WORKING ALONG THE WATERFRONT

The screeching of gulls is drowned out by the sounds of an EMD SW1 and its train clattering across the bridges over the ship channel. A dash of yellow and green graces the top of the Pratt deck-truss bridge as the rest of the train rolls across the through-truss bridge over the main channel, placed to leave more room for taller marine vessels to pass underneath.

This dramatic view of the city skyline is a treat for the railfan photographer as he follows a local switch run on its waterfront jaunt to the lake port. Bridges like these are ideal centerpieces for exciting scenes on your HO railroad. The Cornerstone® Engineered Bridge System makes it fast and fun to add a variety of styles and sizes along your pike.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
