### ON THE COVER

With a little touch of sand on the rails and a skilled hand on the throttle a pair of Union Pacific F7s come growling upgrade. Slugging it out with time and gravity, all 3000 horses are pulling hard, sending the steady roar of the 567B prime movers ricocheting all across the mountain peaks and valleys. One of the most popular locos ever built, model or prototype, F7A and B units could be found on active duty from the 1950s to the 80s, and many are the star attraction of museums today. Putting this classic power to work on your own HO railroad is easy with the newest run of WalthersProto F7s that includes Union Pacific, Santa Fe, Burlington Northern, Canadian National and Chesapeake & Ohio A and B units. Read more at [walthers.com](http://walthers.com).

# Paper Work Made Fun!

The job starts at a remote siding, nestled deep in the forest where empty flats and gondolas are soon heavy with fresh-cut pulpwood logs. Boxcars take over for the next leg of the trip, ferrying huge rolls of paper from mills to printing plants all across the country. From there, hard working locals and wayfreights ease up to rail docks, spotting loads and picking up empties to begin the cycle once more. Paper traffic will add a lot of variety to operations, and Walthers makes it easy to model at every step of the way! Here you can see the “business end” of the new Modern Concrete Printing Plant, the latest HO kit in the Cornerstone® Modern Industrial Park series, which includes the air cleaner and dust collector cyclone as shown and both will also be available separately! Add the finishing touch with WalthersProto® power like the GP35 and WalthersMainline® Boxcars and you'll be looking forward to doing “paper work!”

### A Note on Availability

At Walther, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

MAKING RAILROAD HISTORY  
**WALTHERS MAINLINE®**

# Your Source for HO Boxcars

Keep freight moving along your HO railroad with WaltherMainline® models! The growing selection includes all kinds of cars that look great behind steam or diesel power, and are factory-finished in colorful period paint and lettering schemes – and each roadname is available with two different limited-run car numbers to expand your fleet in minutes! Built tough for years of dependable service, each features with turned-metal wheelsets and Proto MAX™ metal knuckle couplers. Here's just a sample of what's now available - see your participating dealer or visit [walthers.com](http://walthers.com) for additional cars!

## **50' Exterior-Post Mechanical Reefer \$27.98 each**

- Based on cars built by the Burlington's Havelock Shops, similar cars used on many railroads from 1960s to early 2000s
- Prototypes handled all kinds of temperature sensitive food products
- Must-have car to serve cold storage facilities & grocery wholesalers
- Matches prototype dimensions
- Diagonal panel roof w/separately applied exhaust stack
- Detailed plug doors, refrigerator inlet & outlet grilles
- Late improved Dreadnaught ends
- See-through running board
- Highly detailed underbody w/fuel tanks & brake gear
- 70-ton roller bearing trucks
