THE BEST WAY TO SEE ALASKA

Against a backdrop of tall, snow-covered peaks, endless pine forests and blue lakes, Alaska Railroad passenger trains have long been the best way to see the "real" 49th state. With the startup of Amtrak in 1971, ARR saw an opportunity to upgrade its passenger fleet with former Union Pacific "City" streamliner cars. The cars were quickly repainted by applying blue bands and lettering in place of the UP red striping and lettering. With dome seating and luxury coaches now available, tourists flocked to ARR trains for front-row seats on America's most scenic line.

In the late 1970s, ARR summer passenger trains featured repainted F7 diesels and a large number of former UP cars - just like the train here. Today, many of the UP cars have been rebuilt and repainted to match newer cars and special cruise train equipment.

New WalthersProto® EMD F7 locos come decorated in the bold scheme designed by Chester Mack, designer of the 1947 American Freedom Train and numerous Alco schemes. Cars come in both the 1970s UP repaint scheme and the 1990s rebuild scheme so you can choose the best ARR train for your layout!

See WalthersProto Alaska Railroad train on pages 8 and 9 of this issue and get more info at walthers.com/alaskarr.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Vehicle Deals

Freight cargo carried by rail may start or end its journey in a truck. Passengers often travel to the train station by car or bus. And, what about those hi-rail vehicles railroads use for construction and maintenance? Those are just a few reasons why you need vehicles on your layout. Trucks, cars, motorcycles, buses and even boats help set time and place. They're also great collectibles. Start building your vehicle pool with these great deals.

MAKING RAILROAD HISTORY
WALTHERSPROTO

Like to drive your car around town? Even if you bought it new, chances are a driver before you ushered it up a loading ramp and into an auto rack like the 89' Thrall Bi-Level Auto Carrier. Designed to handle autos and taller vehicles like vans, pickups and SUVs with ease, bi-level enclosed auto carriers have been around since the late 1970s. As some of the largest cars on the rails, they'll look great on your modern-era freights, in auto industry scenes and being switched in yards.
