# Self-assembly '00' Plastic Kits

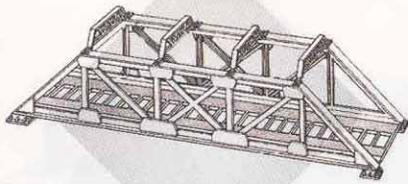

The Dapol factory operates under a 'Green' policy. No plastic is **ever** 'Thrown Away'. We re-use plastic through a system of 'Re-Grinding'. Our kits are made with 'Re-Grind' plastic and therefore the colours of the plastic will be different between batches. This does not affect the quality or performance of the kit. After four cycles of 'Re-Grinding' any residue plastic is sent to a Re-cycling plant where it is used to form the protective banding around newly planted trees.
