

Bachmann... the profit line for '79

We all know the name of the game is profit. And this year we have structured our entire line and our pricing policies to insure you a top return from your train department. We've done this in many ways.

First of all, 1978 sales (and repeat sales) proved our new packaging was a winner with the consumer. Moving the goods off the shelf is what it's all about and Bachmann's award-winning packaging has proved it can do just that.

Our highly profitable Operating Accessories line has also proved itself to be the industry's best. And this year we've added a bunch of new, exclusive winners. All with the famous Bachmann quality built in for your customers. All with the extra profits built in for you.

In 1979 you will be introduced to the formula for plus profits we tested and proved successful in 1978. HO + N = \$\$ N scale is back and booming and Bachmann has the line to capture the lion's share of this plus-profit area. HO Scale is getting some great new sets to add to the 1978 winners.

This year we're introducing a great, new line of Building Kits with Landscaping. Called Scenic Classics, these six different finely detailed building kits come with the addition of very realistic landscaping materials. The results are picture perfect...as you'll see by the bright new, full color packaging.

The Plasticville® Building and Landscaping Kits naturally lead to the development of a complete Scenic Line. Again, the target was higher, plus profits for you and we're happy to say we hit that target...dead center.

Many of our other old favorites like Mini Planes have been repackaged to add greater impulse sales to your Bachmann Line. And of course, all Bachmann locomotives continue to carry our Lifetime Limited Warranty. The exclusive "Simplomatic" plug-in wiring feature will also continue to be a strong silent salesman for you.

So like we said, Bachmann will be "The Profit Line for '79". You're welcome to come aboard.
