BACHMANN . . . Quality Since 1833

BACHMANN, of Philadelphia, originated in 1833, began as a manufacturer of products made of ivory horn, and tortoise-shell. The major portion of this business was the manufacture of high-back, Spanish type combs for the aristocracy of the south.

After the Civil War other types of hair ornaments and walking cane handles were made.

In 1902 BACHMANN began to make ladies side combs from celluloid, which was the first known plastic material.

The year 1912 saw the introduction of the first BACHMANN optical frames made of celluloid and referred to as "tylonite." In 1929 the optical sunglass line called "Solares" was born.

1950 saw BACHMANN's introduction into the hobby field with their world famous "plasticville" scale building line for model rail-roading. Since that time the BACHMANN hobby line has grown to include N and HO scale electric trains, buildings and accessories; HO scale electric roadracing, miniature hand painted and decorated mini-planes; nature craft paint-by-number kits of birds, dogs and animals. Recently a complete hobby kit line of scale planes, tanks, helicopters and ships were added.

BACHMANN is also proud of their growth in the sport goggle field carrying the world's most complete sport goggle line for hunting, skiing, fishing, cycling, boating and target shooting.

Products of BACHMANN . . .

HOBBY PRODUCTS: HO scale electric trains, HO scale buildings and accessories, N scale electric trains, N scale buildings and accessories, O scale buildings and accessories, HO scale electric roadracing, Mini-Planes, Nature Craft Kits, complete hobby kit line.

SUNGLASSES: a wide variety of sunglasses for men, women and children . . . including polarized lenses, impact resistant lenses, mirror lenses, clips, slips and tips . . . all with attractive styling.

SPORT GOGGLES: Stein Eriksson ski goggles, Winchester shooting glasses, polarized fishing glasses and molded cycle goggles.

SAFETY GLASSES: a complete line of safety approved visitor specs and safety glasses.
