## ON THE COVER

It's not uncommon for train crews to have their hands full crossing this river valley. Short, heavy consists have long been the rule on this line, and you'll hear engines working hard long before you ever see them. Off in the distance, there's a sudden fury of sound and a burst of gray-black exhaust as a pair of SW1200s charge over the bridge, making a run for the climb on the other side. Bridges have been an essential part of railroading from the beginning, and while they often presented quite a challenge to civil engineers and construction crews, Cornerstone has three new kits to make them easier than ever to model on your N Scale layout! The all-new Single-Track Arched Pratt Truss Bridge, and the versatile Bridge Pier 2-Pack and Bridge Abutment 2-Pack kits offer plenty of options to model these important structures in your favorite era. Complete details on these and other Cornerstone N Scale bridge kits are on page 8 in this issue!

# Mail by Rail

Few if any travelers even glance at the dark brick building in the shadow of Union Station. The signs may say "Post Office," but this operation bears little resemblance to any facility visited by the public. Some may wonder at the odd mix of cars they see from the windows of passing trains, where shiny streamliner and battle-scarred heavyweight stand side-by-side, joined by the occasional express reefer or boxcar. The flash of a headlight signals another switch engine darting in and out, spotting and picking up cars. The run might only be a few blocks long to the station, but every second counts and there's no excuse for the slightest delay! From dedicated mail trains to nonstop-trackside action, Walthers makes it easy to bring all-important mail traffic to your HO steam- or diesel-era layout, with models like the Cornerstone® Trackside Post Office, and the all-new WalthersProto® HO 70' Heavyweight Railway Post Office - Baggage Cars.

#### A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walther's.com, email us at [custserv@walther's.com](mailto:custserv@walther's.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
