PRE-ORDER ANNOUNCEMENTS - JUNE/JULY 2018

GUARANTEED PRE-ORDER DUE DATE: MONDAY JULY 25TH, 2018

ORDERING INFORMATION & TERMS

June/July 2018

Dear Model Railroader,

Welcome to the Atlas Summer Fun, double-month (June/July) edition of the All Scales Monthly Catalog.

All Atlas products are tooled prior to the announcement and offering of that product to the marketplace. In other words, Atlas researches and decides on a project, makes a significant commitment in product development resources and tooling dollars, and only then offers it to model railroaders.

Prior to the start of supplier production, Atlas announces to authorized dealers, distributors and e-subscribers that we are nearing final production. This notification comes in the form of Atlas' All Scales Monthly Catalog (ASMC) which focuses in on the current month's planned and specified announcements and allows consumers to place guaranteed pre-orders with their local hobby shop for those specific products by a given date. If you need assistance finding a dealer near you, don't forget our Hobby Store Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>. You can also view and reserve products via Atlas' online store shop.atlasrr.com.

Here at Atlas, we have an unwavering dedication to prototypical authenticity. Unless otherwise noted, every paint scheme that appears on a model we produce has been carefully researched and recreated to look exactly as it did on the prototype.

The ASMC is widely distributed and shared with thousands of dedicated Atlas consumer fans in accordance with their scale preference. This distribution is accomplished through targeted electronic messaging as well as via handouts at shows throughout the year. You can ensure that you receive the latest Atlas news and offers, in your preferred scale(s), delivered directly to your email inbox by visiting www.atlasrr.com and signing up for our email newsletter – the Atlas Insider.

Beat the heat this summer with Atlas! We're announcing models and accessories to keep you and your layout cool for the summer! RS-1 and Dash 8-40C/CWs are being announced in both N and HO scales. There's plenty of freight available for pre-order as well – 25,500 Gallon Tank cars and Coalveyor Bathtub Gondolas in all scales, plus 40' Stock Cars in N and O and MORE! Don't miss out on the highly anticipated return of the NEW and IMPROVED Atlas O Turntable! You'll find all of these wonderful models and more inside, as well as arriving locomotives, rolling stock and track in all scales.

Sincerely,

Joe Kolnoski
Vice President of Sales

Susquehanna

Milwaukee Road

ANALOG (DC) OPERATION :

• The LokSound Select Dual-Mode decoder allows your Atlas Gold Series locomotive to be used on DC as well as on DCC layouts. Please note that the Atlas Quantum Engineer will NOT operate an Atlas Gold Series locomotive equipped with a LokSound Select decoder on an analog (DC) layout. However, the sound and lighting functions of the LokSound Select decoder in the Atlas Gold Series RS-1 locomotive can be controlled by an easy-to-use basic DCC system. Also note that on a DC-powered layout, a DCC and sound equipped locomotive (such as the Atlas Gold Series RS-1) CANNOT be consisted with another locomotive that does not also have both DCC and sound. (This statement does NOT apply to DCC-equipped locomotives operating on a DCC layout.)

SOUND FUNCTIONALITY:

- Over 20 sound effects are available, including engine start-up and shutdown, prime mover sounds through all eight notches, bell, air horn, air compressor, dynamic brakes and more.
- There are 16 user-selectable horns, 2 user-selectable bells, and 2 user-selectable synchronized brake squeals.
- Manual and Automatic Notching modes with the ability to change modes "on the fly" are provided for true realism.

ATLAS MASTER™ SERIES SILVER ADDITIONAL FEATURES:

- NMRA 8-pin plug for DCC (Decoder-ready)

AccuMate[®] couplers are made under license from AccuRail, Inc.

ATLAS O TURNTABLE

Ordering: <https://shop.atlasrr.com/d-474-summer-2018-o-scale-pre-orders.aspx>

NEW & IMPROVED

In the steam era, many railroads used turntables to turn locomotives for their next journey. Railroads still use turntables to assist in the maintenance of diesel locos and rolling stock. Based on a Santa Fe prototype, Atlas O has realistically duplicated its above ground details, and improved features & functionality so that adding a working turntable has never been simpler. What's more, everything is included for easy tabletop installation.

FEATURES:

- New - larger and more powerful motor
- New - flat cogged anti-slip belt
- New - deck support with more roller bearings for greater support of heavier locomotives
- New - redesigned metal contacts to power the rotating track
- Drive assembly is hidden under the utility shed
- Table diameter: 24"
- Proven Geneva-gearing for positive indexing
- Can be used for both 3 rail and 2 rail operation
- Will run on AC or DC power
- Compatible with TMCC and DCS (using TMCC or DCS accessory interface)
- Molded in appropriate colors
- Complete hook-up instructions
- Easy tabletop installation
- Motor Drive included in box for smooth and easy operation

ESTIMATED ARRIVAL: 1st Quarter 2019 Arrival

ORDER IN PIECES	ITEM	ROAD NAME/ROAD NUMBER	MSRP/UNIT

ATLAS TRACK PLANNING SOFTWARE

Atlas is proud to offer track planning software, available at: <https://shop.atlasrr.com/t-software.aspx>

This software allows you to create and customize your very own layout, view it as a 3D model and then generate a shopping list to make your dream layout a reality.

DEMO VERSION: FREE • FULL VERSION WITH EXPANDED CAPABILITIES: \$32.95

FEATURES:

- Select pieces from Atlas' 9 track lines and build your dream layout with ease
- Model flex-track routes in an easy, intuitive and realistic way
- Arrange your layout on multiple levels with different heights and grades
- Easily draw figures to create train stations, houses, industries, roads and infrastructure
- Use the 3D tool to bring your layout to life
- Measure distances and track section lengths
- Export, Print or Share your layout with your friends
- View and print a list of the Atlas track pieces you need to begin building your layout
- Layout libraries will be available with future library updates
- Currently the software runs on Microsoft Windows XP/Vista/7/8/10.
