ON THE COVER

With railroads eagerly replacing aging first generation diesels, EMD GP35s quickly became the signature freight power on many railroads in the mid-1960s. EMD continued making improvements and in 1965 rolled out what railfans would come to know as the Phase II version with a straight frame, inertial filter hatch and other upgrades. Speeding piggybacks and hotshot freight traffic when new, some are still handling short line and switching chores after 50+ years in service! New from roof to rails, WaltherProto is proud to introduce its Phase II EMD GP35s in HO scale. Packed with railroad-specific details and powered by a proven WaltherProto drive, first series models are now shipping to dealers. Turn to page 11 or visit walthers.com for additional information.

THE HEAT IS ON!

Heat and humidity are only part of what's heating up traffic levels along the railroad! With the harvest season underway, car after car of canned fruits and vegetables are streaming from fields to supermarket shelves. The lights burn late at railroad offices where the traffic department keeps a close watch on the ever-shifting supply of cars needed to keep up with local canneries. These big and colorful insulated boxcars were frequent visitors along many railroads from the 1960s to the early 2000s. With tight-fitting plug doors, extra insulation and interior load restraints, they were favorites for moving canned food and beverages, and could also be found moving temperature-sensitive packaged chemicals and finished wood products. Our new WalthersMainline® 50' PC&F Insulated Boxcars are loaded with details, from the detailed body matching the prototype's Plate B dimensions, to the Hydra-Cushion cylinder and extended draft gear that complete the underbody detail. First series roadnames (each with two car numbers) are ready for summer service. See page 12 or visit walthers.com for more photos and information.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Introducing the **WALTHERS PROTO**.

George Washington

For business or a relaxing get-away, there was no finer way to travel between Washington and Cincinnati than the Chesapeake & Ohio's *George Washington*. Known simply as the *George* to its many fans, the train's unique personality was reflected in everything from hardworking heavyweights up front carrying mail and baggage, to impeccable service inside the rebuilt Dormitory-Diner. Travel back to a time when getting there really was half the fun aboard our newest HO Scale name train, featuring seven cars and matching E8A diesels.

Introducing the **WALTHERSPROTO**

SANTA FE 1954 EL CAPITAN

An all-new version of a legendary name train

Santa Fe's *El Capitan* was the first choice for travelers between Chicago and Los Angeles, reaching new levels of luxury as a conventional streamliner in 1954 when the first "Big Domes" arrived. Capturing the spirit of the 1954 *El Capitan*, our newest HO name train includes four new cars – six authentic models in all – that later served on other Santa Fe streamliners. New 300-Class F7s in full Warbonnet® colors will also be available for an authentic model from start to finish.

Santa Fe 300-Class F7 Diesels – Based on post-1953 engines #300-305

- September 2017 delivery for all models
- Limited edition – one-time run of these configurations
- Detailed to match post-1953 cosmetic upgrades featuring:
 - Vertical "Farr" type etched stainless grilles

- Door-mounted headlight & Mars light
- 36" dynamic brake fan
- 2 single-chime air horns
- Plated metal & painted finish
- Complete scale fuel tank with skirting, hangers, battery box & underframe detail
