### ON THE COVER

High, wide, handsome and still going strong after all these years! Rolling onto the scene in 1989, these burly EMD units were among the first US-built power equipped with the then-new wider safety cabs, and were designated as the "SD60M" for modified to distinguish them from the first group with conventional cabs. With a whopping 3800 horsepower under the hood, you can still find these distinctive and colorful locos moving heavy freight on railroads big and small today. Based on the mid-production prototypes with their three-piece windshields, these Walther'sMainline HO models deliver outstanding performance and good looks at an affordable price. Read more about the newest members of the fleet on page 23 now!

# VACATION TIME IS TRAIN TIME!

Dreary winter days are long forgotten, and for the next two weeks you and the family are off on an adventure that promises a lifetime of memories. Getting there really is supposed to be half the fun, but after last year's endless miles of dusty detours, over-tired kids and expensive motels, deciding to take the train this year was the easiest part of planning your trip! Those colorful brochures you picked up at the station while waiting for your morning commuter train and the full-color magazine ads you read on the way home each night probably had something to do with it... and of course you're sure to get some ideas for that new layout under construction in the basement.... A distant headlight and the commanding voice of approaching air horns interrupt your thoughts. Moments later the sleek Alcos and shiny new cars glide to a stop at the platform, the conductor opens the drop-down steps, and welcomes everyone aboard. Business or pleasure, it was a scene repeated countless times at stations big and small all across America, and one you can easily bring to life on your HO layout with WaltherMainline® Alco PA-PBs, streamlined passenger cars, Cornerstone® kits and more! Turn to page 14 for more about the newest run of Alcos!

### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
