# ORDERING INFORMATION & TERMS

November 2018

Dear Model Railroader,

Welcome to the November 2018 Atlas ASMC Consumer edition of product Announcements and Arrivals.

Though we recently experienced a hiccup in our supply chain with the closing of one of our suppliers, we have been diligently working with other suppliers to restore production. The most crucial part of that process is now complete and all of Atlas' tooling has been moved from the closed supplier to Atlas' own independent warehouse. Therefore, we are able to move back to our guaranteed pre-order system for November announcements.

The core of our guaranteed pre-order system is the All Scales Monthly Catalog (ASMC). Atlas announces to authorized dealers, distributors and e-subscribers that we are nearing final production. This notification comes in the form of Atlas' All Scales Monthly Catalog (ASMC) which focuses in on the current month's planned and specified announcements and allows consumers to place guaranteed pre-orders with their local hobby shop for those specific products by a given date. If you need assistance finding a dealer near you, don't forget our Hobby Store Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>. You can also view and reserve products via Atlas' online store [shop.atlasrr.com](http://shop.atlasrr.com).

You'll also notice the enclosure of the Atlas Signal Guide. Atlas has been promoting the upcoming release of our new Universal Signal System at shows and in publications. The Atlas Universal Signal Control System features new capabilities across all scales while maintaining backward compatibility for existing users of Atlas signal products. This updated system is based around a universal control board (Atlas part number 70 000 046) suitable for use in all modeling scales (N, HO, O), and retains the same communication cabling as our existing boards – the new products can therefore be easily integrated directly into your current signaling layout without the need to upgrade or change a thing! The announcement is now official and orders can be placed with your local hobby dealer!

We hope that you and your customers enjoy the product selections on the pages within, and as always, thank you for your continued support of Atlas!

Sincerely,

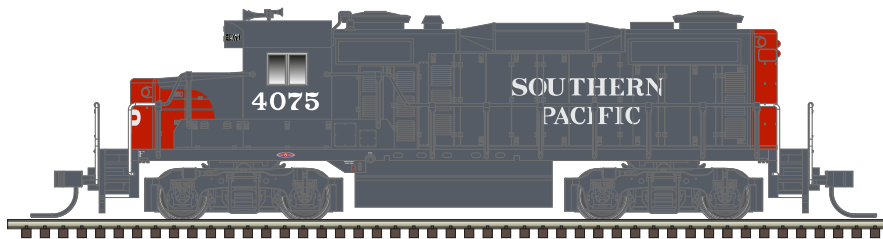

**ATLAS MASTER® N GP-20 LOCOMOTIVE**

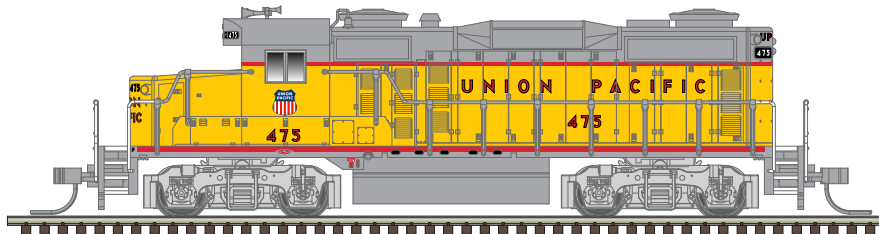

**Ordering:** <https://shop.atlasrr.com/d-508-november-2018-n-scale-asmc.aspx>

Santa Fe

Southern Pacific

Union Pacific

**FEATURES:**

- Golden-White LEDs
- Directional lighting
- Dual brass flywheels
- Low-friction mechanism
- Accurate painting and lettering
- Atlas Master® Silver version is Sound Ready and equipped with speaker for easy conversion to DCC sound
- Magnetic knuckle couplers

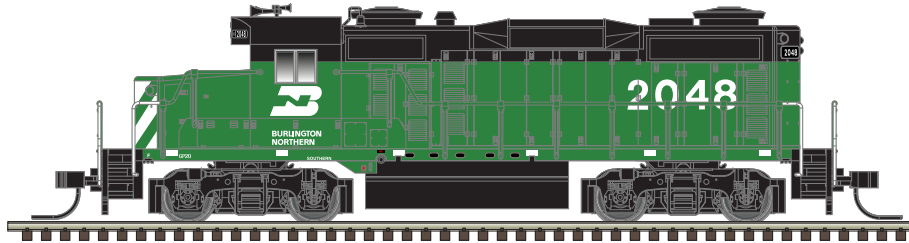

**DCC OPERATION FEATURES (GOLD LOCOMOTIVES ONLY)**

- Supports all DCC-programming modes
- DCC includes RailCom and RailComPlus, with 14, 28 or 128 speed steps and with 2-digit and 4-digit addressing.
- Flexible mapping of function keys F0 to F28.
- A total of 6 DCC function outputs are available, and all can be function mapped (disable, brightness, light effects) individually
- Follows all NMRA DCC standards and recommended practices.
