# ORDERING INFORMATION & TERMS

August 2017

Dear Model Railroader,

Welcome to the August 2017 Atlas ASMC consumer edition of product Announcements and Arrivals.

All Atlas products are tooled prior to the announcement and offering of that product to the marketplace. In other words, Atlas researches and decides on a project, makes a significant commitment in product development resources and tooling dollars, and only then offers it to model railroaders.

Prior to the start of supplier production, Atlas announces to authorized dealers, distributors and e-subscribers that we are nearing final production. This notification comes in the form of Atlas' All Scales Monthly Catalog (ASMC) which focuses in on the current month's planned and specified announcements and allows consumers to place guaranteed pre-orders with their local hobby shop for those specific products by a given date. If you need assistance finding a dealer near you, don't forget our Hobby Store Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>.

The ASMC is widely distributed and shared with thousands of dedicated Atlas consumer fans in accordance with their scale preference. This distribution is accomplished through targeted electronic messaging as well as via handouts at shows throughout the year. You can ensure that you receive the latest Atlas news and offers, in your preferred scale(s), delivered directly to your email inbox by visiting [www.atlasrr.com](http://www.atlasrr.com) and signing up for our email newsletter – the Atlas Insider.

August's edition of the ASMC is full of products that discerning HO, N and O modelers desire. A few of the highlights are announcements of the brand new N scale 40' Rebuilt Well Car, along with corresponding 40' Containers. HO, N and O scale modelers can "branch out" with releases of the Pulpwood Flat Car in all scales, as well as the HO 50' Postwar Plug Door Box Car and the O Trainman 40' Hy-Cube Box Cars. You'll find all of those wonderful models and more inside, as well as arriving locomotives, rolling stock and track in all scales.

Sincerely,  
Joe Kolnoski  
Vice President of Sales

# 40-Foot Well Cars

When intermodal well cars or “double-stack” cars were introduced to American railroads in the early Eighties<sup>1</sup>, the most common configuration was the articulated quintuple-unit well cars designed primarily for international containers<sup>2</sup>.

But it didn't take long for the railroads, shippers and carbuilders to push ahead with new designs. One element of the evolving well car and container evolution was the increase in length. Soon, the five-unit well cars would begin to incorporate 45- and 48-foot wells, as both international and domestic containers lengthened.

One of the other well car design elements was flexibility, both in the number of wells included in each car and opening up the ability to carry trailers. These two design elements (as well as others) brought about a number of single and drawbar-connected 48-foot well cars with trailer or container capability. One of the more common 48-foot “All Purpose” well cars were the Trenton Works 48-foot All-Purpose Husky-Stack<sup>®</sup> cars<sup>3</sup>. This car was able to carry domestic 48-foot container in the bottom well position or a one long trailer or two short trailers.

In the late Nineties, 48-foot container use started to decline. The rise of the new domestic size, the 53-foot container began to supplant and did replace the 48-foot containers for domestic service. Now the operators of literally thousands of 48-foot wells were suddenly faced with a redundant design. The intermodal container traffic in the 21st Century now focused on international containers or the new 53-foot containers.

And thus began the process on rebuilding and converting the multitudes of 48-foot wells into either 40- or 53-foot wells. One of car designs included in the new conversion program was the Trenton Works All-Purpose Husky-Stack<sup>®</sup>, the subject of our new model, the Atlas 40-foot Well Car.

## Notes:

<sup>1</sup> Not including the ACF built Southern Pacific cars

<sup>2</sup> International containers are generally either 40-foot or 20-foot.

# ATLAS TRACK PLANNING BOOKS

With detailed diagrams, step-by-step instructions, and myriad layout options, Atlas books guide you through every phase of layout building. Each book is aimed at specific skill levels and includes the fundamentals of foundations, track laying, wiring, scenery, as well as a convenient “Products Required” list with each layout. Atlas’ popular and interesting layouts can be viewed at [www.atlasrr.com](http://www.atlasrr.com) or [www.atlaso.com](http://www.atlaso.com)!

