## PRE-ORDER ANNOUNCEMENTS - WINTER 2022

**GUARANTEED PRE-ORDER DUE DATE: WEDNESDAY MARCH 9<sup>TH</sup> 2022**

January 2022

Dear Fellow Model Railroader,

Happy New Year & welcome to the Winter 2022 edition of the Atlas HO & N Scale Monthly Catalog (ASMC). The ASMC is the basis of the distinctive Guaranteed Pre-order system. Before the Research & Development department gives the final go ahead for production, Atlas announces to its customers the products we are preparing to make. This announcement comes in the form of the ASMC that provides our customers with the opportunity to arrange a guaranteed pre-order if placed by the given deadline. If possible, Atlas will try to fill orders placed after the given "due date", but these can not be guaranteed.

The Winter 2022 HO & N Scale ASMC includes announcements of the N scale Master line GP-7/9 and Trainmaster locomotives, along with 60' Passenger Cars designed in schemes to match the GP-7/9s. In HO, a new run of GP-38s will be produced along with HO Trainmasters. There are plenty of boxcars and hoppers being offered to haul and shunt all the freight your layout can handle. Among the rolling stock announcements are the N & HO Master 25,500 Gallon Tank Cars and Pressureaide Hoppers, newly tooled N Scale 3230 Hoppers and the HO Master Plus 5250 Hoppers. Operation Lifesaver fans will be thrilled to see the Atlas exclusive 50th Anniversary C&O Cabooses to match the previously announced Atlas exclusive Operation Lifesaver 50th Anniversary locomotives. If your layout is in need of some light, we have you covered with brand new streetlights in both HO & N scales. These new, easy-to-use streetlights are sold in economical 3-packs for your convenience! All these items can be found on our website, [shop.atlasrr.com](http://shop.atlasrr.com).

While on the website, make sure to check out the 'New Arrivals' pages to see what has recently hit Atlas Dealers' shelves or the 'In-Stock' pages to see what is still available in the Atlas Warehouse. We have plenty of exciting arrivals headed to retailers this season - just what you need to keep you busy during the winter months!

Need to do some track work? The 148-page Atlas All Scales Track & Accessories Catalog is just the resource you need! We also offer a full line of instructional guides if you're looking to start fresh with a brand new layout! For more information and a complete listing of our books, check out our website or inquire at your local hobby shop. For assistance finding an Atlas Authorized Dealer near you, check out our Dealer locator at <https://shop.atlasrr.com/storelocator.aspx>.

Thank you for your interest and enthusiasm in the exceptional multi-scale product offerings created by Atlas Model Railroad Company,

Drew Postle,  
Atlas Sales Manager

### \*CSX Licensed Product

Introduced in 1949, the Electro-Motive 1500hp GP-7 combined the machinery of the F7 with a hood-type carbody that offered high visibility and easy engine access. The GP-7 was used in pulling every conceivable type of train and was sometimes substituted for part of a set of cab units. The GP-9 utilized a 1750hp engine and was visually similar to the GP-7.

### Features:

- Powered low friction drive
- Blackened metal wheels
- Dual brass flywheels
- Directional lighting
- Golden-white LEDs
- AccuMate® couplers

AccuMate® couplers are made under license from AccuRail, Inc.

### Atlas Master™ Series Silver Additional Features:

- Atlas Silver Sound Ready models are equipped with a speaker for easy conversion to sound with the addition of a decoder.

Wired speaker and enclosure included for easy conversion to sound.

Advertised by Fairbanks-Morse as "the most useful locomotive ever built", the H24-66 Train Master was first introduced in 1953. Designed as a versatile locomotive with various equipment options available, it was found in both passenger and freight service across the US. It was the most powerful single-engine locomotive in production at the time, generating a total of 2,400 hp.

### Features:

- Ends with large number boards and a single headlight
  - Golden-white LED's
  - Directional lighting
  - Painted safety rails
  - Etched metal grilles
  - Blackened metal wheels
  - Factory-installed AccuMate® magnetic knuckle couplers
- AccuMate® couplers are made under license from AccuRail, Inc.

### Atlas Master™ Series Silver Additional Features:

- Atlas Silver Sound Ready models are equipped with a speaker for easy conversion to sound with the addition of a decoder.

The Trinity 3230 Pressure Differential (PD) covered hopper is essentially a smaller version of TrinityRail's 5660 PD. The smaller version was developed from the base design introduced by Thrall Car in the late 1990s.

