## WELCOME

No tricks, but you will find plenty of treats in this issue including the latest Walther's new product news and great deals on great products for your fall projects.

Big news about big HO power leads off this month, as our next run of Walther's Mainline® SD70ACes will be available for the first time with an ESU sound decoder for DCC and DC layouts. Turn to page 4 for full details and your first look at new numbers and schemes.

Freight doesn't wait when you have Walther's Mainline models on the job, and we have four new series of cars to expand HO operations. See the full selection starting on page 5 in this issue.

Fill up empty spaces in contemporary HO scenes with the new Modern Travel Center, Gas Station, Car Wash and Parking Lot kits from Cornerstone®. A must for busy street scenes, pull into pages 8-9 for photos and information.

Some of the most colorful trains on today's rails can be part of your operations with new SceneMaster™ models. Check out the latest 20' Corrugated Containers and new 53' Singamas Containers on page 10.

Find out more about these new models and more by visiting [walthers.com](http://walthers.com), by calling us at 1-800-487-2467 or visit your participating hobby shop to reserve any product in this issue.

Happy modeling!

*Phil Walther*

### ON THE COVER

The work train supervisor reports men and equipment are in the clear, and things get rolling quickly all along the railroad. Clearing up the backlog of trains won't take long either, not with powerful lash-ups of GEVO diesels on the point. From their introduction in 2005, General Electric's Evolution Series has quickly become a favorite for freight assignments of every kind. Now arriving, the all-new Walther's Mainline ES44s in HO Scale are nicely detailed, affordably priced, and available in your choice of SoundTraxx® sound for DCC and DC layouts, as well as standard DC versions to meet all your contemporary motive power needs. Find out more at [walthers.com](http://walthers.com).

# It's **PUMPKIN** **TIME!**

Shorter, cooler days and turning leaves are sure signs fall is coming, but for many folks, it just isn't official until the pumpkins are ready. Once those "Pick Your Own" signs appear along many farm driveways, the search begins for the perfect Jack O' Lantern. Railfans of course can find plenty of "pumpkins" at trackside all year along the BNSF, and orange has long been a favorite color for railroads big or small. Bring any season to life along your line with a great selection of products including WaltherMainline® SD60M locos, the newest 50' ACF Exterior Post Boxcars and the SceneMaster™ Pumpkin Patch kit.

## A Note on Availability

At Walthers, we strive to provide you with the widest variety of product inventory. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

MAKING RAILROAD HISTORY  
**WALTHERS** MAINLINE<sup>®</sup>

# Your Source for HO Boxcars

Bring the color and variety of America's boxcar fleet to your HO operations with WalthersMainline models. Nicely detailed but built tough to stand up to operating sessions at home or at the club, there's a growing selection of cars to fit your steam-, diesel- or transition-era operations. Colorful period paint and lettering add to the fun, and each roadname is available with two different numbers. Good looks are just the beginning, as each comes fully assembled with turned-metal wheelsets and Proto MAX™ metal knuckle couplers. Here's a small sample of what's currently available - see your participating dealer or visit [walthers.com](http://walthers.com) for more cars!
