***You're on the Right Track...With Atlas®!***

September 2020

Dear Atlas Distributors, Dealers and Consumers,

We hope you and your families are feeling well and staying active despite these challenging times. Atlas customer service, research and development, sales and order processing remain open during this time through remote work at home solutions. In addition, warehouse staff, practicing intermittent scheduling and social distancing, continue to fill orders. We appreciate your patience over the past several months as we have worked to answer all your inquiries and fill your orders.

We are happy to present Volume 2 of the Atlas Model Railroad Company 'Rock'n and Stock'n In-House Inventory. This catalog is a follow up to the popular Volume 1 'Rock'n and Stock'n In-House Inventory that was circulated in the Spring and represents all currently available Atlas locomotives, rolling stock, track, structures and accessories that Atlas has in-stock as of mid-September. It is presented to inform you, our loyal customers, of products that Atlas is offering for purchase now.

This publication is being sent to Atlas Authorized Distributors and Dealers and Consumers as a digital PDF version that allows recipients to click through and review products on-line by scale and category preference from the table of contents page. Please refer to the hyperlinks located on the table of contents page in the PDF. You can also use the 'Search' function on the Atlas website to locate an item and determine updated availability. Simply type in the complete item number or keyword description, press enter and relevant results will display in a list.

Atlas remains committed to serving the model railroad public in any way we can, especially during this difficult time. Please let us know how we may be of service to you.

Stay well and enjoy the hobby of model railroading.

Sincerely,  
Joe Kolnoski  
Vice President, Sales
