ON THE COVER

It's possible whoever first said “bigger is better” may very well have worked for a railroad - and might still be working there today! But isn't just the “big guys” who think that way any more, as you'll find some of the biggest and best equipment the industry has to offer on modern regional short lines and in lease-fleet operations. Embracing all the power and excitement of their prototypes, our newest run of Walther's Mainline Evolution Series includes HO versions of some of the most colorful locomotives now in service with roads big and small! Under the hood, there's the proven power of a Walther's Proto® drive, and we've taken realism up a notch with ESU Sound and DCC that operates on both DCC or Standard DC layouts - Standard DC models are available too! Along with the new arrivals showcased on our cover and inside on page 30, more GEVOs are coming soon - check them out for the first time on page 4.

THINGS GOING BUMP IN THE NIGHT!

Well, you never know what'll happen when you invite a few fiends over for a Halloween get-together.... Who knew your wife already had her ghoul's night out planned. Next time, use your brains and dinner won't be such a thriller! Oh well, nobody went psycho, and once everyone got into the spirit, we were able to dig-up a little fun and excitement after all. Now if you've taken a shining to our little scene don't go screaming to your mummy. Throw on your cape and fly to your participating dealer, who'll be happy to scare up some of the new HO SceneMaster Zombies, and Split-Level House with Attached Garage (see page 7 for more photos and features) from Tomb... er uh, Cornerstone!
