ON THE COVER

The steady thunder of rolling wheels booms through the heat of a summer afternoon, growing louder as another train speeds over the big steel bridge that's been serving for decades. From the days when steam ruled the rails to the present, you'll find rugged Arched Pratt Truss Railroad Bridges like this crossing mighty rivers, busy highways, rail lines and other obstacles where clearance is needed below. Our newest HO scale Cornerstone Engineered Bridge Series kits are highly detailed and designed for easy construction in both Single- (933-4251 shown) and Double-Track versions. For the finishing touch, bring your scene to life with cars from your favorite era like these new WaltherProto Trinity 30,145-Gallon Tank Cars.

The Little Engine that *Can!*

Rumor has it the grandkids' favorite bedtime book inspired the local elevator owner to freshen up his trusty Plymouth switcher. The kids were thrilled, and more than a few cab rides have since been taken on their very own "little blue engine." But today it's back to work, and with a bumper crop due any day, the crew will be spotting cars well into the evening. Like its prototype, the new WaltherMainline® Plymouth ML-8 diesel is right at home on any HO job from construction sites to heavy industries. Built tough with a detailed metal hood and underframe coupled to a powerful drive, they'll be available later this year in your choice of SoundTraxx DCC control decoder with built-in CurrentKeeper™ and Standard DC versions. New cars are also coming soon in HO, including WaltherProto 55' Evans 4780 Covered Hoppers and WaltherMainline 59' Cylindrical Hoppers.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
