ORDERING INFORMATION & TERMS

Dear Model Railroader,

Are you thirsty for some new models? Atlas is here to wet your whistle with the Summer 2020 Atlas All Scales Beer Catalog "ASBC" Consumer edition of product Announcements and Arrivals. This catalog is a special edition of our All Scales Monthly Catalog, the core of our guaranteed pre-order system. Prior to the start of supplier production, Atlas announces to authorized dealers, distributors and e-subscribers that we are ready to take orders. This notification comes in the form of Atlas' All Scales Monthly Catalog (ASMC) which focuses in on the current month's planned and specified announcements and allows consumers to place guaranteed pre-orders with their local hobby shop for those specific products by a given date. If you need assistance finding a dealer near you, don't forget our Hobby Store Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>. You can also view and reserve products via Atlas' online store shop.atlasrr.com.

This edition of the ASMC is sure to cure your "ale-ments"! All scales will see the announcements of 40' Wood Reefers, Plug Door Box Cars and Pines Trailers, along with 3D Printed Scenic Accessories. In both HO & N scale, we're featuring a new run of Ford® LNT 9000 Tractor Cabs to haul trailers of beer to the thirsty folks on your layout! These cabs pair perfectly with the matching HO & N scale 45' Pines Trailers. A run of Beer Can Tank Cars in N scale rounds out the offerings in this special edition of the Atlas ASMC - you'll find all of those wonderful models and more inside, as well as arriving locomotives, rolling stock and track in all scales.

We hope that you enjoy the product selections on the pages within, and as always, thank you for your continued support of Atlas!

Happy Modeling,

Joe Kolnoski
Vice President of Sales

MASTER MODEL FEATURES:

- Accurate painting and printing including door hinges, ladders, grab irons and end straps
- Opening roof hatches
- Realistic handle and latch detail
- Wood grain finish detail on carbody
- Ready-to-run
- 40-ton friction bearing trucks with AccuMate® couplers

PROTOTYPE INFORMATION:

This highly detailed model is based on the 40' wood refrigerator cars built by Pullman for the Northern Refrigerator Car Co. in 1930. With its rooftop ice hatches, USRA-style fish belly underframe and vertical brake shaft, it is representative of the thousands of similar cars that were built during the "Billboard" era of American railroads.

† Blatz Reefer is representative of a prototype 40' Wood Reefer.

MASTER MODEL FEATURES:

- Prototypical painting and lettering
- AccuMate® couplers
- Roller-bearing or friction-bearing trucks where appropriate

PROTOTYPE INFORMATION:

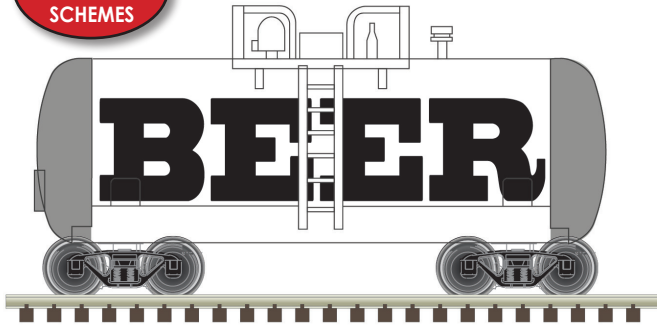

This Atlas Trainman model is based upon the typical RBL class of insulated box cars that were used to carry goods that required protection from extremes of temperature, but not refrigeration. Plug-style doors were normally used to ensure a tight seal in the insulation. Designed for transport of both perishables and large loads, plug doors allowed box cars to be sealed from outside dust and dirt. These Atlas Trainman units are painstakingly designed to provide many hours of optimum, smooth performance and hours of modeling enjoyment.

MASTER MODEL FEATURES:

- Ladder detail
- Dome detail
- Accurate painting and printing
- Ready-to-run
- Accumate Couplers

PROTOTYPE INFORMATION:

In the late 1960's, there was demand for a smaller, versatile tank car that could fit onto smaller sidings and spurs. Aptly nicknamed, "Shorty" or "Beer Can" for its diminutive size, the car is based off of an ACF® design. At the time, larger tank cars were being ordered, but there was enough demand for a smaller tank car that could meet the needs of shippers with smaller sidings and weight limits on tracks. Usually these tank cars saw service hauling corn syrup, oils, and other heavy liquids. This run of Atlas Beer Can Tank Cars give a quite literal representation with paint schemes representing actual beer brands.

CARS WILL FEATURE A "POP TOP" ON ONE END AND REPORTING MARKS ON THE OTHER, WITH COLORFUL BEER CAN LABEL ART ON THE CAR BODY

- Roller-bearing or friction-bearing trucks where appropriate

PROTOTYPE INFORMATION:

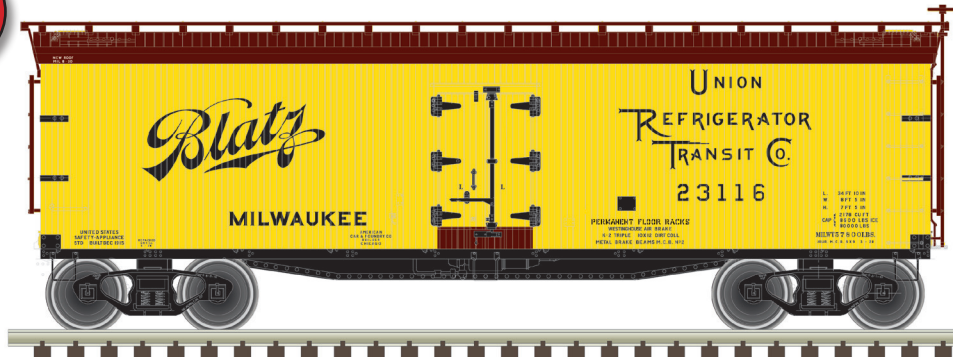

This Atlas Trainman model is based upon the typical RBL class of insulated box cars that were used to carry goods that required protection from extremes of temperature, but not refrigeration. Plug-style doors were normally used to ensure a tight seal in the insulation. Designed for transport of both perishables and large loads, plug doors allowed box cars to be sealed from outside dust and dirt. These Atlas Trainman units are painstakingly designed to provide many hours of optimum, smooth performance and hours of modeling enjoyment.

† Blatz Reefer is representative of a prototype 40' Wood Reefer.

MASTER MODEL FEATURES:

- Highly detailed ABS body
- Separately-applied ladders, grab irons and stirrups
- Die-cast metal stirrups
- Separately-applied door hinges, handles and latches
- Opening doors
- Separately-applied opening roof hatches, hinges and latches
- Die-cast underframe
- Separately applied brake system and vertical brake shaft
- Separately-applied coupler lift bars
- 40-ton Bettendorf-style, die-cast sprung trucks with metal wheels
- Die-cast articulated couplers (3-Rail)
- Minimum diameter curve: 0-31 (3-Rail)
- Minimum radius curve: 24" (2-Rail)

Two road numbers are available per road name.

PROTOTYPE INFORMATION:

This highly detailed model is based on the 40' wood refrigerator cars built by Pullman for the Northern Refrigerator Car Co. in 1930. With its rooftop ice hatches, USRA-style fish belly underframe and vertical brake shaft, it is representative of the thousands of similar cars that were built during the "Billboard" era of American railroads.

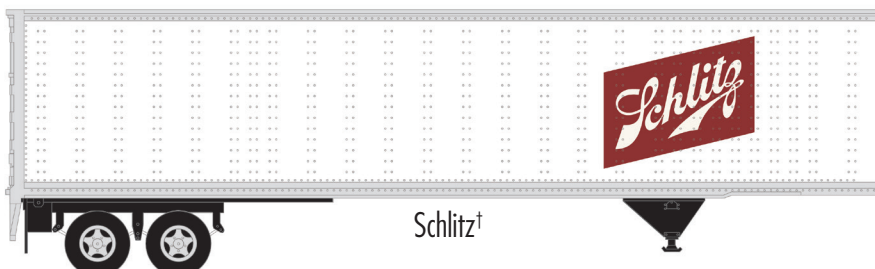

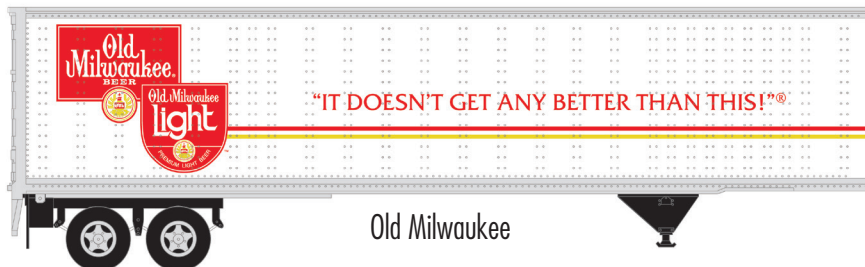

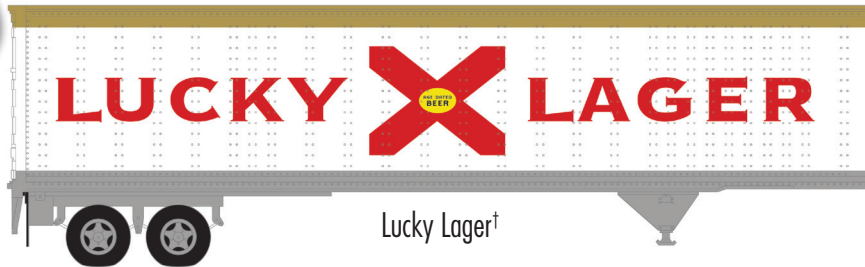

Available in 2-rail as well as 3-rail, these ready-to-run reefers have state-of-the-art detailing and construction.

TOTAL PIECES ORDERED			

MASTER MODEL FEATURES:

- True 1/4" dimensions and details
- Two sets of landing gear- fully extended or retracted
- Working doors, bars, latches
- Movable wheel assembly
- Colorful painting and lettering
- Adjustable hitch pin

PROTOTYPE INFORMATION:

In today's economy, there are strong demands to move goods faster and more efficiently. Atlas' O 45' Pines Trailer will get the job done on your railroad. Built in true scale dimensions, the model has extremely accurate painting and printing.

†Pabst Blue Ribbon, Lucky Lager & Schlitz are representative of prototype Pines Trailers. The Old Style paint scheme is similar to a prototype with minor changes. Stroh's is correct for trailers of a similar prototype.
