June 2024

Dear Atlas Model Railroader,

Welcome to the Digital Edition of the Atlas 100th Anniversary Product Arrivals Guide for the first half of 2024. This Guide serves as a comprehensive listing and digital ordering tool to determine product availability of all the latest Atlas N, HO, and O scale locomotives and rolling stock that have arrived, or scheduled to arrive, at Atlas Authorized Dealers and Distributors in the months of January through June 2024. With your support, the Atlas 100th Anniversary year has so far proven to be our busiest and most popular product arrival program in decades. The depth and breadth of Atlas arriving products alone is reason enough to supply Atlas model railroad fans with a useful guide to stay up to date in all we have to offer during this noteworthy centennial.

Among these arrivals in HO are the brand-new Master U30C Phase 1's, HO MP-36s along with classics like the Train Masters, RS-1s, 17,600 Gallon Tank Cars, and Trainman 4750 Covered Hoppers. In N scale you will find the Trainman GP-15s, Master GP-40s, SD-50/60M/60Es, GP-7/9s that included factory installed sound for the first time, and many other great N Scale locomotives and rolling stock models. In O Scale, we see the return of the Master F7s and for the first time under the Atlas banner we see Premier items such as the ES44s, SD70Aces, Coalporters and Streamlined Passenger cars. Popular Atlas Master Line Rolling Stock also made a return including the Maxi IVs and the Horizon/Comet Passenger Cars. The Locomotive and Rolling Stock list wraps up with Atlas' first every Z Scale model, the 53' Evans Double Plug Door Box Car. Atlas has a historical and unwavering dedication to prototypical accuracy. Unless otherwise noted, every paint scheme that appears on a model we produce has been carefully researched and recreated to look exactly as it did on the prototype.

If you wish to contact an Atlas Authorized Dealer near you to inquire about the products listed in this Guide, [Click Here](#). The Atlas Online Store, [shop.atlasrr.com](http://shop.atlasrr.com) makes it easy for you to view products and accurately identify the inventory status of each Atlas product in all four available model railroad scales - N, HO, O and now Z. The Stock Status indicator reflects the product status of a listed item at any given time - in-stock, pre-order, backorder, or sold out.

Need to do some track work? Atlas currently has in-stock everything you need to get your projects underway! We also offer a full line of instructional guides if you're looking to start fresh with a brand new layout! For more information and a complete listing of our books, check out our website or inquire at your local hobby shop.

If you haven't already, please sign up for our email newsletter, the Atlas Insider, by visiting <https://shop.atlasrr.com/t-emailsignup.aspx>. Doing so will assure that you will never miss out on special offers, news, and Catalogs featuring arrivals, announcements, and more!

Happy Modeling,

Drew Postle  
Atlas Sales Manager

Products bearing American Refrigerator Transit; Chicago & Eastern Illinois (C&EI); Chicago and North Western Railway Company (CNW); The Denver & Rio Grande Western Railroad Company (D&RGW); Katy; Missouri-Kansas-Texas Railroad Company (MKT); Missouri Pacific (MP); Pacific Fruit Express (PFE); Southern Pacific (SP); St. Louis Southwestern Railway Company (SSW); Cotton Belt; Texas & Pacific (T&P); Union Pacific (UP); Union Pacific Fruit Express (UPFE); Western Pacific (WP) marks are made under trademark license from Union Pacific Railroad Company.

# TABLE OF CONTENTS

The following Table of Contents provides the Product Arrivals Guide page number where the product item #, description, MSRP and hobby store arrival date is found. In addition, the individual Table of Contents product categories are all digitally linked to the specific product's shop.atlasrr.com ordering page to provide current availability information, as well as to allow ordering direct from the website.

# Need a New Layout for All the Latest Arrivals?

## No Matter the Scale or Size Atlas Has the Layout For You!

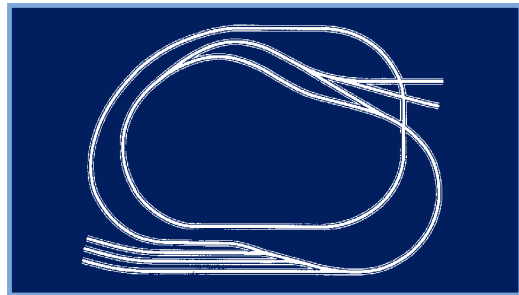

### N TRUE-TRACK: NTT-6 PORT READING TERMINAL

**From web site:** [www.atlasrr.com](http://www.atlasrr.com) **Minimum Table Size Required:** 3' x 6'

**Products Required:** Straight sections, radius sections, turnouts, a crossing, bumpers, insulated joiners, terminal joiners and a selector

The Port Reading Terminal is a figure eight in disguise. This 66" X 32" layout incl. a mainline run as well as a small yard and three industrial sidings with room to expand. This layout is designed with two operators in mind. One can be switching the yard located at the front of the layout while the other can run mainline freights, allowing for continuous mainline running with no waiting.

