## ON THE COVER

They always say if only walls could talk, but these grimy buildings and their surroundings have plenty to tell any observer. Dark soot stains still speak proudly of the days when the entire works ran on coal and steam. The ancient brick paving bears the marks of horses' hooves digging in on rainy days with heavy loads, and you'll still find cinders in the weeds alongside, left there by the plant's hardworking O-6-0s. But through the decades and the many changes that followed, the company's big gantry crane has stood the test of time. These days it's a landmark in the city skyline, still going strong after years of lifting countless tons of raw materials and carefully positioning finished products in waiting railcars for delivery. Trackside scenes like these tell visitors a lot about your layout, and add plenty of realistic operating possibilities too. Best of all, they're easy to model in HO with Walther products including Cornerstone structures, the WaltherMainline Plymouth ML-8 Switcher and assorted freight cars, and the new Cornerstone Traveling Crane with Brick Street featured on page 9 in this issue!

@waltherstrains

# Good things in packages! **BIG**

Sure, good things do come in small packages, but these days, they're likely to arrive in very big boxes first! While they might not have ribbons and fancy gift-wrapping, today's trailers and containers do wear a rainbow of colors, and the tremendous variety of types handles everything from liquids to frozen food. Moved by ship, road or rail, these hard-working freight forwarders can be seen just about everywhere these days, making them a must for contemporary layouts! Modeling them is easy in HO with Walthers growing selection of SceneMaster™ containers and trailers, and you can expand operations with authentic details like the brand-new Cornerstone® Cross-Dock Truck Facility and Loading Ramps kits on page 8, along with WalthersProto® and new WalthersMainline® Thrall 40' Rebuilt single and five-unit well cars on page 6.

### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walters.com](http://walters.com), email us at [custserv@walters.com](mailto:custserv@walters.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
