. The Atlas Alco S-2 is a superbly tooled, realistic looking motive power masterpiece. In addition, the Gold edition Loksound equipped locomotive precisely replicates actual prototype sounds, making it one of the most remarkable product offerings found anywhere in N scale model railroading today.

Not to be overshadowed by N scale arrivals, Atlas O is announcing the brand new F-7 Locomotive, as well as the much anticipated Master line California Zephyr (CZ) Baggage Car and the outstanding model of the Dome-Dorm-Buffer-Lounge Car. Atlas is now hitting a very productive manufacturing cycle in both announcements and arrivals of past and future cars, and remains committed to delivering the complete CZ train in the near future. Stay tuned for some interesting announcements to come with the Atlas CZs. Last, but not least, Atlas HO has planned some surprises to be released during the All Scales Monthly Catalog publications that you won't want to miss. Stay tuned!

All Atlas products can be ordered from your Atlas authorized local hobby shop. If you need assistance in locating an Atlas authorized dealer near you, it is as easy as heading over to the Atlas dealer locator at shop.atlasrr.com, typing in your location and hitting "Enter". The results from the search will advise you as to the nearest hobby store that carries Atlas products. Also for your convenience, a complete new Dealer Listing, which has expanded by more than 50 Atlas dealers, is provided for you on pages 121-129 of this catalog.

If you need to find an Atlas product, it may be in stock on our online store, also located at shop.atlasrr.com. The revamped Atlas web site and ecommerce system makes ordering Atlas products easier than ever. Consumers, dealers and distributors can easily determine the status of a product and order online.

To all our customers, I, and the entire Atlas staff thank you for your interest and purchase of Atlas products and wish you and your family a happy, healthy and productive New Year and winter 2015 season.

Sincerely,

A handwritten signature in black ink that reads "Paul Graf". The signature is written in a cursive, flowing style.

Paul Graf, CEO
Atlas Model Railroad Co. Inc.

All prices are in US dollars. Prices and dates are subject to change without notice. All catalog products are subject to availability at time of order. Atlas reserves the right to correct errors, change prices and modify designs without notice or obligation to purchasers of same or similar products. Any product pricing errors may be corrected at any time through notification of distributors, dealers and on our websites at www.atlasrr.com or www.atlaso.com. Atlas reserves the right to cancel any announced product. Unless otherwise noted, all N scale cars and locomotives will operate properly on 9-3/4" radius and all HO scale cars and locomotives will operate properly on 18" radius. Short length cars and locomotives may operate properly on radii smaller than these.

The cover depicts the Atlas Master N S2 Locomotive. This model can be found on page 68 of this catalog. To order these and other fine Atlas models, track and accessories, please contact your local dealer or visit shop.atlasrr.com!

All arrival/announcements are estimates and may change at any time.

Master/Trainman defined - Atlas has two primary lines of locomotives and rolling stock (freight and passenger cars) designated as either Master or Trainman. The Master line is made up of highly detailed models which most often includes individual parts and details that match a specified model or phase. Road numbers and paint/print decoration will match an actual model, past or present, in the real world. The Trainman line will use accurate numbering, paint and print decoration; however there will not be as great attention to individual detail as afforded in the Master line.
