ON THE COVER

Accommodations, connections, locals, milk runs, commuters... call them what you will, these little trains are truly the unsung heroes of passenger operations. Known by numbers instead of names, they quietly shuttle to and from their outlying terminals, paying the bills by moving passengers, mail and express daily except Sunday. But something is clearly different as service resumes on this busy Monday morning... the gentle panting of an aging steamer has given way to the steady rumble of a brand-new GP7 fresh off the line from EMD, and equipped especially for passenger work. While trains like this often ran for years with older cars, they were some of the first to receive brand-new diesels as railroads sought to reduce costs and modernize their image with the traveling public. An authentic addition to your HO fleet, our latest *WalthersProto* GP7s includes period passenger and freight engines with a host of railroad-specific details. See the full selection and a complete list of features on page 6.

SO LONG, WINTER!

The fog is slow to burn away, leaving a cool dampness hanging in the morning air. But as the pale sunshine grows stronger, patches of mud and standing water slowly appear as the last of the ice and snow finally surrender. Between trains, there's time to scout the right-of-way for a perfect photo spot along this passing siding, a job made far easier without hat, scarf, gloves, boots and heavy coat! A distant blast of air horns gives us ample time to check the cameras, and moments later a unit oil train thunders past the viewfinder. Seconds after the westbound passes, air brakes release and we hear coupler knuckles tightening as the stack train we photographed earlier resumes its own journey. A little time at trackside is sure to give you ideas and inspiration for your own layout, and bringing them to life is easy with Walther's Proto® and SceneMaster™ models!

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

WALTHERSPROTO TRUCK SALE

Improve Performance & Realism with WaltherProto Trucks – Save Now on Select HO Styles!

Tune up your fleets with new WaltherProto trucks! Covering a full range of styles used on prototype equipment from the steam-era to the present, each comes fully assembled with highly detailed sideframes. Correct 33" or 36" turned metal wheelsets and ultra-smooth rolling metal or plastic axles as appropriate, provide authentic detail and outstanding performance. An easy upgrade for many older plastic, brass or scratchbuilt models — they're available for a limited time at great prices – while supplies last!

Freight Car Trucks

Big or small, freight cars are no strangers to hard work, and WaltherProto trucks are an easy way to improve performance and realism. The selection includes trucks with plain bearings found on steam- and early diesel-era equipment, along with roller bearing styles for the larger and heavier cars of today. Easy to install on most plastic, scratchbuilt or brass models, each includes a pair of assembled trucks with correct 33" or 36" wheels.

Caboose Trucks

Caboose trucks were as unique that railroads that owned them, and many went to great lengths to provide crews with a smoother ride. For ease of maintenance some opted for variations of standard trucks fitted with leaf springs, while others designed and custom-built them in their own shops. Adding this important and realistic detail to your fleet is easy with these accessories, featuring authentic spring details, foundry marks and correct bearings.

Passenger Trucks

You'll be riding in style with cars fitted with WalthersProto passenger car trucks! Choose from classic two- and three-axle types used under steam-era heavyweights, or the innovative designs for lightweight cars from the postwar years and beyond. Fully assembled and offered in appropriate colors, these sets are an excellent upgrade for brass, scratchbuilt and plastic cars of all kinds.

Express Car Trucks

Travelers weren't the only ones in a hurry, as railroads also moved packages and perishables aboard many crack passenger trains. This required equipment built for high-speed service, and express cars of all types rode on purpose-built trucks similar to those used on the road's passenger fleet. Based on some of the most commonly used styles, these WaltherProto trucks feature detailed sideframes in appropriate colors, with free-rolling metal axles and correctly sized wheels.

WALTHERS®

Layout Control System HO, N, Z, S, and O SCALE

GREAT NEW PRODUCTS NOW IN STOCK!

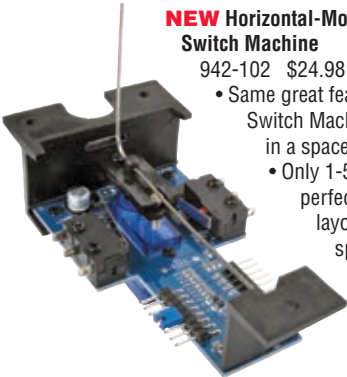

Make the switch to Walthers Controls for easy and affordable switch machine operation!

Plug-and-play wiring eliminates splicing and soldering between the servo-based, slow-motion switch machine, power supply, LED pushbutton controllers and other accessories, each built tough for years of dependable operation. User-friendly instructions and drilling templates are provided for easy installation on HO, N, Z, S or O Scale layouts using DC or DCC power.

NEW Horizontal-Mount Switch Machine

942-102 \$24.98

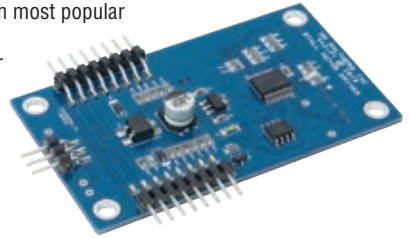

- Same great features as Switch Machine (942-101) in a space saving design!
- Only 1-5/8" (4.1cm) tall - perfect for multi-deck layouts or anywhere space is limited

NEW Stall Motor Switch Machine Controller

942-161 \$19.98

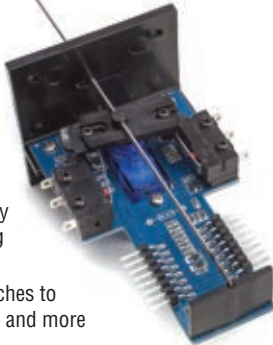

- Easily upgrade your existing stall motor switch machines to use Walthers Layout Control System plug & play fascia controls & indicators
- Works with most popular brands of stall motor switch machines
- Integrated DCC accessory decoder

Vertical-Mount Switch Machine

942-101 \$24.98

- Fully assembled, servo-based unit works on DC or DCC layouts
- Simple plug-and-play wiring - no soldering or splicing!
- Two built-in 5A switches to power frogs, signals and more

NEW Edge Connector for Tortoise® Switch Machine

942-142 pkg(2) \$7.98

- Plug & play wiring for Tortoise® Switch Machine (sold separately)
- Includes 6" (15.2cm) motor connection cable with plug for direct connection to Stall Motor Controller (942-161, sold separately)

Distribution Block

942-111 \$11.98

- Simplifies electrical connections from power supply to as many as 8 switch machines
