# Supplementary track packs Skinnesuppleringspakninger Förpackningar med lösa skenor

In addition to MINTRIX track packs supplementary sets are also available. With their contents you can add to your entire track oval a parking loop and two sidings, and with the big MINTRIX track pack even building of a "grown up" hobby layout is possible without further expenses. The track layouts illustrated below are only 3 examples of the many possibilities.

1) MINTRIX-öspårningarna till de prisbilliga skinnesuppleringspakningar. Med innehållet kan du utvidra din existerande oval med 7 vagnspår eller 2 sidospår. Med den stora MINTRIX-öspårningspackning kan du - utöver att lägga ytterligare ovan - bygga ett komplett hobbyanläggning. De nedanför visade skinnesuppleringspaket kan du utvidra på de många möjligheter.

2) MINTRIX-öspårningarna till de billiga förpackningar med lösa skenor. Man kan alltid bygga ut den existerande oval med 1 vagnspår eller 7 uppställningsplatser, och med den stora MINTRIX-öspårningspackning kan du - utöver att lägga till några andra delar - på fullt utbyggt hobbyanläggning med det samma. De nedanför visade skinnesuppleringspaket kan du utvidra på de många möjligheter.

## TRIX-metalbyggesæt

### TRIX-Byggesæt

A TRIX assembly set with boxes 1, 2, 3 and 4 contains 1000 pieces of specially designed metal. Construction sets can be assembled without glue, using high quality plastic and large scale building with great variety of parts. And besides all TRIX metal construction elements are completely polished and, of course, non-toxic. No parts which could be scratched or splintered off.

Det største med TRIX. De første 5 år har du altid med dit byggesæt. Byggesættene er for alle aldre og kan bygges sammen til fantastiske byggerier. De er helt uden lim og er helt tryk og tryk. Alle TRIX metalbyggesæt er helt tryk og tryk. De er helt tryk og tryk.
