# ORDERING INFORMATION & TERMS

May 2017

Dear Model Railroader,

Welcome to the May 2017 Atlas ASMC consumer edition of product Announcements and Arrivals. Each individual All Scales Monthly Catalog (ASMC) is based on the bi-annual All Scales Catalog (ASC) that is released in January and July of each year.

The All Scales Catalog (ASC) provides an overview of Atlas planned product announcements and arrivals for the following six months. The All Scales Monthly Catalog (ASMC) focuses in on each month's planned and specified announcements and allows consumers to place guaranteed pre-orders with their local hobby shop for those specific products by a given date. If you need assistance finding a dealer near you, don't forget our Hobby Store Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>.

Both catalogs are widely distributed and shared with thousands of dedicated Atlas consumer fans in accordance with their scale preference. This distribution is accomplished through targeted electronic messaging as well as via handouts at shows throughout the year. You can ensure that you receive the latest Atlas news and offers, in your preferred scale(s), delivered directly to your email inbox by visiting [www.atlasrr.com](http://www.atlasrr.com) and signing up for our email newsletter – the Atlas Insider.

May's edition of the ASMC is full of products that discerning HO, N and O modelers desire. A few of the highlights are surprise announcements of the all new N Trainman® 60' Passenger Car and O Trainman® C&O Cupola Caboose. We didn't forget about HO modelers - there's plenty of exciting products to fill their needs - including the Master line GP40-2W Locomotive, 70 Ton Hart Ballast Car & more! You'll find all of those wonderful models and more inside, as well as arriving freight cars, locomotives and track in all scales.

Sincerely,  
Joe Kolnoski  
Vice President of Sales

## QUICKLOOK

### Atlas N scale FMC boxcar

**Manufacturer**

Atlas Model Railroad Co.  
378 Florence Ave.  
Hillside, NJ 07205  
[www.atlasrr.com](http://www.atlasrr.com)

**Era:** late 1980s to present (as painted)

**Road names:** Burlington Northern; Atlanta & St. Andrews Bay; Atlantic & Western; Cadiz RR; Escanaba & Lake Superior; Lake Erie, Franklin & Clarion; Port Huron & Detroit; and Railbox. Three road numbers per paint scheme; also available undecorated (early and late body styles).

**Comments:** For more than 40 years, the full-size FMC 5,077-cubic-foot-capacity boxcar has been plying the rails. Now you can add this car to your N scale roster thanks to the latest release from Atlas Model Railroad Co. The model features a one-piece

injection-molded plastic body, etched-metal crossover platforms, molded grab irons, and a separately applied brakewheel on the B end of the car. The plastic underbody features pin-mounted trucks; body-mounted Accumate couplers; and molded center sills, crossbearers, crossties, and brake appliances.

Atlas offers the FMC 5077 boxcar in two body styles. The early version (shown here) was produced from 1975 through April 1976. It features long grab irons and wide end panels. The late version (post April 1976) have shorter grabs and narrow end panels.

Our sample is decorated in Burlington Northern's simplified scheme, used from the late 1980s until 1991. The Cascade Green paint is smooth

and evenly applied, with prototypical overspray on the roof. The white printing is opaque and legible.

The model's dimensions match prototype drawings published in the 1980 edition of *The Car and Locomotive Cyclopedia* (Simmons-Boardman Publishing Corp.)

The model weighs 1.2 ounces, which is .9 ounce too light per National Model Railroad Association recommended practice 20.1. The metal wheelsets are correctly gauged, and the couplers are at the correct height.

Atlas did a great job capturing the lines of the FMC boxcar. The model would look right at home in a freight train or spotted at an industry. – C.G.

# ATLAS TRACK PLANNING BOOKS

## MODEL RAILROADING MADE EASY!

With detailed diagrams, step-by-step instructions, and myriad layout options, Atlas books guide you through every phase of layout building. Each book is aimed at specific skill levels and includes the fundamentals of foundations, track laying, wiring, scenery, as well as a convenient "Products Required" list with each layout. Atlas' popular and interesting layouts can be viewed at [www.atlasrr.com](http://www.atlasrr.com) or [www.atlaso.com](http://www.atlaso.com)!

