ON THE COVER

Winding waterways, twisting mountain passes... railroads have always had to adapt to the terrain around them, but the most challenging obstacles were actually man-made! What had once been remote lines were gradually surrounded as cities grew, bringing more pedestrians and traffic that only made things worse. Early in the 20th century, many of these urban lines were completely rebuilt on raised rights-of-way, with highway overpasses to accommodate the flow of traffic. While the trains themselves have changed, these older lines are still going strong, keeping things moving safely into the 21st century. Modeling the same level of action and realism in your favorite era is easy with HO models like the new Cornerstone Urban Concrete Overpass (933-4560), WaltherProto® EMD GP35 locos (Chessie/C&O 920-49165 shown) and cars like the WaltherMainline 54' Pullman-Standard 4427 CD Covered Hopper (910-7254).

Time to Get Growing!

You might not think the weather is all that warm just yet, and it's pretty easy to miss the first brave little flowers (and weeds!) poking out of the last of the snowdrifts. But when the local wayfreight growls into town with carloads of new farm equipment, well, there's no question that spring is just around the corner! It's a familiar sight in towns big and small these days. Local farmers drop by the depot to keep a close eye on the work at the team track, where flatcars heavy with the latest machinery are set out for pick up by local dealers. Make your HO layout grow this season and all year long with exciting new models including SceneMaster™ layout-ready farm tractors and machinery, WaltherProto® 53' AAR Flatcars, and EMD GP35 diesels!

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check waltthers.com, email us at custserv@waltthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Your Greatest Workshop Resource – Walthers Reference Books

In the Reference Book, every page is instantly at your fingertips – wherever you are!

It's the perfect workshop companion – comparing products from several manufacturers is as quick as turning the page. And ordering is as fast as picking up the phone.

Want to customize a locomotive? Turn to the Parts Section or refer to the extensive index to find the details you need. Adding a branch line? Open up the Track Section to check out turnouts and more. Need a little inspiration? Browse the Magic of Model Railroading photos for ideas.

Whatever project you're building, planning or dreaming of, working on your layout is easier every step of the way with a Walthers Reference Book at hand. Order your workshop copy now!
