### ON THE COVER

Bold, bright and beautiful, there's no finer way to see the Northwest than from the comfort of the Empire Builder! Like the prototype, our HO Scale replica of the famous name train is being updated and modernized, along with GN's signature F units, as part of the superbly detailed WalthersProto line. For complete details and a list of all cars and locos, turn to page 13.

## WELCOME

You'll want to study this month's Walthers Flyer, as we start the hobby season with new products, great prices and much, much more inside!

Folks who attended this year's National Train Show got a sneak peek at the upgraded WalthersProto Great Northern Empire Builder! Now you can check out the many features of this colorful HO streamliner on page 13 inside!

Find lots of project ideas to get your railroad up and running this fall in the Back to Modeling Sale, starting on page 14!

Upgrade HO operations with new cars, locos and more from WalthersProto and WalthersMainline – turn to page 4 to see what's new for fall now!

Two all-new HO Cornerstone® kits are making their debut in this issue, the Hole-in-One Donut Shop on page 6 and National Fuel Supply on page 9.

Ready to hit those books? Reference Books that is! It's time to update your library and workbench with the 2014 HO and N&Z Editions. See the Back Cover for complete details.

Save big on select steel works structures and accessories in this month's Savings Express! Turn to page 30 for complete details!

Find out more about these new models at [walthers.com](http://walthers.com), by calling us at 1-800-487-2467 or visit your participating hobby shop to reserve any new product in this issue.

Happy Modeling!

# Roll Through the City in Style

While streamliners like Great Northern's Empire Builder were known for their dome-seat views of spectacular scenery, when they began or ended their journeys they threaded their way through urban landscapes. The backs of buildings, industrial spurs filled with freight cars and railroad yards were, and still are, the scenery passengers saw near major stations. Sometime in 1967, the Empire Builder's passengers are treated to a look at GN's new Big Sky Blue colors against a backdrop of city buildings. On your layout, every train has to go somewhere, and if your railroad runs into a city you need structures along the line. Check out both versions of this popular train on page 13. Start building your city with the selection of easy-to-build Cornerstone® kits on this page, in the structures section of this Flyer and at walthers.com.

## BUILD A ONE-STOP RURAL OR SMALL TOWN BUSINESS CENTER

Coal in winter, ice in summer, grain in autumn, lumber in spring – product demand varies with the season. To keep money flowing year round, many business owners ran a variety of operations. For convenience, all the different businesses were often located together forming a small business center alongside the tracks. Freight traffic stayed busy all year long with operations switching by season to different loading docks on the same set of tracks. Small centers like these were common in the 1920s through the 1950s. It's easy to create your own one-stop business center with these Cornerstone kits.

### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items— those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire. Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

# SAN FRANCISCO Chief

*As Exciting as the City It's Named For!*

## The Affordable Way West!

In the summer of 1954, Santa Fe began offering direct Chicago-San Francisco service with its newest streamliner, the San Francisco Chief. Running on the southern main line between Emporia, Kansas, and Belen, New Mexico, the trip covered almost 2555 miles (4111.8k) — longest run on the ATSF and longest on a single railroad in the US — in just 47-1/2 hours.

With a mix of old and new streamlined equipment, the train proved popular from the start. Six train sets were needed to maintain the daily service that included a mix of baggage, mail and express cars, coaches, sleepers, the train's signature "Big Dome" lounges, and two different diners. A quick, convenient and affordable way to head west, the San Francisco Chief is still fondly remembered by many today.

# Versatile Little Switchers

The EMD SW1 was the last switcher built by the Electro-Motive Corporation before it became an official division of General Motors. The designation referred to how the locomotive was constructed, 600 horsepower with a welded frame. The SW1 was the second model in the series and featured the new 6-cylinder 567 prime mover.

Built between 1939 and 1953, this little switcher was popular and over 600 were sold. A variety of railroads, industries and even the U.S. Army purchased models. The SW1 stood the test of time and many are still in operation on shortlines, excursion trains and elsewhere. More than two dozen models are preserved and the very first SW1, SP #1000, is preserved at the California State Railroad Museum in Sacramento.

These WalthersMainline models are great for all kinds of switching duties on your HO railroad. Because of their longevity, they'll fit right in on layouts from 1939 to the present.