The smaller size enables the cars to be loaded with heavier ladings such as cement and various grades of fly ash. Most of the cars are operated by Railcar (Leasing) companies or Shippers.

### Features:

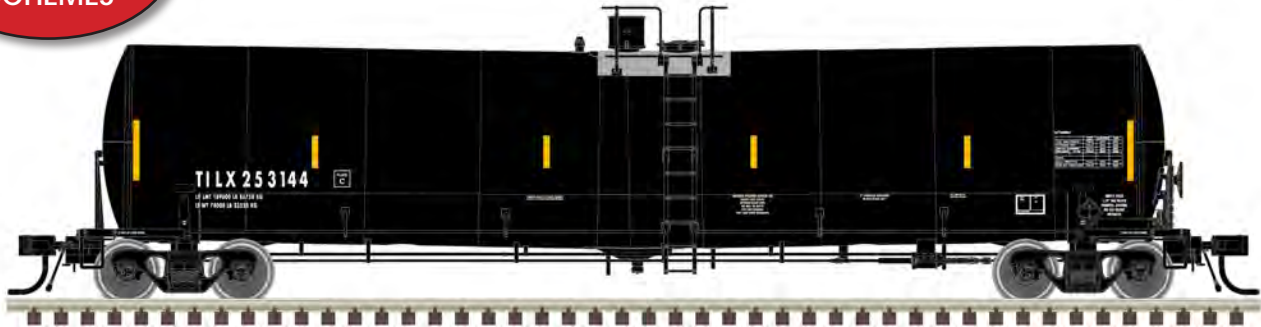

- All new tooling
- Ready to run
- Injection molded plastic
- Fine scale detail
- Etched metal roofwalks
- Crisp painting and printing
- Magnetic couplers
- Metal wheelsets

The Atlas 40' Double Door Box Car was created to represent the generic 40' foot double door design that was inspired by the 1937 AAR box car. In addition a number of railroads constructing their own versions, car manufacturers such as American Car & Foundry, Pullman Standard and Magor Car also contributed to the design. The 40' Double Door box car was primarily designed to haul automobiles and were often specially equipped with loading racks to pack as many vehicles as possible within the space allowed.

Features:

**Operation Lifesaver 50<sup>th</sup> Anniversary Limited Edition Caboose**  
**A great match for our previously announced Operation Lifesaver locomotive!**

This model is a collaboration between Atlas and Operation Lifesaver, Inc., in celebration of Operation Lifesaver's 50th Anniversary in 2022. A portion of the proceeds from the sale of this caboose will be donated to Operation Lifesaver to assist their continued efforts to provide crucial rail safety education.

Features:

- Crisply molded body detail
- Weighted, detailed underframe
- Equipped with AccuMate® knuckle couplers
- Window glazing

AccuMate® couplers are made under license from AccuRail, Inc.

**OPERATION LIFESAVER IS A MISSION DRIVEN RAIL SAFETY EDUCATION NON-PROFIT POWERED BY DEDICATED PEOPLE.  
 OUR GOAL IS TO END COLLISIONS, DEATHS AND INJURIES ON AND AROUND RAILROAD TRACKS AND TRAINS.**

Operation Lifesaver, Inc. (OLI) is a non-profit organization and nationally-recognized leader of rail safety education. Since 1972, Operation Lifesaver remains dedicated to preventing collisions, injuries and fatalities on and around railroad tracks and highway-rail grade crossings, with the support of public education programs in states across the U.S. including:

- Free in-person and virtual safety presentations across the U.S.
- Free in-person and virtual programs for professional drivers, first responders and school bus drivers.

Visit [oli.org](http://oli.org) to schedule a presentation, find safety materials, become a volunteer and share public awareness campaigns, videos and more.

**ATLAS N TRACKSIDE LIGHTING ACCESSORIES**

**Product Info:** <https://shop.atlasrr.com/d-670-winter-2022-n-scale-preorders.aspx>

Commonly used on both residential main roads and highways, Atlas' new streetlights provide a timeless design suitable for use from the 1960's through today. With a choice of LED providing a warm glow seen with incandescent bulbs, or a more modern cool white "daylight" bulb, these lights can be used in various eras, and include appropriate resistors for use with a range of input voltage (commonly between 6-18 Volts DC).

