ON THE COVER

Raw power and computer technology came together in a big way in 1985 as EMD rolled out its revolutionary new GP60. Built for speed, these hardworking locos produced 3,800 horsepower that made them well suited for intermodal and high priority freight. Still rolling today, adding these hard working replicas to your roster is easy, with WalthersProto and Walthers N models available now!

WELCOME

You'll think you've caught your very own leprechaun with all of the exciting new products and great savings in this issue of Walthers Flyer!

Add new accessories and action to your N Scale layout with Tomy Tec products, available now from Walthers! Check out the current selection on page 53 in this issue.

Brighten your layout with great deals on select products and accessories in our special Lighting Sale, starting on page 14.

Now ready for boarding, all cars from the fabulous Pere Marquette are here! Read more about it on page 25 inside.

Perfect for heavy HO freight service, find complete details on our newest run of WalthersProto GE U28/30Bs on page 4.

Keep on truckin' in HO Scale with the newest releases of SceneMaster vehicles, ready for a test drive on page 5.

Where there's smoke, you'll find our newest HO Cornerstone kits! The new Fire Department buildings plus new SceneMaster fire vehicles can be combined to build a complete complex. Read more on page 6 now!

Ahoy mates, Walthers HO Waterfront Series is back! Check out the full selection — along with exciting new accessories — on page 8!

NEW KITS!

NEW HO Cornerstone® Fire Dept. Kits

Protect your HO population and add action to your layout with these new Fire Dept. buildings and vehicles. To avoid disturbing neighbors, fire departments are often located in industrial areas or on the edge of town near the tracks. The three structures can be placed together as one complex or you can locate the drill tower and repair shop in a separate area of your layout. Fire trucks will be at the ready with five new SceneMaster emergency vehicles decorated in typical paint schemes.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

PROTO 2000® **In Stock!**

Soundtraxx® Tsunami® Sound & DCC \$299.98 | Standard DC \$199.98

PROTO FASTFACTS™

As computer technology advanced in the 1980s, EMD took a major step forward with the introduction of the new GP60. Directly behind the cab, a trio of onboard microprocessors regulated and ran various systems, replacing complex wiring circuits and relays. Coaxing 3,800 horsepower from its 16-cylinder 710G3A prime mover, the four-axle GP60 was well suited for fast freight service and was often seen on the point of priority trains when new. While the GP60 proved the advantages of computer control, potential buyers were more interested in six-axle power, and EMD focused its development efforts on the bigger units. For now, the GP60 may be the last in a long line of geeps.

MAKING RAILROAD HISTORY

WALTHERSPROTO™

The Pere Marquette

Speeding travelers from Chicago to Grand Rapids to Detroit, the Pere Marquette was the pride of C&O* postwar streamliner service! Updated with new cars from Pullman-Standard in the 1950s, the trains offered a wide range of comfortable accommodations whether traveling for business or pleasure.

With its short, colorful consists Walthers newest HO Scale name train is the perfect size for operation or collecting! Railroad-ready out of the box, the complete Pere Marquette features:

- Based on Cars and Locomotives in C&O Three-Color Scheme Used From 1954-63
- Real Metal Finish Simulates Stainless Steel as Appropriate Per Car
- Paint Color-Matched to Original C&O Color Chips
- Proto MAX™ Metal Knuckle Couplers

Pere Marquette Passenger Car Features:

- Newly-Tooled Diner Coach, Lunch Counter Buffet Lounge & 10-6 Sleeper Available for the First Time
- Prototypically Accurate Window Tinting
- Available With or Without Factory-Installed DC/DCC LED Lighting
- Correct 36" Turned Metal Wheelsets
- Now In Stock!

PROTO FASTFACTS™

Built: 1985-1994,
most still in service

Primary Assignment:

Fast intermodal and light, priority freight; later used in general freight service as well as local and yard work.

As computer technology advanced in the 1980s, EMD took a major step forward with the introduction of the new GP60. Directly behind the cab, a trio of onboard microprocessors regulated and ran various onboard systems, replacing complex wiring circuits and relays. Coaxing 3,800 horsepower from its 16-cylinder 710G3A prime mover, the four-axle GP60 was well suited for fast freight service and was often seen on the point of priority trains when new.

For 80 years, Walthers has been committed to the fine tradition of model railroading.

The annual Walthers Reference Book is a 'must have' for model railroaders – those with years of experience as well as those just getting started.

It is a usable, collectible resource.

Don't just take our word for it...

"For most any model railroad project I work on, I turn to one of the Walthers Reference Books. Walthers Reference Books have been an important resource for me, especially when planning modeling projects.

While the Internet is a great tool for finding information, it works best if you already know what you are looking for. With the printed Reference Book, you can easily browse selections of products, which can be great for generating ideas. Many times over the years I've started looking for one thing, only to find something better just a few pages away, which ultimately makes a better finished model. The Reference Books are a great modeling tool."

David Popp, Model Railroader Magazine
