NO MATTER THE WEATHER

The weather might be cold, but the traffic is hot along the Canadian National! The conductor waves as the colorful SD70ACE sweeps past kicking up whirls of fresh powder in its wake. Winter winds might blow and highways close, but these containers will get to their destination on time, safe and secure aboard a string of 53' well cars. Today's railroading is a blend of speed, power and color, all of which are easy to model with Walthers. Start with affordable power like the new SD70ACE diesels, couple up a train of authentic well cars and add the finishing touch with our growing selection of containers to bring the same excitement to your HO scale railroad.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