**Features:**

- Classic "whip" design for streetlights – single and dual arm versions for single lane or multiple lane roads
- Parking Lot design perfect for industrial area lighting
- Choice of warm or cool white LED for era-appropriate illumination
- All necessary resistors included for installation
- Choice of mast colors (gray or silver)

**ESTIMATED ARRIVAL: 4th Quarter 2022 Arrival**

 WITH DITCH LIGHTS!

The GP-38 was EMD's lower horsepower, non-turbocharged counterpart to the GP-40. The four-axle GP38 was rated at 2,000 hp and had the advantage of costing less than the GP40. A total of 727 units were produced between 1966 and 1971 when the model was superseded. The wheelbase of the GP38 was identical to that of the GP40. Both units shared the same EMD road-switcher style body that was introduced with the GP35 in 1963. A desire for standardization caused the GP38 to share the same wheelbase, frame and many external components as the GP40. The GP38 was purchased by large and small roads alike. It was routinely found in local and road freight service throughout the US. Many GP38s and 40s are still in service today.

**Features:**

- Golden-white LEDs
- Realistic die-cast underframe
- Five-pole skewed armature motor with dual flywheels for optimum performance at all speeds
- Directional lighting
- Factory-equipped with AccuMate® knuckle couplers
- Detailed cab interior with crew
- Separately-installed scale windshield wipers, metal grab irons and fine scale handrails
- Movable drop steps
- Walkway safety tread
- Coupler cut bars
- Multiple unit hoses and trainline hoses
- Snowplow

AccuMate® couplers are made under license from AccuRail, Inc.

**Atlas Master™ Series Silver Additional Features:**

- NMRA 21-pin plug for DCC (Decoder-ready)

**Sound Features for Gold Series :**

**(DCC Operation)**

- Supports all DCC-programming modes
- Flexible mapping of function keys F0 to F31 .
- Follows all NMRA DCC standards and recommended practices.

**Sound Functionality Features:**

- Over 20 sound effects are available, including engine start-up and shutdown, prime mover sounds through all eight notches, bell, air horn, air compressor, dynamic brakes and more.
- There are 16 user-selectable horns, 2 user-selectable bells, and 2 user-selectable synchronized brake squeals.
- Manual and Automatic Notching modes with the ability to change modes "on the fly" are provided for true realism.

Advertised by Fairbanks-Morse as "the most useful locomotive ever built", the H24-66 Train Master was first introduced in 1953. Designed as a versatile locomotive with various equipment options available, it was found in both passenger and freight service across the US. It was the most powerful single-engine locomotive in production at the time, generating a total of 2,400 hp.

### Features:

- Separately-applied door handles
- Real metal springs on trucks
- Realistic die-cast underframe
- Five-pole skewed armature motor with dual-flywheels for optimum performance at all speeds
- Directional lighting
- Factory-equipped with AccuMate® couplers
- Painted crew figures
- Separately-installed fine scale handrails
- Etched metal radiator grilles
- Electronic Dual-Mode Decoder (e-DMD) (Gold Series only) that allows your locomotive to run in DCC or DC
- NMRA 8-pin plug for DCC (Silver Series only)
- Railroad specific details (Lighted classification lights on some models)

Atlas Model Railroad Co., Inc. • 378 Florence Ave., Hillside, NJ 07205 • USA • ph: 908-687-0880 • fax: 908-687-8857/908-851-2550 • [shop.atlasrr.com](https://shop.atlasrr.com)

Pullman (UP)

The 10 section - 1 drawing room - 1 compartment design of plans 3973 and 3973a were among Pullman's many popular sleeping car configurations. Over 117 of these cars were built for various railroads, carrying some of the most colorful Pullman names, often named for various Indian chiefs. After Pullman disbanded in the late 1940s, many of these sleepers were sold to various railroads nationwide, where they continued in service into the 1960s. These models feature full, separately-applied underbody details and accurate paint, lettering and names.

**Features:**

- Full interior detailing
  - Scale operating diaphragms
  - Full, separately-applied underbody detail (brake piping, steam traps, brake rigging, etc.)
  - Scale window glass
  - Detailed trucks with free-rolling metal wheels
  - Recommend 24" Radius Minimum
  - AccuMate® couplers
- AccuMate® couplers are made under license from AccuRail, Inc.