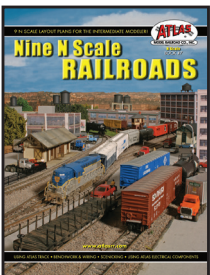

Item #6

#6 INTRODUCTION TO N SCALE MODEL RAILROADING - \$7.95

N scale fun starts here! This complete, easy to read book is ideal for beginners. It's all here – glossary, tools, benchwork, track laying, wiring, tips and more for nine basic layouts. (N1-N9)

#7 NINE N SCALE RAILROADS - \$8.95

Designed for intermediate modelers, this book details the techniques of benchwork, track laying, wiring and scenery for constructing nine engaging layouts that differ from those in book #6 in their size, detail and sophistication. (N10-N18)

Item #7

#9 ATLAS BEGINNER'S GUIDE TO HO MODEL RAILROADING - \$7.95

Here's your ticket to HO fun! Clear diagrams, comprehensive instructions, tips and a chapter on “Finishing Touches” put you on the right track to a successful layout. Blueprints for 12 basic layouts allow for future expansion with either Code 83 or Code 100 track. (HO1-HO12)

#11 HO LAYOUTS FOR EVERY SPACE - \$8.95

Packed with guidelines, shortcuts, tips and 11 layout options for either Code 83 or Code 100 track. More than 75 detailed diagrams make this edition a must for every HO modeler! A chapter on designing your own track plan is also included. (HO13-HO23)

#12 THE COMPLETE ATLAS WIRING BOOK - \$8.95

The Atlas Electrical Wiring System for all scales is made easy. Over 100 updated diagrams are complemented by a complete glossary, step-by-step instructions and advanced techniques.

#13 SEVEN STEP-BY-STEP HO RAILROADS - \$8.95

Whether beginner, intermediate, or advanced, every HO model railroader will find their ideal layout among the explicitly detailed and fully tested plans offered. Eliminate common pitfalls and learn from the many tips included to create your dream layout with Code 83 or Code 100 track. (HO24-HO30)

#14 HO KING-SIZE LAYOUT BOOK - \$13.95

For the intermediate and advanced modelers, this book contains six large layouts in an easy-to-follow scale format. Four plans fold out to become 11" x 17". Plans can be built with Code 83 or Code 100 track. (HO31-HO36)

#15 BLUEPRINTS FOR TEN HO TRUE-TRACK® LAYOUTS - \$4.95

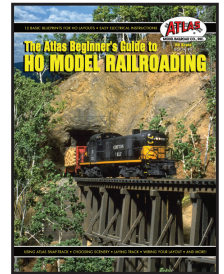

Fast and easy layouts using popular Atlas Code 83 True-Track® roadbed track. Wiring, tips, accessories and “finishing touches” are all included in this Level 1 book. (TT1-TT10)

# When Your Layout Throws You a Curve, Knock It Out of the Park With **Atlas Super-Flex® Track!**

Atlas' extensive track library means that for every need on your layout, we have a piece for it. For the spots we don't, there's **Atlas Super-Flex® Track**. This marvel of modern engineering is easy-to-use and even easier to install, all the while enhancing the realism of your layout with its fine, nickel-silver rails and detailed injection molded ties. Unlike other curveable track which can "kink" when flexed, Atlas flexible track can be formed and reformed repeatedly to get the exact shape you need without any hassle, turning the vision of your dream layout into reality.

Atlas N scale Super-Flex® Track is available in Code 80 with black ties and nickel silver rail and Code 55 with finer brown ties and nickel silver rail. Our new Z scale Code 55 Flex-Track can also be used as N scale narrow gauge track. For a copy of our latest track catalog, see your local Atlas dealer or call 908-687-0880 to request a copy.

Remember, when it comes to model railroading,
