TRIX TRAINS...

The ultimate in "N" gauge

TRIXTM

MINITRIXTM

The ultimate in "N" gauge—1/160 Scale.

The only thing small about MINITRIX series is their size. Like "Little David", these mighty midgets pack plenty of power . . . power that appeals to every avid train enthusiast.

For one thing, there are the mighty MINITRIX locomotives . . . gear-driven, six and eight wheel drive for more pulling power and longer operational life. A MINITRIX steam locomotive or diesel can haul a long string of cars and still have power in reserve. If you ever need service parts replacement, their costs are very low, and readily available.

For another, TRIX gives the hobbyist the power to choose . . . offering an unexcelled selection of locomotives, rolling stock with over 100 prototypes and road names for regional selection and accessories to develop even the most complex layouts.

Then there's the powerful service program which TRIX maintains. To insure your continuing satisfaction, TRIX guarantees to service everything it sells! . . . a guarantee backed by a nationwide franchise service organization with convenient locations to serve the hobbyist.

And lastly . . . and perhaps the most powerful reason of all for choosing MINITRIX TRAINS . . . there's TRIX quality! Here is quality based on over 40 years of specialization in making precision-crafted model trains! Naturally, we've come to know our business. Our craftsmen are highly-skilled experts . . . famed throughout the world for their know-how. Our materials are the finest; the authenticity of our models unsurpassed; our reliability unquestioned.

Nothing can be better than the best, and MINITRIX TRAINS are the best there are. So . . . whether you're founding a railroad empire, or just enjoying your trains, . . . look to TRIX, the train maker of "Minitrix" that is the ultimate in N gauge.

TRIX TRAINS distributed in Western Hemisphere by American Tortoise Inc., 180 Smith Street, Farmingdale, New York 11735

4901 Flexible Track 28" (711.2 MM) .75