<b>TOTAL PIECES ORDERED</b>				

ACF introduced the 5250 cubic foot size covered hopper in 1964, and has since built nearly 20,000 cars. Most of the cars were equipped with pneumatic outlets and eight 20" round hatches for use in transporting plastic pellets. In addition to the plastics cars, a number have been built or converted with gravity outlets and elongated hatches for grain type products. As with most things with long production spans, the design has evolved with changes in the physical features of the body and fixtures. The Atlas model features three unique body style variations to represent those changes from the 1960s into the 21st Century.

**Features:**

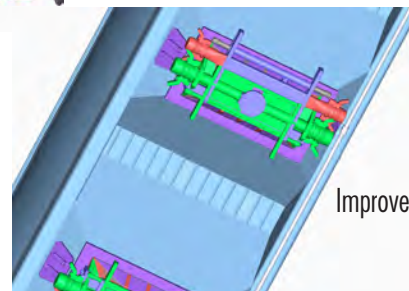

- Updated tooling (see drawings at right)
- Ready to run
- Injection molded plastic
- Fine scale detail
- Etched metal roof walk
- Metal knuckle couplers
- Road specific hatch and outlet configurations
- Road specific roof walk variations
- Three body style variations
- Separately applied wire grab irons and wire brake lines
- Crisp painting/printing
- Free-rolling 100-ton trucks

Revised end cage

New draft gear

Improved underbody detail

This familiar hopper was an industry standard on many railroads since the 1930's. It was adopted by the AAR as a recommended design, but fell out of favor by the mid-1950s. While offering greater capacity over cars with conventional flat sides, the original open hoppers created corrosive interaction between acidic coal and the car's joints, leading to costly rebuilding programs.

**Features:**

- True scale dimensions with accurate details
- Weighted, detailed underframes
- Equipped with AccuMate® Knuckle Couplers
- Trucks equipped with free-rolling metal wheels
- Accurate painting and lettering
- Removable coal load

AccuMate® couplers are made under license from AccuRail, Inc.

**Operation Lifesaver 50<sup>th</sup> Anniversary Limited Edition Caboose**  
**A great match for our previously announced Operation Lifesaver locomotive!**

This model is a collaboration between Atlas and Operation Lifesaver, Inc., in celebration of Operation Lifesaver's 50th Anniversary in 2022. A portion of the proceeds from the sale of this caboose will be donated to Operation Lifesaver to assist their continued efforts to provide crucial rail safety education.

Features:

- Crisply molded body detail
- Weighted, detailed underframe
- Equipped with AccuMate® knuckle couplers
- Window glazing

AccuMate® couplers are made under license from AccuRail, Inc.

**OPERATION LIFESAVER IS A MISSION DRIVEN RAIL SAFETY EDUCATION NON-PROFIT POWERED BY DEDICATED PEOPLE.  
 OUR GOAL IS TO END COLLISIONS, DEATHS AND INJURIES ON AND AROUND RAILROAD TRACKS AND TRAINS.**

Operation Lifesaver, Inc. (OLI) is a non-profit organization and nationally-recognized leader of rail safety education. Since 1972, Operation Lifesaver remains dedicated to preventing collisions, injuries and fatalities on and around railroad tracks and highway-rail grade crossings, with the support of public education programs in states across the U.S. including:

- Free in-person and virtual safety presentations across the U.S.
- Free in-person and virtual programs for professional drivers, first responders and school bus drivers.

Visit [oli.org](http://oli.org) to schedule a presentation, find safety materials, become a volunteer and share public awareness campaigns, videos and more.

**ATLAS HO TRACKSIDE LIGHTING ACCESSORIES**

**Product Info:** <https://shop.atlasrr.com/d-670-winter-2022-n-scale-preorders.aspx>

Commonly used on both residential main roads and highways, Atlas' new streetlights provide a timeless design suitable for use from the 1960's through today. With a choice of LED providing a warm glow seen with incandescent bulbs, or a more modern cool white "daylight" bulb, these lights can be used in various eras, and include appropriate resistors for use with a range of input voltage (commonly between 6-18 Volts DC).

**Features:**

- Classic "whip" design for streetlights – single and dual arm versions for single lane or multiple lane roads
- Parking Lot design perfect for industrial area lighting
- Choice of warm or cool white LED for era-appropriate illumination
- All necessary resistors included for installation
- Choice of mast colors (gray or silver)

**ESTIMATED ARRIVAL: 4th Quarter 2022 Arrival**
