ON THE COVER

The sun may have gone down, but the heat and humidity are still right up there, even at this late hour of the night! A solid line of green signals stretches for miles ahead, as powerful beams of light slice through the darkness. No matter the weather, no matter the hour, railroads must keep moving, a job many found easier over the years with powerful EMD SD45s on the roster. Make these rugged and reliable six-axle freight units a key part of your HO operations with new WaltherProto SD45s in ATSF, CP Rail (920-41070 shown), Conrail and Wisconsin Central versions. Some roads are already in short supply – see your dealer to reserve yours today!

GO WITH THE GRAIN

With farmers and elevator operators expecting a bumper crop this year, work is well underway to get the Canadian National ready for the wheat rush! A lone SD70 is plenty of power for a long string of Canada's signature cylindrical hoppers, headed out empty — but they won't stay that way for long! The annual grain rush can be one of the busiest times along many railroads, and modeling the color and variety of equipment needed for the job is easy with WalthersMainline® HO models.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Introducing the **WALTHERSPROTO**

SANTA FE 1954 EL CAPITAN

An all-new version of a legendary name train

Santa Fe's *El Capitan* was the first choice for travelers between Chicago and Los Angeles, reaching new levels of luxury as a conventional streamliner in 1954 when the first "Big Domes" arrived. Capturing the spirit of the 1954 *El Capitan*, our newest HO name train includes four new cars – six authentic models in all – that later served on other Santa Fe streamliners. New 300-Class F7s in full Warbonnet® colors will also be available for an authentic model from start to finish.

Santa Fe 300-Class F7 Diesels – Based on post-1953 engines #300-305

- April 2017 Delivery for all models
- Limited edition – one-time run of these configurations
- Detailed to match post-1953 cosmetic upgrades featuring:
 - Vertical "Farr" type etched stainless grilles

- Door-mounted headlight & Mars light
- 36" dynamic brake fan
- 2 single-chime air horns
- Plated metal & painted finish
- Complete scale fuel tank with skirting, hangers, battery box & underframe detail