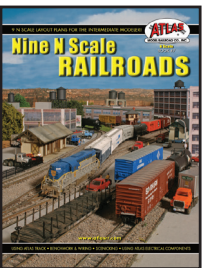

Item #6

#6 INTRODUCTION TO N SCALE MODEL RAILROADING - \$7.95

N scale fun starts here! This complete, easy to read book is ideal for beginners. It's all here – glossary, tools, benchwork, track laying, wiring, tips and more for nine basic layouts. (N1-N9)

#7 NINE N SCALE RAILROADS - \$8.95

Designed for intermediate modelers, this book details the techniques of benchwork, track laying, wiring and scenery for constructing nine engaging layouts that differ from those in book #6 in their size, detail and sophistication. (N10-N18)

Item #7

#9 ATLAS BEGINNER'S GUIDE TO HO MODEL RAILROADING - \$7.95

Here's your ticket to HO fun! Clear diagrams, comprehensive instructions, tips and a chapter on "Finishing Touches" put you on the right track to a successful layout. Blueprints for 12 basic layouts allow for future expansion with either Code 83 or Code 100 track. (HO1-HO12)

#11 HO LAYOUTS FOR EVERY SPACE - \$8.95

Packed with guidelines, shortcuts, tips and 11 layout options for either Code 83 or Code 100 track. More than 75 detailed diagrams make this edition a must for every HO modeler! A chapter on designing your own track plan is also included. (HO13-HO23)

#12 THE COMPLETE ATLAS WIRING BOOK - \$8.95

The Atlas Electrical Wiring System for all scales is made easy. Over 100 updated diagrams are complemented by a complete glossary, step-by-step instructions and advanced techniques.

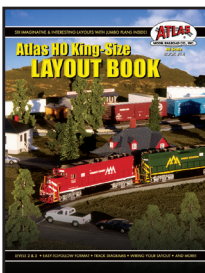

Item #12

#13 SEVEN STEP-BY-STEP HO RAILROADS - \$8.95

Whether beginner, intermediate, or advanced, every HO model railroader will find their ideal layout among the explicitly detailed and fully tested plans offered. Eliminate common pitfalls and learn from the many tips included to create your dream layout with Code 83 or Code 100 track. (HO24-HO30)

#14 HO KING-SIZE LAYOUT BOOK - \$13.95

For the intermediate and advanced modelers, this book contains six large layouts in an easy-to-follow scale format. Four plans fold out to become 11" x 17". Plans can be built with Code 83 or Code 100 track. (HO31-HO36)

Item #14

#15 BLUEPRINTS FOR TEN HO TRUE-TRACK® LAYOUTS - \$4.95

Fast and easy layouts using popular Atlas Code 83 True-Track® roadbed track. Wiring, tips, accessories and "finishing touches" are all included in this Level 1 book. (TT1-TT10)

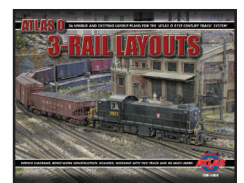

Item #15

#6008 ATLAS O 36 3-RAIL LAYOUT BOOK - \$9.95

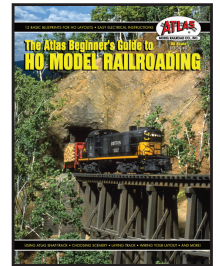

This book is a must-have for those who have discovered the superiority of the Atlas 21<sup>st</sup> Century Track® System. Everything you need for successful layout planning and building is here!

#0140 ATLAS O, LLC 40' WOOD REEFER COLLECTOR'S GUIDE - \$6.00

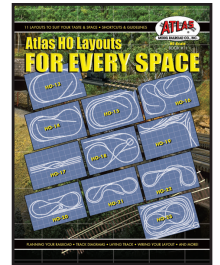

This collector's guide is filled with history, fun facts and over 100 color photos of 40' Wood Refrigerator Cars making this unique booklet a must for your O scale library.

