## PRE-ORDER ANNOUNCEMENTS - JUNE 2023

**GUARANTEED PRE-ORDER DUE DATE: WEDNESDAY AUGUST 2<sup>ND</sup> 2023**

June 2023

Dear Model Railroader,

Happy Summer & Welcome to the June 2023 Atlas HO, N & O Scale Catalog. The ASMC is the basis of the distinctive Atlas Guaranteed Pre-Order system. Before the Research & Development department gives the final go ahead for production, Atlas announces to its customers the products we are preparing to make. This announcement comes in the form of the ASMC that provides our customers with the opportunity to arrange a guaranteed pre-order if placed by the given deadline. If possible, Atlas will try to fill orders placed after the given "due date", but these can not be guaranteed.

The the June 2023 Atlas HO, N & O Scale Catalog includes announcements of officially licensed models representing Ford® and various beer brands. Offerings in all scales will include 40' Plug Door Box Cars, while N & HO scales will see announcements of BX-177 Box Cars and Ford® Fairmont Wagons. Rounding out the announcements are N scale Flat Cars and Trailers and HO scale Ford® pickup trucks. In addition to these new announcements, Atlas also has the perfect accessories to add life to your layout. Take a closer look on pages 22-23 or on our website, [shop.atlasrr.com](http://shop.atlasrr.com)

While on the website, make sure to check out the 'New Arrivals' pages to see what has recently hit Atlas Dealers' shelves or the 'In-Stock' pages to see what is still available in the Atlas Warehouse. We have plenty of exciting product arrivals headed to your dealer now-just what you need to keep you and your layout cool all summer long!

Need to do some track work? The 148-page Atlas All Scales Track & Accessories Catalog is just the resource you need! We also offer a full line of instructional guides if you're looking to start fresh with a brand new layout! For more information and a complete listing of our books, check out our website or inquire at your local hobby shop. For assistance finding an Atlas Authorized Dealer near you, check out our Dealer locator at <https://shop.atlasrr.com/storelocator.aspx>.

Don't miss out on all of the latest Atlas news, announcements, special offers and more. You can ensure that you receive the latest Atlas news delivered to your inbox by visiting [shop.atlasrr.com](http://shop.atlasrr.com) and signing up for our email newsletter – *the Atlas Insider*.

Thank you for your interest and enthusiasm in the exceptional multi-scale product offerings created by Atlas Model Railroad Company.

Happy Modeling,

Drew Postle, Atlas Sales Manager

This Atlas Trainman model is based upon the typical RBL class of insulated box cars that were used to carry goods that required protection from extremes of temperature, but not refrigeration. Plug-style doors were normally used to ensure a tight seal in the insulation. Designed for transport of both perishables and large loads, plug doors allowed box cars to be sealed from outside dust and dirt. These Atlas Trainman units are painstakingly designed to provide many hours of optimum, smooth performance and hours of modeling enjoyment.

**Features:**

- Decorated with colorful fantasy paint schemes
- AccuMate® couplers
- Roller-bearing or friction-bearing trucks where appropriate
- And more!

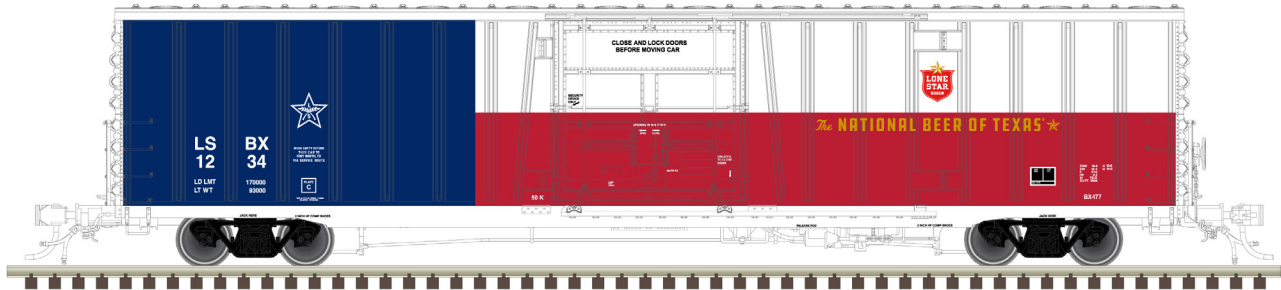

AccuMate® couplers are made under license from AccuRail, Inc.

<b>TOTAL PIECES ORDERED</b>					

Custom-built by ATSF in 1975, a total of 500 BX-177 boxcars were built at Santa Fe's car shops in Topeka, KS. Measuring 61'6" in length (66' 1/2" over the strikers), this icon of beer transportation has proven invaluable to the Santa Fe and then the BNSF. With over 40 years in service and a dozen plus paint schemes between Santa Fe and BNSF, these boxcars are still serving major breweries with pride.