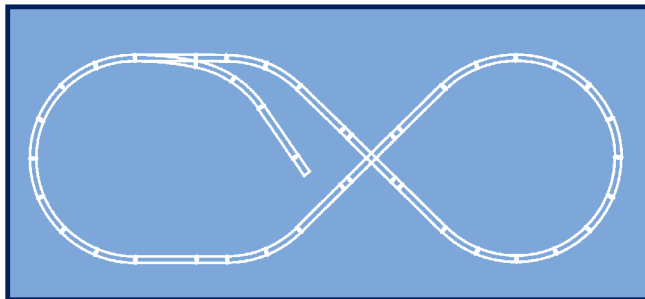

### N CODE 80: N-7 TWICE AROUND VIA "UP & OVER"

**From Book #6:** *Introduction to N Scale Model Railroad*

**Minimum Table Size Required:** 32" x 45"

**Products Required:** Straight sections, radius sections, turnouts, a crossing, bumpers, insulated joiners and terminal joiners, necessary electrical components

If you enjoy watching a long train work its way up and down the grades of a long winding main line, the N7 is the layout for you. On this layout, yard tracks are available for breaking up and storing long trains, and a passing track with two industry spurs is available to provide additional operating diversions.

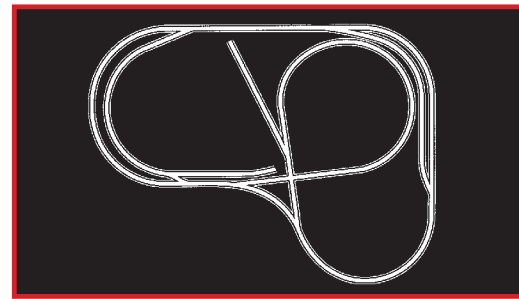

### N SCALE CODE 55: N-504 PLATTSBURG PRETZEL

**From web site:** [www.atlasrr.com](http://www.atlasrr.com) **Minimum Table Size Required:** 2' x 5'

**Products Required:** Straight & radius sections, turnouts, a crossing, terminal joiners, bumper and a selector

Take an ordinary oval track, twist one end and you have one of the most popular track plan elements: the Figure 8. The Plattsburg Pretzel is a Figure 8, keeping operation interesting by making the train appear to reverse its direction as it proceeds. This layout also adds interest by adding a spur for more train enjoyment.

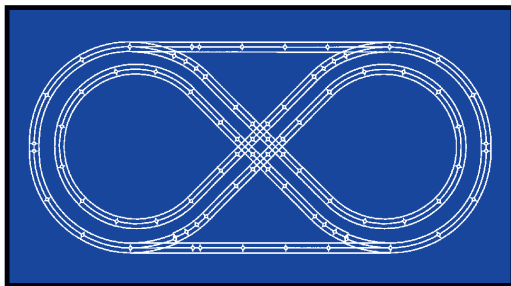

### HO CODE 83/100: HO-7 THE JUNIOR PRETZEL

**From Book #9:** *Beginner's Guide to HO Model Railroad*

**Minimum Table Size Required:** 6' x 8'

**Products Required:** Straight sections, radius sections, Snap-Switches, rerailers, terminal sections, a crossing, bumpers, rail joiners and the necessary electrical components

Since it is built on an extended platform, there are many possibilities with the HO-7; such as longer runs, longer trains and more realistic operations.

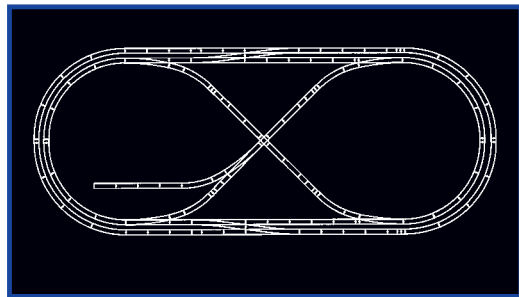

### O 3-RAIL: O-22 JANESVILLE JUNCTION

**From Book:** *Atlas O 3-Rail Layout Book*

**Minimum Table Size Required:** 5' x 10'

**Products Required:** 68 pieces of sectional track, 4 remote switches, 4 crossings, and the necessary electrical components, rail joiners, track screws and layout wire.

This layout connects two figure eights with a quadruple crossing so trains can travel in multiple directions. A simple, yet interesting layout, this track plan is great for the modeler who loves to see trains run.

### O 2-RAIL: O-203 RARITAN & SOUTH SHORE

**Minimum Table Size Required:** 8' x 18'

**Products Required:** 112 pieces of sectional track, 9 turnouts, 1 crossing and the necessary electrical components, rail joiners and layout wire.

The Raritan & South Shore expands Layout O-202 to two ovals with a fully-interconnected figure eight. Trains can travel anywhere on the layout and Atlas O electrical components make wiring this layout a cinch!
