Buildings!
Most Complete System in N Gauge!

Revell/Rapido N Gauge Electric Trains

Complete and ready to roll Train sets!
Everything included . . . Exclusive tempered
Track . . . Detailed cars . . . Car-railer . . .
Operating Manual . . . And your choice of each
set either with or without **Power Pack!**

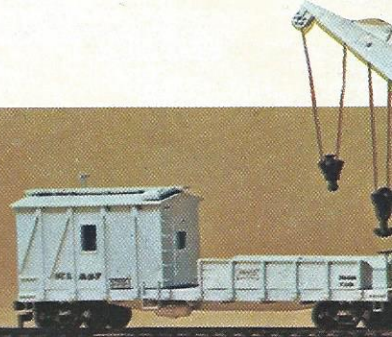

**Four times more fun
in a fourth of the space!**
More fun in less space! You can set up
your railroad empire off the floor on a
table top — get all the kicks of model
railroading. There's a Revell Train set for
every railroad baron's budget. Take your
pick from American prototype trains in
durable, precisely engineered, finely
tooled miniature of the real thing.

and easily. Lines up
flanges on wheels
with track rails and
rolls car into position.

Seven freight cars plus tender;
caboose. Two extra 9' track sections included!

Revell/Rapido N Gauge Electric Trains

Rolling Stock

All locomotives are exact replicas of **American** prototypes as authentically painted and lettered as the real thing. They have durable highly detailed bodies, fully automatic couplers and permanent magnet motors.

All freight and passenger cars have fully automatic coupling. Steel axles with needle point bearings assure smooth performance and long life. Separate roof walks, brake wheels and underbody detail add to the realism . . . and all cars are engineered, painted and lettered from actual railroad blueprints.

Important: Revell cars and couplers are standard! **They will run on any N gauge track and will couple with any other brand of N gauge trains!**

ALCO FA-1 DIESEL LOCOMOTIVE

Special Layout/Set Combinations

A complete railroad empire in one package

Landscaped Layout, Track, Bridge, Complete Train Set, Power Pack & Track Clips, Car Railer & Operating Manual

Layouts are made from high density styrafoam that is lightweight, but amazingly sturdy. They are pre-painted and easy to embellish with additional shrubs, buildings, etc. You have a complete train layout ready to run in seconds. And because it is a convenient size, it is easy to store anywhere, in a closet, under a bed, on a shelf — without getting in the way when it is not used.

Rocky Mountain Layout Set Combination

N-2203

You Get An Alcoa FA-1 Diesel Freight Set with Alco FA-1 Diesel Locomotive (Union Pacific), stock car and caboose. She's comin' round realistically contoured grades, cuts and mountains — over the bridge — in a landscaped scene that includes shrubs. (unassembled)

Rocky Mountain Layout Alone
N-2894 (Completely assembled)

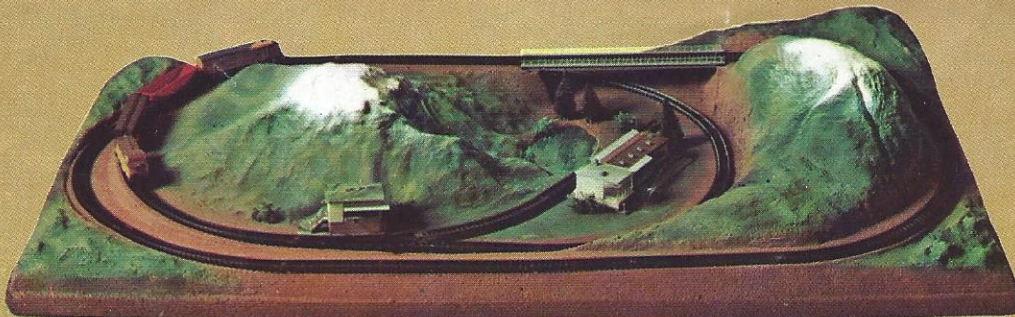

SIZE: 20" x 36"

Lakeside Layout Set Combination

With Switch, Spur and Buildings
N-2222

You get The "Pacesetter" — a complete Alcoa FA-1 Diesel Freight Set (Union Pacific), with Alco FA-1 Diesel Locomotive, hopper, box car and caboose — all ready to roll across a tree and shrub-studded countryside, around a lake, over the bridge past realistically sloping hills. Switch tower and Station Kits included.

SIZE: 20" x 36"

American "N" Gauge Buildings

- All completely assembled and hand decorated to complement the best "N" Gauge layouts.
- All feature detailed engraving.
- All can be lighted to enhance your layout.

The most complete line of track and accessories in N Gauge Scale! You can expand your Electric Train Set with these add-on track sections!

Realistic! Self-Cleaning . . . Durable . . .
Only track that is black nickel plated to produce the appearance of real track. Its contour permits passing wheels to clean off any dirt or dust. Your train always rolls along smoothly.

Exclusive! Special staggered "fish plates" join each track section, assuring uninterrupted power and exceptional structural strength.

Expand your train Layout Easily with this Track Extender set!

N-4013 Track Extender Set With Pair Manual Switches
