### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

# RUSSELL SNOW PLOW

HO SCALE

**ALL NEW MODEL!**  
 Positionable Wings!

**IN STOCK!**  
 HO Scale | \$69.98 Each

**WALTHERSPROTO FASTFACTS™**

Built: 1920s to 1951 many still in service with several restored examples in museums.

Taking on winter's worst or dozing through the summer alongside the roundhouse, the Russell plow has been a fixture of railroad maintenance for well over a century. Combining a flanger, bucking plow and spreader into one efficient design, the Russell Company built its first wooden plows in Ridgeway, Pennsylvania in 1899, shifting to all-steel construction in the 1920s. Incredibly tough and efficient, many have lived long lives and are still in seasonal service with major railroads, as well as several museums.
