**PRE-ORDER DUE DATE: WEDNESDAY NOVEMBER 14<sup>TH</sup> 2018**

# ORDERING INFORMATION & TERMS

October 2018

Dear Model Railroader,

The Atlas supply chain was recently affected by an announced supplier factory closure; however, Atlas is working hard in making any product delay minimal. Affected Atlas tooling is currently being transferred within our known quality supplier network. Other Atlas locomotive, rolling stock, and all Atlas track and accessory suppliers were not impacted by this single factory event. We apologize for any delays this situation may cause and we will keep you updated with additional information as it becomes available. You can stay up-to-date and receive the latest Atlas news and offers, delivered to your inbox by visiting [www.atlasrr.com](http://www.atlasrr.com) and signing up for our email newsletter – the Atlas Insider. As evidenced by the October 2018 Atlas All Scales Monthly Catalog, Atlas announcements and arrivals continue apace.

It is important to point out that, due to the above supplier event, some Atlas locomotive and rolling stock PRE-ORDERS are temporarily not guaranteed. Instead, Atlas will estimate product demand and production will begin on models before announcing them. Once production has begun, a notification will be released to the Atlas' authorized Dealer, Distributor and Consumer network. This notification comes in the form of Atlas' All Scales Monthly Catalog (ASMC) which focuses on the current month's planned and specified announcements, allowing customers to place pre-orders with their local hobby shop. These orders will be limited in quantity and order allocations may be necessary. Other products will remain GUARANTEED PRE-ORDERS and will be announced prior to production in the ASMC.

There are a few select products that are "SURPRISE ANNOUNCEMENTS" and will arrive within weeks of their announcement in the ASMC. Limited quantities will be available and allocations may be necessary on these items. The announcement pages of the ASMC are clearly marked as to whether an announcement is a PRE-ORDER, a GUARANTEED PRE-ORDER or a SURPRISE ANNOUNCEMENT. If you have any questions, please contact Atlas or your local hobby shop. If you need assistance finding a dealer near you, don't forget our Dealer Locator! Check out the locator at <http://shop.atlasrr.com/storeLocator.aspx>. You can also view and pre-order products via Atlas' online store [shop.atlasrr.com](http://shop.atlasrr.com). I apologize in advance for any disappointment the lack of a guarantee pre-order may bring to customers who may not receive a desired product. Atlas will work as quickly as possible to restore our normal guaranteed pre-order system.

The increasingly popular Atlas Online Store has been updated to make it easier to accurately identify the inventory status of each and every Atlas product. The Stock Status indicator reflects the product status of a listed item at any given time. Now it is easier than ever to see if a product is in-stock, a pre-order, backordered, or sold-out. This in turn enables all customers (dealers, distributors and consumers) to quickly ascertain the status of any product they may want. For more information on this change, please visit <https://shop.atlasrr.com/blog.aspx>

We hope that you enjoy the product announcements and arrivals on the pages within, and as always, thank you for your continued support of Atlas!

Happy Halloween,

Joe Kolnoski

Vice President of Sales

**ATLAS MASTER® HO MP15DC LOCOMOTIVE**

**SHIPPING FROM ATLAS WEEK OF 10/8/18**

- Factory-equipped with AccuMate® knuckle couplers
- Coupler pocket designed to accept AccuMate® Proto-couplers
- Five-pole skewed armature motor with dual flywheels for optimum performance at all speeds
- Directional lighting with golden-white LEDs

**ATLAS MASTER™ SERIES SILVER ADDITIONAL FEATURES:**

- NMRA 8-pin plug for DCC (Decoder-ready)

**DCC OPERATION FEATURES:**

- Supports all DCC-programming modes
- Flexible mapping of function keys F0 to F28.
- A total of six DCC function outputs are available
- Follows all NMRA DCC standards and recommended practices.

**ANALOG (DC) OPERATION FEATURES:**

- The LokSound Select Dual-Mode decoder allows your Atlas Gold Series locomotive to be used on DC as well as on DCC layouts.

*Please note that the Atlas Quantum Engineer will NOT operate an Atlas Gold Series locomotive equipped with a LokSound Select decoder on an analog (DC) layout. However, the sound and lighting functions of the LokSound Select decoder in the locomotive can be controlled by an easy-to-use basic DCC system.*

*Also note that on a DC-powered layout, a DCC and sound equipped locomotive CANNOT be consisted with another locomotive that does not also have both DCC and sound. (This statement does NOT apply to DCC-equipped locomotives operating on a DCC layout.)*

**ESU Sound Functionality Features:**

- Over 20 sound effects are available, including engine start-up and shutdown, prime mover sounds through all eight notches, bell, air horn, air compressor, dynamic brakes and more.
- There are 16 user-selectable horns, 2 user-selectable bells, and 2 user-selectable synchronized brake squeals.
- Manual and Automatic Notching modes with the ability to change modes "on the fly" are provided for true realism.

AccuMate® couplers are made under license from AccuRail, Inc.

**Gold Models are equipped with ESU Loksound!**