Vermont Railway

New England Central

Iowa Northern

**ATLAS MASTER™ SERIES SILVER ADDITIONAL FEATURES:**

- NMRA 8-pin plug for DCC (Decoder-ready)

**ATLAS MASTER™ SERIES GOLD ADDITIONAL FEATURES:**

- DCC
- ESU Loksound-equipped

**DCC OPERATION FEATURES:**

- Supports all DCC-programming modes
- Flexible mapping of function keys F0 to F28
- A total of six DCC function outputs are available
- Follows all NMRA DCC standards and recommended practices

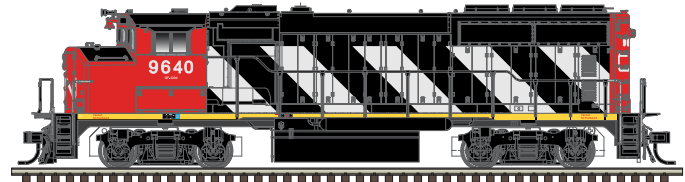

**ANALOG (DC) OPERATION FEATURES:**

- The LokSound Select Dual-Mode decoder allows your Atlas Gold Series locomotive to be used on DC as well as on DCC layouts.
- Please note that the Atlas Quantum Engineer will NOT operate an Atlas Gold Series locomotive equipped with a LokSound Select decoder on an analog (DC) layout. However, the sound and lighting functions of the LokSound Select decoder in the Atlas Gold Series locomotive can be controlled by an easy-to-use basic DCC system
- Also note that on a DC-powered layout, a DCC and sound equipped locomotive CANNOT be consisted with another locomotive that does not also have both DCC and sound. (This statement does NOT apply to DCC-equipped locomotives operating on a DCC layout.)

**ESU LOKSOUND FUNCTIONALITY FEATURES:**

- Over 20 sound effects are available, including engine start-up and shutdown, prime mover sounds through all eight notches, bell, air horn, air compressor, dynamic brakes and more.
- There are 16 user-selectable horns, 2 user-selectable bells, and 2 user-selectable synchronized brake squeals.
- Manual and Automatic Notching modes with the ability to change modes "on the fly" are provided for true realism.

## Coil car in HO models a heavy industry workhorse

**An HO scale model** of a 52-foot coil steel car with distinctive fish-belly side sills is now available from Atlas Model Railroad Co. The ready-to-run car is based on a modern prototype introduced by Canada's National Steel Car Co. in the mid-1990s. The new NSC cars are 51'-10" long with a 42'-0" trough down the center that holds 104 tons of steel coils ranging from 30" to 84" in diameter. The cars are 10'-6" wide and 6'-7" tall at the cover guides in the corners.

**The model.** The Atlas car is a superbly detailed replica. It has a two-ounce die-cast metal trough enclosed within the plastic body shell. The plastic running boards and end platforms have a see-through effect. The plastic underbody is light on brake system details, but this is concealed behind the side sills. The steps, vertical grab irons, brake wheel, and brake housing are separate parts.

The model includes a removable one-piece hood, which prototype railroads often mix between similar cars. The hood is molded plastic with added metal details. Its center lift bracket and both storage brackets are individually applied, as are the wire side railings and corner grab irons. The hood also has a concealed two-ounce steel weight. Small guides are located in the four corners of the body to position the hood, but it's a tight fit, so care is required to avoid damage as you add or remove the hood.

Our model came smoothly painted in the bright red and silver of the Columbus & Greenville RR (CAGY). Its heralds and data panels were clearly printed and legible under magnification.

Our sample has rigid-frame acetal plastic 100-ton roller bearing trucks with needle-point axles. All of the wheelsets

### ▶▶ Atlas HO coil steel car

#### Manufacturer

Atlas Model Railroad Co.  
378 Florence Ave.  
Hillside, N.J. 07205  
atlasrr.com

**Road names:** Columbus & Greenville RR; Canadian National (gray); Chicago, South Shore, & South Bend; Grand Trunk Western (brown with CN herald); Laurinburg & Southern (ex-Norfolk Southern gray); Providence & Worcester; and undecorated

**Era:** Mid 1990s to present

#### Features

- Accumate knuckle couplers
- Interior crossbars and floor detail
- Prototype paint schemes
- Removable hood
- See-through running boards
- Uncoupling levers

have RP-25 contour metal wheels that matched the National Model Railroad Association gauge.