A few notes about the prototype:

- ATSF 621600-622099 (Qty. 500)
- Built at Topeka shops July-Nov. 1975
- ATSF "Super Shock Contol" underframe with Keystone 20" travel Center-of-Car cushion device
- Youngstown (YSD) steel car sides and plug door with 10'-6" opening
- Stanray (SRE) Improved Dreadnaught ends and welded X-panel roof
- Originally equipped with Equipco "ACB" (air cushion) movable bulkheads
- Final (last) insulated cars built by ATSF
- In-service 40+ years

The model is designed based on BX-177 construction drawings from ATSF, YSD and SRE.

Features:

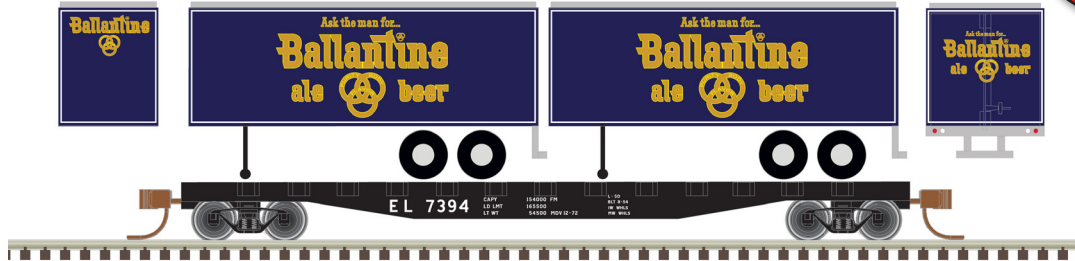

- Decorated with colorful fantasy paint schemes
- Ready to run
- Ultra-fine detail
- Prototypical ride height
- 100-ton Trucks
- 36" metal wheels
- Separately applied cut levers
- Trainline air hoses
- Etched metal cross over platforms

AccuMate® couplers are made under license from AccuRail, Inc.

Starting as far back as the late 1920's railroads began to "piggyback" over-the-road truck trailers on general service flatcars for customers. General Service flatcars were equipped with a combination of rub rails, jack connections, integral or detachable bridge plates, and "5th wheel" mounts, and could carry either pairs of short trailers or a single 40' trailer. The Atlas 50' Flatcar with Trailers is typical of the general service flatcar conversions that ran from the 1940s through the 1970s.

These 1978 model year Fairmonts are the perfect addition for any layout depicting the late 70s onward. Coming in a range of prototypical colors, these vehicles will look right at home parked in front of our garage kits, out on the streets of your layout, or, for layouts based in late 1977 or 1978, as loads on open auto racks.

These models are officially licensed by the Ford Motor Company®.

Features:

- Sold in matching sets of 2
- Side view mirrors
- Head and tail light glazing
- Interior detail
- Simulated rubber tires
- Undercarriage detail
- Exterior paints and interior colors match Ford® Fairmont offerings for 1978 models.

The New Atlas HO Super Duty F Series pickup trucks reflect the design styling and options available in the second generation (2008-2010) of these popular trucks. Along with the variety of configuration options available in the prior generation F-250 and F-350, Ford introduced the F-450 with a regular production pickup bed for the first time as a base crew cab with dual rear wheels powered by a Power Stroke 350 HP V8 diesel engine. These three classes of pickups were offered in several trim levels and were found in all types of service from basic family transport to contractor work trucks and police and fire duty.

This run of the Super Duty trucks illustrates some of the variety of uses of the basic F-350 Single Rear Wheel Crew Cab options, including open beds, camper caps and utility caps along with Police and Fire department designs.

**Features:**

- Officially Licensed
- Prototypical Trim Packages (XL, XLT, 4x4)
- Accurate design and detailing
- Optional lightbars, caps, etc.

These 1978 model year Fairmonts are the perfect addition for any layout depicting the late 70s onward. Coming in a range of prototypical colors, these vehicles will look right at home parked in front of our garage kits, out on the streets of your layout, or, for layouts based in late 1977 or 1978, as loads on open auto racks.

These models are officially licensed by the Ford Motor Company®.

**Features:**

- Side view mirrors
- Head and tail light glazing
- Interior detail
- Simulated rubber tires
- Undercarriage detail
- Exterior paints and interior colors match Ford® Fairmont offerings for 1978 models.

This Atlas O Trainman® model is based upon the typical RBL class of insulated box cars that were used to carry canned goods that required protection from extremes of temperature, but not refrigeration. These cars had neither ice bunkers nor cooling units.

Plug-style doors were normally used to ensure a tight seal in the insulation. Designed for transport of both perishables and large loads, plug doors allowed box cars to be sealed from outside dust and dirt. These Atlas O Trainman® units are painstakingly designed to provide many hours of optimum, smooth performance and hours of modeling enjoyment.

Features:

- Decorated with colorful fantasy paint schemes
- Separately applied roof walks, ladder, brake wheel & brake lines
- See-through roof walks
- Metal couplers and sprung die-cast trucks
- True scale dimensions with accurate details
- Weighted, detailed underframes
- 2-rail cars feature scale wheels and body mounted scale couplers
- Minimum diameter curve: 0-31 (3-Rail)
- Minimum radius curve: 24" (2-Rail)
