WELCOME

April Showers mean more time to spend on your layout, and you'll find great project ideas, new products and more in this Walthers Flyer!

WalthersProto has the power your HO railroad needs to get things moving! Check out the latest USRA 0-8-0s and SD45 locomotives inside.

Expand your modern roster in minutes with the newest Trinity molten sulfur tankers from WalthersProto. Packed with details and ready to use, check out the latest HO roadnames on page 4 in this issue.

Transform vacant layout land into a classic or modern subdivision with the new HO Scale Cape Cod and Ranch House kits from Cornerstone! See complete listings on page 5.

Period piggyback is easy to model with a new run of SceneMaster 32' and 40' trailers in HO Scale. Get all the details inside on page 4!

Test drive the Classic Car Restoration, our newest N Scale Cornerstone kit making its debut in this issue on page 5!

Celebrate both Arbor Day and Earth Day this month with Noch's tree planting program. Turn to page 13 for the details.

Happy Modeling!

Phil Walther

ON THE COVER

From raw materials to complete new cars, to the last ride to the scrap yard, America's auto industry relies on the railroads to handle jobs big and small. With great equipment like the latest WalthersProto Double-Door Hi-Cube Boxcars (details on page 7) and SceneMaster vehicles, modeling this important industry in HO is fast, easy and fun!

Time for a New Truck

An EMD GP60 leads a line of auto carriers past the International Truck Dealership racing new cars to showrooms across the country. On this sunny day, business is busy with customers checking out shiny new models and looking over the array of used vehicles in stock and ready to go.

Often located along the tracks, vehicle dealerships are great for adding action to your railroad. This modern-era brick and concrete model includes a showroom and service area, exterior lights and roof vents and authentic printed signage. Fill your lot and roadways with SceneMaster vehicles and finish the scene with a WalthersProto GP60 and bi-level auto carriers available in a variety of roadnames.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

LANDSCAPE YOUR LAYOUT

Make your landscape spring to life with realistic trees, ground cover, fences and more. From forests to flower gardens and city parks to ponds it's easy to create idyllic scenes on your railroad.

With so many scenery items at great prices, there's no better time to improve or redesign your landscaping.

Start Planting For Real!

How can you turn a model tree into a real tree? For every 100 model trees sold from these sets, Noch donates 1 real tree to Plant for the Planet, a global student initiative. Their goal is to plant 1 billion trees around the world. That's 150 trees per person – trees that beautify the environment, clean the air and help cool the earth. Enrich the landscape on your layout and enrich the world at the same time.

Learn more at plant-for-the-planet.org.

NO Tree 7-Packs

Noch. Ready-to-use trees are perfect for adding realism to any model railroad. Each tree features a plastic armature (trunk) and is ready to place on your layout.

MAKING RAILROAD HISTORY
WALTHERSPROTO™

USRA 0-8-0 SWITCHER

HO SCALE

Tsunami® Sound & DCC \$399.98 | Standard DC \$299.98
April 2013 Delivery

WALTHERSPROTO FASTFACTS™

In Service: 1918-1950s

Variants: Numerous changes to tenders and equipment after end of USRA control in 1920; copies built through early 1950s.

Primary Assignments: Yard switching and transfer service, also used as industrial switchers.

By 1917, larger and heavier freight cars had pushed most 0-6-0s to the limit. Railroads needed bigger, more powerful switchers, leading the United States Railroad Administration (USRA) to develop an all-new 0-8-0. Equal in power to many road freight locos from just a few years earlier, the USRA engines were well liked, 175 were completed before 1920, and 35 railroads would later copy the design.

New Roadnames & Numbers

PROTO 2000® – In Stock!

Tsunami® Sound & DCC \$299.98 | Standard DC \$199.98

WALTHERSPROTO® FASTFACTS™

EMD celebrated New Years Day 1966 by introducing six new SD series locos including the SD45, with an enormous 20-cylinder power plant cranking out 3600 horsepower. Timing couldn't have been better as American railroads experienced a surge in traffic and were ready to modernize. The SD45 proved popular, and 1,260 were built through late 1971, when production switched over to SD45-2. Original owners began to retire units in the 1980s, but many were rebuilt and sold to regional railroads. Several are now preserved.

- Limited Edition - One Time Run of These Roadnumbers!

For 80 years, Walthers has been committed to the fine tradition of model railroading.

The annual Walthers Reference Book is a 'must have' for model railroaders – those with years of experience as well as those just getting started.

It is a usable, collectible resource. Don't just take our word for it...

"For most any model railroad project I work on, I turn to one of the Walthers Reference Books. Walthers Reference Books have been an important resource for me, especially when planning modeling projects.

While the Internet is a great tool for finding information, it works best if you already know what you are looking for. With the printed Reference Book, you can easily browse selections of products, which can be great for generating ideas. Many times over the years I've started looking for one thing, only to find something better just a few pages away, which ultimately makes a better finished model. The Reference Books are a great modeling tool."
