### ON THE COVER

Things are rolling right along at the North Pole, where Santa is putting the finishing touches on this year's train sets. Bring home some holiday magic to your HO Railroad this season with the Christmas Zephyr (#931-875) and the new Santa Claus Coal Express Hopper (#931-1439).

## WELCOME

You won't find any turkeys in this issue of Walthers Flyer, just great holiday gift ideas, exciting new product news and great deals on must-have model railroad supplies.

Santa's making his list, finding all kinds of railroad-theme gift ideas in Walthers Holiday Gift Guide. Sneak a peak starting on page 16 to get your seasonal shopping started on the right track today.

Add color and variety to any HO train set or layout with the newest GP9M diesels from WalthersTrainline along with new 40' Stock Cars from WalthersMainline®. Read all about what's new starting on page 4.

Build variety into any HO business district with the all-new Merchant's Row IV. Combining three stores into one structure and loaded with features, this Cornerstone kit makes its debut on page 7 inside.

Modernize your freight car fleet with four new WalthersProto cars. Turn to page 4 for all the features, roadnames and more on Tri-Level Auto Carriers, 23,000-Gallon Tank Cars, 4780 Covered Hoppers and 60' Gunderson Boxcars.

Streams and highways are easily crossed when you install the new limited-run Single Track Pony Truss Bridge to your HO right-of-way. Check out the amazing details of this laser-cut Cornerstone kit on page 8.

The new Walthers SceneMaster™ Mobile Construction Office makes a great starter kit for any HO modeler and a must-have detail for any modern construction site. Read more on page 8.

# It's Christmastime in the City

Main Street is bustling with holiday shoppers. After a stop at the bank to cash in on Christmas Club savings, followed by a quick hello to Santa, it's time to head on over to the hobby shop. Holiday-themed train sets for around the tree are a big seller here, second only to the starter train sets that are always on children's wish lists. Year round, the hobby shop is a popular place but it's especially busy this time of year. Not only is it a place to get gifts and decorations, it's the place to meet with fellow modelers to plan operating sessions and layout visits during Christmas vacation.

933-3475 \$29.98

**HO Cornerstone Liberty Bank & Trust Kit**

### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire. Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

# Now Arriving - Pulling Power for Your Pere Marquette Name Train!

## WALTHERS PROTO® FASTFACTS™

In service: 1945-1960s

Primary Assignment: Passenger Service

When EMD was given the green light to build new passenger diesels in early 1945, it unveiled an improved version of the successful E6, designated the E7. A pair of 567A prime movers now supplied power, rated at 2000 total horsepower. Most of the notable changes were seen on the body and included a new and much smaller bulldog nose, as well as a large, vertical louver or screen panels directly behind the cab doors. With big plans for postwar passenger service upgrades, orders for the new model began pouring in from railroads across the country. Among these was the Pere Marquette, which took delivery of two E7s for its new Pere Marquette streamliner in the summer of 1946. Based on their success, ten more were ordered during 1947-48, after the C&O took over operations.