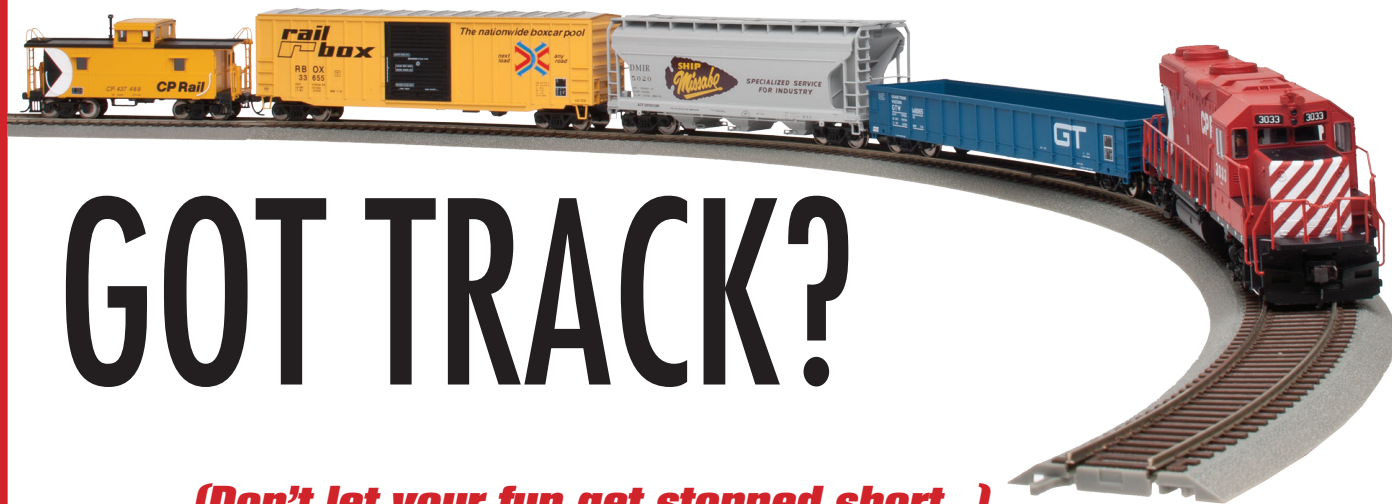

Body-mounted Accumate couplers are included, but they were .020" low, so some adjustments will be necessary.

With the hood in place, the sample car weighs 4 ounces, which is close to NMRA Recommended Practice 20.1.

Overall, Atlas has done an excellent job of capturing the prototype's simple design and interesting details. Modelers of today's railroads and heavy industries will certainly want a few of these modern steel coil cars on their layouts. Well done! – J.D.H.

# GOT TRACK?

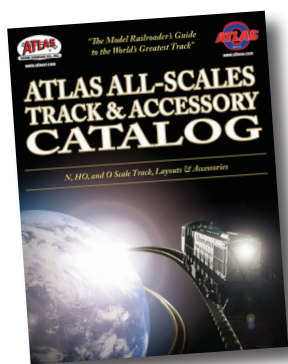

*(Don't let your fun get stopped short...)*

## ATLAS HAS PLENTY!

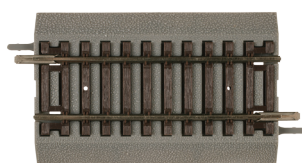

Whether you're finishing an existing layout, starting a new one, or just giving that trainset loop some extra pieces, Atlas has the 'right track' for you. The rugged plastic construction, nickel silver rail and U.S. prototype detail, assures longevity, maximum conductivity and accurate realism that guarantees your trains look good and keep running smoothly.

Atlas track provides industry leading **quality** at unequaled **value**, and our selection is so large we have an entire catalog devoted to it. HO and N scale track, in a variety of rail sizes, is fully stocked and ready to ship to you and your favorite Atlas authorized dealer now.

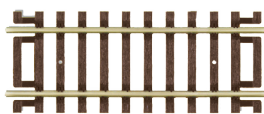

For more information, and the dealer nearest you, visit [www.atlasrr.com](http://www.atlasrr.com), or call 1-800-872-2521 and request a catalog of your own. And remember...*You're on the right track, (and trains) ...with Atlas!*
